**Journal of the National Cancer Institute** ,1978      *Monopoly Television* Jack Banks,2018-02-12 In this book Jack Banks examines the historical development of music video as a commodity and analyzes the existing structures within which music video is produced distributed and exhibited on its premier music channel MTV In August 1981 Music Televisionnow popularly known as MTVwas launched Within a matter of years it revitalized a struggling record industry made the careers of leading pop stars like Madonna Boy George Cyndi Lauper and Duran Duran infiltrated traditional network television and the movie industry revolutionized the advertising industry and stimulated purchases in several markets most notably fashion apparel The reach of MTV has proven long and profitable In this book Jack Banks examines the historical development of music video as a commodity and analyzes the existing structures within which music video is produced distributed and exhibited on its premier music channel MTV Who controls MTV What part do record companies play in the financing and production of music video How do the power brokers in the business affect the ideological content of music video Given the tight sphere of influence within the music industry what are the future trends for music video and for artistic freedom of expression Banks tackles these questions in an intelligent lively and sophisticated investigation into one of the most influential media enterprises of our society      Journal National Cancer Institute (U.S.),1974      Global Repertoires Andreas Gebesmair,2017-07-05 With just four record companies controlling nearly 80 per cent of the world market in popular music issues of globalization are evidently significant to our understanding of how and why popular music is made and distributed As transnational industries seek to open up increasingly larger markets the question of how local and regional music cultures can be sustained is a pressing one To what extent does the global music market offer opportunities for the worldwide dissemination of local music within and beyond the major industry The essays in this volume examine the structure and strategies of the transnational music industry with its deployment of mass communication technologies including sound carriers satellite broadcasting and the Internet The book also explores local and individual experience of global music and this music s dissemination through migration and communities of interest as well as the ideological and political use of different kinds of music In contrast to recent arguments which posit an American imperialist dominance of popular music the contributors to this volume find that the global repertoire of the major labels no longer represents the culture of a certain country but is fed by different sources The essays here discuss how we can characterize this vast de centered industry and offer perspectives on the so called international repertoire that calls for a melodic structure ballad forms unaccented vocalisation and an image that has global recognition      Cancer Immunotherapy and Nanobiotechnology: An Interdisciplinary Approach Nima Rezaei,2025-08-18 The Cancer Immunotherapy and Nanobiotechnology An Interdisciplinary Approach is the twenty fifth volume of the Interdisciplinary Cancer Research series publishes comprehensive volume on cancer immunotherapy and nanobiotechnology The volume starts with chapters on targeting mitochondria in cancer

immunotherapy immunotherapy in oncology and cancer treatments through immunological pathways Immune checkpoint inhibitors as well as engineered iPSC based strategies are explained in other chapters after discussion on cancer stem cells CAR NK CAR T cells and DC therapy are the subjects of the following chapters Then tumor microenvironment in response to immunotherapy and T cell responses during cancer immunotherapy through the use of imaging are explained The second half of the volume is focused on application of nanobiotechnology in cancer starting with general chapters on nanotechnology for cancer research nanotechnology and cancer therapy strategies nanomedicine based cancer immunotherapy applications of nanocarrier systems in cancer treatment and nanoformulations in cancer theranostics Then the role of metal nanomaterials in cancer therapy synthetic drug nanodelivery systems nanoparticles loaded with cytotoxic agents nanocarrier mediated drug delivery vesicular nanosystem and nanoscale metal organic frameworks for cancer targeted therapy are explained This is the main concept of Cancer Immunology Project CIP which is a part of Universal Scientific Education and Research Network USERN This interdisciplinary book will be of special value for those who wish to have an update on cancer immunotherapy and nanobiotechnology

The Content Analysis Reader Klaus Krippendorff,2009 Compiled and edited by a recognized leader in the field and author of the best selling text on content analysis of recent times      *Viral Tumorigenesis Report* ,      Bhangra Moves AnjaliGera

Roy,2017-07-05 Bhangra is commonly understood as the hybrid music produced in Britain by British Asian music producers through mixing Panjabi folk melodies with western pop and black dance rhythms This is derived from a Punjabi harvest dance of the same name This book looks at Bhangra s global flows from one of its originary sites the Indian subcontinent to contribute to the understanding of emerging South Asian cultural practices such as Bhangra or Bollywood in multi ethnic societies It seeks to trace Bhangra s moves from Punjab and its return back to look at the forces that initiate and regulate global flows of local texts and to ask how their producers and consumers redirect them to produce new definitions of culture identity and nation The critical importance of this book lies in understanding the difference between the present globalizing wave and previous trans local movements Gera Roy contrasts the frames of cultural imperialism with those of cultural invasion to show how Indian cultures have constantly reinvented themselves by cross pollinating with invading cultures such as Hellenic Persian Arabic and many others in the past By looking at Bhangra s flows to and from India the book revises the relation between culture space and identity and challenges boundaries It weighs both the uses and costs of visibility provided

by global networks to marginalized groups in diverse localities and explores whether collaborations between Bhangra practitioners largely of working class origin give ordinary people any control over the circulation of culture in the global village Finally the book considers whether cultural practices can alter hierarchies and power structures in the real world

**Media Review Digest** C. Edward Wall,1995      **Religion and Volunteering** Lesley Hustinx,Johan von Essen,Jacques Haers,Sara Mels,2014-07-17 Religion is considered a key predictor of volunteering the more religious people are the more likely they are to volunteer This positive association enjoys significant support in current research in fact it could be considered the default perspective on the relationship between both phenomena In this book the authors claim that although the dominant approach is legitimate and essential it nonetheless falls short in grasping the full complexity of the interaction between religion and volunteering It needs to be recognized that there are tensions between religion and volunteering and that these tensions are intensifying as a result of the changing meaning and role of religion in society Therefore the central aim and contribution of this book is to demonstrate that the relationship between religion and volunteering is not univocal but differentiated ambiguous and sometimes provocative By introducing the reader to a much wider landscape of perspectives this volume offers a richer more complex and variable understanding Apart from the established positive causality the authors examine tensions between religion and volunteering from the perspective of religious obligation religious change processes of secularization and notions of post secularity They further explore how actions that are considered altruistic politically neutral and motivated by religious beliefs can be used for political reasons This volume opens up the field to new perspectives on religious actors and on how religion and volunteering are enacted outside Western liberal and Christian societies It emphasizes interdisciplinary perspectives including theology philosophy sociology political science anthropology and architecture      Cancer of the Head and Neck Jeffrey Myers,Ehab Hanna,2016-08-30 Offering a comprehensive multidisciplinary approach to head and neck oncology Cancer of the Head and Neck Fifth Edition delivers authoritative guidance to the entire head and neck cancer care team Retaining an expert surgical focus that has made it a classic in the field this edition incorporates new disease and site specific chapters as well as a greater emphasis on reconstruction and rehabilitation Written and edited by globally renowned head and neck surgeons it s an indispensable resource for practitioners trainees and other health care professionals who care for patients with head and neck cancer
