Pensar México Maruán Soto Antaki, 2017-10-20

Hemos construido un país de solución, logos y comentarios. Por qué la violencia y la humillación parecen inherentes a nuestra historia. Pensar México es una verdadera radiografía cultural de nuestro país. En Pensar Medio Oriente Maruán Soto Antaki plantea preguntas esenciales para entender el mundo árabe: ¿es sinónimo de islámico? Es indisoluble el Islam del terrorismo. ¿Qué tan profundas son las raíces de los conflictos? Ahora centra su atención en un ámbito más cercano: México. Para entender Medio Oriente debemos dirigir nuestra mirada al lenguaje, pues ahí está el corazón de la cultura árabe. En el caso de México hay que hacer lo mismo. La forma como hablamos y como callamos los mexicanos dice mucho de quiénes somos. Soto Antaki cuestiona la difundida idea de que en México el significado de las palabras varía dependiendo del contexto: según esto podríamos insultar con afecto o sin tener la intención de agredir. Esto no es así: el problema es que al relativizar el lenguaje al grado en el que lo hemos hecho, hemos vaciado a las palabras de significado. Ley, corrupción, orden: son palabras que pueden querer decir todo y nada. Esta erosión de significado revela un problema realmente grave: dado que el lenguaje es el principal elemento civilizatorio y que las lites culturales de nuestro país parecen haber renunciado a construir discursos públicos, ya sólo se hablan a sí mismas.

México en el mundo de las colecciones de arte María Luisa Sabau García, 1994 **Las elites del poder en México** Roderic Ai Camp, 2006

El presente libro aborda la formación de la élite: su fundamento es la suposición de que las elites existen que son relevantes que funcionan en todos los ámbitos sociales y tienen una influencia medular en sus sucesores al actuar como mentores de las subsiguientes generaciones de jóvenes líderes. Zacatecas Historia mínima del teatro en México Eduardo Contreras Soto, 2021-04-15 México es una nación con un pasado escénico extenso y diverso sometido a los avatares de factores políticos y sociales y sobre todo a mutaciones en los estilos y en las dinámicas de la vida artística. En tanto actividad creativa que involucra la participación de artistas de diversa índole en esta obra se siguen las huellas del teatro a través de tres dimensiones: la historia de los actores de las compañías teatrales y de la actuación; la de los dramaturgos, los directores y sus obras; y la de los espacios teatrales y de la escenografía. Toda esta riqueza se ha sintetizado con el propósito de presentar un panorama general del teatro que el lector podrá disfrutar. Esta es una historia que merece contarse: se apunta al final de este libro y en efecto ha sido contada con erudición y elegancia para beneficio de todos los interesados en el pasado lejano y reciente del teatro mexicano. **España desde México** Ascensión H. de León-Portilla, 2004. Acercamiento y rechazo: trauma y fusión. Al fin es en síntesis la historia del encuentro de lo hispánico con lo mexicano. Son muchas y muy diversas entre sí las formas de presencia hispánica en la realidad integral de México. De ellas hay una todavía reciente que tal vez cuenta entre los acercamientos más significativos y fecundos: la inmigración republicana como consecuencia de la guerra civil en España. Esta rica presencia humana hasta hoy actuante es singular y única en la historia de ambos países por el número de los que se fueron y vinieron y sobre todo por la preparación que posea una gran parte de ellos. Su huella ha sido profunda en el México contemporáneo y hoy es asunto de interés para españoles y mexicanos. La profesora Ascensión Hernández con el manejo de fuentes escritas y charlas directas con los protagonistas nos ofrece un rico y variado friso de la historia reciente de España desde América y muy específicamente desde México.
