Understanding Dan Mark Walter Bartusch, 2003-06-01 This book investigates the Dan Danite tradition in the Hebrew Bible to determine not only what the Bible tells us about Dan but also how far traditions about the territory city ancestor and tribe may have influenced each other Bartusch argues that the political and theological interests reflected in the relatively late work of the Deuteronomistic Historian have cast a shadow over some earlier traditions and that by combining social

science models and newer literary criticism with the more traditional historical critical methodologies the original meaning of the traditions of Dan may be recovered and clarified The conclusion of such a study is that the Hebrew Bible as a whole does not entirely support the negative portrayal of Dan in its later traditions *Tribes and State Formation in the Middle East* Philip Shukry Khoury, Joseph Kostiner, 1990 Offering a fuller understanding of the complexities and particular patterns of state formation in regions where tribes have exercised a significant influence this volume focuses on the continuing existence of tribal structures and systems in contemporary times within contemporary nation states The contributors offer hypotheses as to why these groups have managed to survive and what impact they have had on modern states backcover *The Origins of Chinese Civilization* David N. Frontier Nomads of Iran Richard Tapper, 1997-08-28 Richard Tapper's 1997 book which is based on three decades of ethnographic fieldwork and extensive documentary research traces the political and social history of the Shahsevan one of the major nomadic peoples of Iran The story is a dramatic one recounting the mythical origins of the tribes their unification as a confederacy and their decline under the Pahlavi Shahs The book is intended as a contribution to three different debates The first concerns the riddle of Shahsevan origins while another considers how far changes in tribal social and political formations are a function of relations with states The third discusses how different constructions of the identity of a particular people determine their view of the past In this way the book promises not only to make a major contribution to the history and anthropology of the Middle East and Central Asia but also to theoretical debates in both disciplines

These "Thin Partitions" Joshua Englehardt, Ivy Rieger, 2017-05-15 *These Thin Partitions* explores the intellectual and methodological differences that separate two of the four subdisciplines within the field of anthropology archaeology and cultural anthropology Contributors examine the theoretical underpinnings of this separation and explore what can be gained by joining them both in university departments and in field research In case studies highlighting the benefits of interdisciplinary collaboration contributors argue that anthropologists and archaeologists are simply not speaking the same language and that the division between fields undermines the field of anthropology as a whole Scholars must bridge this gap and find ways to engage in interdisciplinary collaboration to promote the health of the anthropological discipline By sharing data methods and ideas archaeology and cultural anthropology can not only engage in more productive debates but also make research accessible to those outside academia *These Thin Partitions* gets to the heart of a well known problem in the field of anthropology and contributes to the ongoing debate by providing concrete examples of how interdisciplinary collaboration can enhance the outcomes of anthropological research Contributors Fredrik Fahlander Lilia Fernandez Souza Kent Fowler Donna Goldstein Joseph R Hellweg Derek Johnson Ashley Kistler Vincent M LaMotta John Monaghan William A Parkinson Paul Shankman David Small

The Himalayan Border Region Christoph Bergmann, 2016-04-18 Drawing from extensive archival work and long term ethnographic research this book focuses on the so called Bhotiyas former trans Himalayan

traders and a Scheduled Tribe of India who reside in several high valleys of the Kumaon Himalaya. The area is located in the border triangle between India, the Tibet Autonomous Region, TAR, People's Republic of China and Nepal, where contestations over political boundaries have created multiple challenges as well as opportunities for local mountain communities. Based on an analytical framework that is grounded in and contributes to recent advances in the field of border studies, the author explores how the Bhotiyas have used their agency to develop a flourishing trans-Himalayan trade under British colonial influence to assert an identity and win legal recognition as a tribal community in the political setup of independent India and to innovate their pastoral mobility in the context of ongoing state and market reforms. By examining the Bhotiyas' trade identity and mobility, this book shows how and why the Himalayan border region has evolved as an agentive site of political action for a variety of different actors.

Education and Society in a Changing Mizoram Lakshmi Bhatia, 2012-12-06

Located in the domain of cultural politics, the book, with rich ethnographical data from Mizoram, a lesser-known and understood state, brings the community, state and culture to centre stage along with family and stratification of the sociological discourse in education. The book argues for a re-look at school education in Mizoram, besides providing critical insights into the North East region as a whole. It also points to the dilemmas of development in that region and suggests possible ways out of the impasse. Marking a significant departure from conventional thinking on education as human capital as reflected in North East Vision 2020, the book strongly advocates the need for critical pedagogies based on learning from conflict, inculcating the values of tolerance and compassion as a precursor to peace, reconceptualising development not merely as economic but as an indicator of national happiness and valuing lives equally, besides respect for traditional institutions, thus marking a break from the much-resented paternalism that underpins all state interventions in education. One of the first studies of its kind regarding experience and practice of education, the book makes an important contribution to the role that education can play to usher in peace and promote respect for differences.
