His public acts, if he be in public office, are readily understood by them as the logical consequence of the characteristics they have learned to know and have seen expressed in his hours of relaxation. By the great mass of the people of the United States Theodore Roosevelt was judged only by his public life and the expression of his personality was seen through his fulfilment of public office. Fortunately for the traditions concerning him soon after his death the book Theodore Roosevelt's Letters to His Children appeared, which moulded those traditions nearer reality than they ever otherwise would have been. For the majority of men who had judged him by his public career alone, saw then in these letters the real personality with all the charm of its human qualities. It would seem in the introduction to one of the books which contains the records of trips taken by him for relaxation or his short essays describing his observations and his thoughts at these times that it would be most fitting to consider Theodore Roosevelt as a companion.
