Youth and Social Change in Eastern Europe and the Former Soviet Union Charles Walker, Svetlana Stephenson, 2013-09-13 Two decades have now passed since the revolutions of 1989 swept through Eastern Europe and precipitated the collapse of state socialism across the region engendering a period of massive social economic and political transformation This book explores the ways in which young people growing up in post socialist Eastern Europe and the former Soviet Union negotiate a range of identities and transitions in their personal lives against a backdrop of thoroughgoing transformation in their societies Drawing upon original empirical research in a range of countries the book s contributors explore the various freedoms and insecurities that have accompanied neo liberal transformation in post socialist countries in spheres as diverse as consumption migration political participation volunteering employment and family formation and examine the ways in which they have begun to re shape different aspects of young people s lives In addition while social change is a central theme of the issue all of the chapters in the collection indicate that the new opportunities and risks faced by young people continue both to

underpin and to be shaped by familiar social and spatial divisions not only within and between the countries addressed but also between East and West This book was originally published as a special issue of Journal of Youth Studies **Being and Becoming European in Poland** Marysia H. Galbraith, 2015-03-15 Overthrowing communism in 1989 and joining the European Union in 2004 the Polish people hold loyalties to region country and now continent even as the definition of what it means to be European remains unclear Paying particular attention to those who came of age in the earliest years of the neoliberal and democratic transformations this book uses the life story narratives of rural and urban southern Poles to reveal how being European is considered a fundamental component of being Polish while participants are simultaneously becoming European Ultimately this study demonstrates how the EU is regarded as both an idea and an instrument and how ordinary citizens make choices that influence the shape of European identity and the legitimacy of its institutions **Migrants and Cities** Margit Fauser, 2016-04-22 Migrants have organized at all times and in all cities and places The processes of their accommodation however differ with local authorities and other state institutions playing an important role in these processes Offering comprehensive empirical insights both from recent sites of immigration in Southern Europe as well as from places of more established immigration in the north this book examines the accommodation of migrant organizations in different cities and the factors that affect this process It thus sheds light on the manner in which the interplay of immigration regime national integration policy and local responses shape the differing patterns and trajectories observed in the formation and action of migrant organizations across Europe **Refugees and Cultural Transfer to Britain** Stefan Manz, Panikos Panayi, 2013-10-18 This book is the first to focus specifically upon the relationship between refugees and intercultural transfer over an extensive period of time Since circa 1830 a series of groups have made their way to Britain beginning with exiles from the failed European revolutions of the mid nineteenth century and ending with refugees who have increasingly come from beyond Europe The book addresses four specific questions First what roles have individuals or groups of refugees played in cultural and political transfers to Britain since 1830 Second can we identify a novel form of cultural production which differs from that in the homeland Third to what extent has dissemination within and transformation of the receiving culture occurred Fourth to what extent do refugee groups themselves undergo a process of cultural restructuring The coverage of the individual essays ranges from high culture through politics and everyday practices The volume moves away from general perceptions of refugees as problem groups and rather focuses on the way they have shaped and indeed enriched British cultural and political life This book was previously published as a special issue of Immigrants and Minorities *An Immigration History of Britain* Panikos Panayi, 2014-09-11 Immigration ethnicity multiculturalism and racism have become part of daily discourse in Britain in recent decades yet far from being new these phenomena have characterised British life since the 19th century While the numbers of immigrants increased after the Second World War groups such as the Irish Germans and East European Jews have been arriving settling and impacting on British society from the Victorian period

onwards In this comprehensive and fascinating account Panikos Panayi examines immigration as an ongoing process in which ethnic communities evolve as individuals choose whether to retain their ethnic identities and customs or to integrate and assimilate into wider British norms Consequently he tackles the contradictions in the history of immigration over the past two centuries migration versus government control migrant poverty versus social mobility ethnic identity versus increasing Anglicisation and above all racism versus multiculturalism Providing an important historical context to contemporary debates and taking into account the complexity and variety of individual experiences over time this book demonstrates that no simple approach or theory can summarise the migrant experience in Britain

Jewish Migration in Modern Times Semion Goldin, Mia Spiro, Scott Ury, 2020-06-09 This collection examines various aspects of Jewish migration within from and to eastern Europe between 1880 and the present It focuses on not only the wide variety of factors that often influenced the fateful decision to immigrate but also the personal experience of migration and the critical role of individuals in larger historical processes Including contributions by historians and social scientists alongside first person memoirs the book analyses the historical experiences of Jewish immigrants the impact of anti Jewish violence and government policies on the history of Jewish migration the reception of Jewish immigrants in a variety of centres in America Europe and Israel and the personal dilemmas of those individuals who debated whether or not to embark on their own path of migration By looking at the phenomenon of Jewish migration from a variety of disciplinary perspectives and in a range of different settings the contributions to this volume challenge and complicate many widely held assumptions regarding Jewish migration in modern times In particular the chapters in this volume raise critical questions regarding the place of anti Jewish violence in the history of Jewish migration as well as the chronological periodization and general direction of Jewish migration over the past 150 years The volume also compares the experiences of Jewish immigrants to those of immigrants from other ethnic or religious communities As such this collection will be of much interest to not only scholars of Jewish history but also researchers in the fields of migration studies as well as those using personal histories as historical sources This book was originally published as a special issue of East European Jewish Affairs

Migration, Refugee Policy, and State Building in Postcommunist Europe Oxana Shevel, 2011-10-24 Why do similar postcommunist states respond differently to refugees Why do some states privilege certain

refugee groups while other states do not This book presents a theory to account for this puzzle and it centers on the role of the politics of nation building and of the office of the UN High Commissioner for Refugees UNHCR A key finding of the book is that when the boundaries of a nation are contested and thus there is no consensus on which group should receive preferential treatment in state policies a political space for a receptive and nondiscriminatory refugee policy opens up The book speaks to the broader questions of how nationalism matters after communism and under what conditions and through what mechanisms international actors can influence domestic policies The analysis is based on extensive primary research the author conducted in four languages in the Czech Republic Poland Russia and Ukraine
