Polands Journalists Professionalism And Politics:

Poland's Journalists Jane Leftwich Curry,1990-02-22 Originally published in 1990 Polish Journalists Professionalism and Politics is a study of how in the face of constant political instructions and restrictions Polish journalists act as independent forces in their society Professionals, Power and Solidarity in Poland Michael D. Kennedy,1991-02-14 The Solidarity movement of the early 1980s not only triggered a transformation in Polish society it forced a fundamental reconsideration of the nature of socialism throughout the Soviet Union and Eastern Europe Seen as one of the most important social movements of the century this pathbreaking study analyses Solidarity's significance in Soviet societies

The Rational Politician: Exploiting the Media in New Democracies Andrew Milton,2024-11-01 This title was first published in 2000 An examination of the way in which post communist political actors have persisted in exploiting controlling and manipulating the media in spite of rhetorical commitments to freer and more independent media **Historical**

Dictionary of Journalism Ross Eaman,2009-03-02 Journalism is the discipline of gathering writing and reporting news and it includes the process of editing and presenting news articles Journalism applies to various media including but not limited to newspapers magazines radio television and the internet The word journalist started to become common in the early 18th century to designate a new kind of writer about a century before journalism made its appearance to describe what those writers produced Though varying in form from one age and society to another it gradually distinguished itself from other forms of writing through its focus on the present its eye witness perspective and its reliance on everyday language The Historical Dictionary of Journalism relates how journalism has evolved over the centuries This is done through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on the different styles of journalism the different types of media and important writers and editors **Background To Crisis** Maurice D. Simon,2019-03-04 The

1970s in Poland were marked by rapid social economic and political change that included the phenomenal expansion of Polish industry the growth of economic ties with the West food shortages and substantial domestic unrest The Polish government was faced with a large number of problems foreign as well as domestic that to date have not been amenable to lasting solutions Efforts to solve one problem often have merely exacerbated difficulties in other areas The authors of this volume examine many of the policy related developments in Poland during Gierke's regime from his accession to power in late 1970 to his dismissal in 1980 The book begins with an overview of Poland's recent political evolution and concludes with an analysis of the nation's status at the end of the 1970s The chapters describe political participation and integration the role of various groups in the Polish political process and major policy issues facing the Polish government **Imagining the World from Behind the Iron Curtain** Malgorzata Fidelis,2022 The Sixties occupy a prominent place in popular culture and scholarship as an era of global upheavals including the Civil Rights Movement de colonization radical social movements student and youth protests and the Vietnam War This pioneering book explores the seemingly isolated Eastern bloc and a

non capitalist context demonstrating the impact of those global upheavals on young people in Poland in the form of international youth culture protest movements and counterculture *The European Handbook of Media Accountability* Tobias Eberwein, Susanne Fengler, Matthias Karmasin, 2017-11-08 In recent years the Leveson Inquiry in Great Britain as well as the EU High Level Group on Media Freedom and Pluralism have stirred heated debates about media accountability and media self regulation across Europe How responsible are journalists How well developed are infrastructures of media self regulation in the different European countries How much commitment to media accountability is there in the media industry and how actively do media users become involved in the process of media criticism via social media With contributions from leading scholars in the field of journalism and mass communication this handbook brings together reports on the status quo of media accountability in all EU members states as well as key countries close to Europe such as Turkey and Israel Each chapter provides an up to date overview of media accountability structures as well as a synopsis of relevant research exploring the role of media accountability instruments in each national setting including both media self regulation such as codes of ethics press councils ombudspersons and new instruments that involve audiences and stakeholder groups such as media blogs and user comment systems A theoretically informed cross national comparative analysis of the state of media accountability in contemporary Europe this handbook constitutes an invaluable basis for further research and policy making and will appeal to students and scholars of media studies and journalism as well as policy makers and practitioners

Outside the "Comfort Zone" Tatiana Klepikova, Lukas Raabe, 2020-07-06 Traditionally privacy studies have focused on the liberal democratic societies of the global West whereas non democratic contexts have played a marginal role in the discussion of the private and public spheres not in the least because of the political stances of the Cold War era This volume offers explorations of highly diversified performances and discourses of privacy by various actors which were embedded into the culturally economically and politically specific constructions of late socialism in individual states of the Warsaw Pact While the experience of socialism varied across the Bloc there were also some reactions to socialism and some reverse responses of socialist regimes to these reactions that one can trace through all states Contributions to this volume take us across the Eastern Bloc and beyond it from the Soviet Union into late socialist Poland Romania and East and West Germany While looking at specific countries they provide a glimpse into a broader perspective that reaches beyond the borders of individual late socialist states Together these articles document a palette of paradigms of the construction and transformation of the private spheres that overcame the national borders of individual states and left an imprint across the Eastern Bloc thereby contributing to rethinking Cold War rhetoric in regard to these states Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience News travels around the world in a split second affecting people in other countries in untold ways Although being on top of the news may be good at least for news junkies mass media also transmits values or the lack thereof condenses complex events and thoughts to simplified sound

bites and often ignores the essence of an event or story The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes Central and Eastern Europe After Transition Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions **Rebellious Civil Society** Grzegorz Ekiert, Jan Kubik, 2010-08-04 Poland is the only country in which popular protest and mass opposition epitomized by the Solidarity movement played a significant role in bringing down the communist regime This book the first comprehensive study of the politics of protest in postcommunist Central Europe shows that organized protests not only continued under the new regime but also had a powerful impact on Poland's democratic consolidation Following the collapse of communism in 1989 the countries of Eastern Europe embarked on the gargantuan project of restructuring their social political economic and cultural institutions The social cost of these transformations was high and citizens expressed their discontent in various ways Protest actions became common events particularly in Poland In order to explain why protest in Poland was so intense and so particularized Grzegorz Ekiert and Jan Kubik place the situation within a broad political economic and social context and test it against major theories of protest politics They conclude that in transitional polities where conventional political institutions such as parties or interest groups are underdeveloped organized collective protest becomes a legitimate and moderately effective strategy for conducting state society dialogue The authors offer an original and rich description of protest movements in Poland after the fall of communism as a basis for developing and testing their ideas They highlight the organized and moderate character of the protests and argue that the protests were not intended to reverse the change of 1989 but to protest specific policies of the government This book contributes to the literature on democratic consolidation on the institutionalization of state society relationship and on protest and social movements It will be of interest to political scientists sociologists historians and policy advisors Grzegorz Ekiert is Professor of Government Harvard University Jan Kubik is Associate Professor of Political Science Rutgers University Coronavirus, Crisis and Culture Ben Harbisher, Stuart Price, 2023-07-25 This volume represents a timely and essential contribution for both scholars and readers of the Coronavirus Pandemic Whereas the bulk of literary academic and investigative coverage of the Pandemic has focussed on factors such as i maintaining social cohesion ii developing a vaccine iii fighting fake news this submission explores the erosion of civil liberties and human rights during the pandemic the increase of policing and supervisory practices and the innovative ways in which

contemporary social movements have expressed their concerns at the measures governments have put in place The volume challenges restrictions placed on freedom of speech in which contrary opinions to mainstream public discourse have been branded as fake news disinformation or conspiratorial It questions the legitimacy of authoritative voices such as the BBC with regards to the regurgitation of political dogma and the profound lack of investigative reportage therein The volume examines how new or conventional social movements have responded to the pandemic and how fundamental human and civil rights such as those campaigned for by Black Lives Matter has united people from different backgrounds

National Identity and Foreign Policy Ilya Prizel,1998-08-13 This book is based on the premise that the foreign policy of any country is heavily influenced by a society s evolving notions of itself Applying his analysis to Russia Poland and Ukraine the author argues that national identity is an ever changing concept influenced by internal and external events and by the manipulation of a polity s collective memory The interaction of the narrative of a society and its foreign policy is therefore paramount This is especially the case in East Central Europe where political institutions are weak and social coherence remains subject to the vagaries of the concept of nationhood Ilya Prizel s study will be of interest to students of nationalism as well as of foreign policy and politics in East Central Europe
