The Political Economy of Reforms in Egypt Khalid Ikram,2018 Drawing on Khalid Ikram s extensive knowledge of economic policymaking at the highest levels The Political Economy of Reforms in Egypt lays out the enduring features of the Egyptian economy and its performance since 1952 before presenting an account of policy making growth and structural change under the country s successive presidents to the present day *State Building and Late Development* David Waldner,2018-05-31 Why does state building sometimes promote economic growth and in other cases impede it Through an analysis of political and economic development in four countries Turkey Syria Korea and Taiwan this book explores the origins of political economic institutions and the mechanisms connecting them to economic outcomes David Waldner extends our understanding of the political underpinnings of economic development by examining the origins of political coalitions on which states and their institutions depend He first provides a political model of institutional change to analyze how elites build either cross class or narrow coalitions and he examines how these arrangements shape specific institutions state society relations the nature of bureaucracy fiscal structures and patterns of economic intervention He then links these institutions to economic outcomes through a bargaining model to explain why countries such as Korea and Taiwan have more effectively overcome the collective dilemmas that plague economic development than have others such as Turkey and Syria

The latter countries he shows lack institutional solutions to the problems that surround productivity growth The first book to compare political and economic development in these two regions State Building and Late Development draws on and contributes to arguments from political sociology and political economy Based on a rigorous research design the work offers both a finely drawn comparison of development and a compellingly argued analysis of the character and consequences of precocious Keynesianism the implementation of Keynesian demand stimulus policies in largely pre industrial economies

oct 4 2023 brønsted lowry acid base chemistry is the transfer of protons thus logic suggests a relation between the relative strengths of conjugate acid base pairs the strength of an acid or base is quantified in its ionization constant K_a or K_b which represents the extent of the acid or base ionization reaction

overview of acids and bases chemistry libretexts - Jan 16 2023

jan 30 2023 acetic acid is a weak acid $K_a = 1.8 \times 10^{-5}$ and acetate is a weak base $K_b = K_w / K_a = 5.6 \times 10^{-10}$ like acids strong and weak bases are classified by the extent of their ionization strong bases disassociate almost or entirely to completion in aqueous solution
