Assessing Organizational Behaviors Magno Oliveira Macambira, Helenides Mendonça, Maria das Graças Torres Paz, 2021-12-13 This book fills a gap in international literature by providing critical reviews on variables of organizational behavior and the main psychological instruments developed to measure them. The second part presents the state of the art of research on the following macro-organizational constructs: Quality of Life at Work, Organizational Climate for Creativity, Values and Organizations, Assessments of Organizational Support and Contributions by Social Networks, Analysis and Organizational Effectiveness.
