Political Economy Of Democratic Decentralization:

The Political Economy of Democratic Decentralization James Manor, 1999 Nearly all countries worldwide are now experimenting with decentralization Their motivation are diverse Many countries are decentralizing because they believe this can help stimulate economic growth or reduce rural poverty goals central government interventions have failed to achieve Some countries see it as a way to strengthen civil society and deepen democracy Some perceive it as a way to off load expensive responsibilities onto lower level governments Thus decentralization is seen as a solution to many different kinds of problems This report examines the origins and implications decentralization from a political economy perspective with a focus on its promise and limitations It explores why countries have often chosen not to decentralize even when evidence suggests that doing so would be in the interests of the government It seeks to explain why since the early 1980s many countries have undertaken some form of decentralization This report also evaluates the evidence to understand where decentralization has considerable promise and where it does not It identifies conditions needed for decentralization to succeed It identifies the ways in which decentralization can promote rural development And it names the goals which decentralization will probably not help achieve

Making Democratic Decentralization Work in South Asia Durga P Chhetri, Prabhat Kumar Datta, R. Lalitha S. Fernando, Aly Shameem, 2025-09-26 This edited volume examines the impact of decentralized governance in South Asia focusing on historical and contemporary efforts in rural and urban areas Written with the ultimate goal of developing an understanding of how local governance contributes to democracy development and citizen empowerment the book highlights the importance of democratic decentralization political will and administrative support Including contributions by a collection of international academic experts and practitioners the book covers themes like conceptual issues historical perspectives fiscal decentralization grassroots democracy engendering local governance and the influence of information technology Addressing challenges sharing experiences and suggesting practical ways to improve decentralized governance the volume will be of interest to researchers and students of public administration governance South Asian politics and development as well as professionals working in related areas

Democratic Decentralization Through a Natural Resource Lense Jesse Craig Ribot, Anne M. Larson, 2005 This text includes case studies from Africa Asia and Latin America which address the management of water land forests or pasture

Democratic Decentralization, Local Governance and Sustainable Development Prince Osei-Wusu Adjei, Samuel Adu-Gyamfi, 2022-11-14 Drawing on field based data and experiences from the practice of democratic decentralization and local governance over the last three decades in Ghana this book examines whether and how democratic decentralization and local governance reforms in developing countries have produced the anticipated development outcomes In seventeen related contributions the authors present four relevant focal themes including conceptual and historical trajectories of decentralization and local governance institutional choice democratic representation and poverty reduction local governance resource capacity and service delivery and non

state actors local governance and sustainable development The book blends perspectives of scholars practitioners and policy makers to provide a holistic analysis of linkages between decentralization local governance and sustainable development efforts presenting a novel and useful guide for science policy and practice of bottom up governance and development It provides relevant lessons and experiences for scholars policy makers and development practitioners in Africa in particular and developing countries in general **Decentralization in Asia and Latin America** Paul J. Smoke, Eduardo J.

Gçmez, George E. Peterson, 2006-11-28 Public sector decentralization has emerged prominently in many Asian and Latin American countries as a strategy to promote development and political reform Results in both cases have been mixed Despite broad similarities in intent and outcome contextual differences between the regions have led to striking differences in the way decentralization has been structured and implemented This volume takes an atypically historical and interdisciplinary perspective on decentralization highlighting how fiscal and political forces together have been shaping its evolution in the two regions *Handbook of Policy Transfer, Diffusion and Circulation* Osmany Porto de Oliveira, 2021-03-26 This important Handbook brings together preeminent international scholars sharing their comparative and international perspectives on the topic Their original contributions cover the key issues and questions around policy transfer diffusion and circulation research Altogether chapters illuminate how rich and provocative the current debate on the interpretation of how public policies

travels is and the vibrancy of the area s research within the broad planet of public policy analysis *Decentralised Governance in Tribal India* M. Aruna Kumar, 2010-03-08 The potential of civil society in interfacing with the government for ensuring good governance has gained currency in academic and policy debates in the recent times This becomes particularly relevant in an old democracy like India where the State has not been able to meet the need for basic things However the State provides space and freedom for people to engage in collective action to critically evaluate the State s policies and demand a revision in policy for effective implementation of the laws that are elaborately codified in the Constitution and also to improve the functioning of its institutions This book studies the level of participation of tribal communities in the new Panchayat Raj dispensation introduced in Andhra Pradesh since the PESA Act It specifically analyses how much the community has achieved or benefited after the introduction of Panchayat Raj The objective is to determine how the power structures of tribal communities have been influenced by the socio political changes and institutional innovations like the extension of representative democracy at the grassroots level what kind of changes have taken place in the study area with the institutionalization of Panchayats and the politicization of the tribal people by the different parties This book also throws light on the role of civil society actors in influencing governance positively as well as the limitations that have inhibited the impact of their influence The empirical research highlights that the institution of Gram Sabha has been instrumental in bringing transparency and accountability in the working of local bodies The author has rightly emphasized the need for an attitudinal change both in the political and administrative machinery at State district and village level The inter relationship

of the three Ds i e Democracy Decentralisation and Development has been brought out beautifully with the support of field study While the 73rd amendment and PESA Act of the Constitution has mandated the democratization of local self governments the process of decentralisation is yet to take concrete shape through real devolution from Lok Sabha to Gram Sabha

Challenges to Democracy in Latin America and the Caribbean Mitchell A. Seligson, 2008

The Failure of Public Finance Management in Afghanistan Mohammad Qadam Shah, 2025-07-24

In rebuilding conflict affected states a major portion of foreign aid focuses on reforming public finance management systems and supporting annual budgets However how budgets are allocated and how reforms take shape in practice remain critical questions This book analyzes the politics of reform and budget allocation in the most expensive liberal state building effort in history Afghanistan Through a detailed political economy analysis it explores the origin continuity and evolution of Afghanistan s centralized public finance management system Such centralization readopted in the 2004 Constitution constrained local participation perpetuated inequities and undermined predictability and transparency Key reforms including the Provincial Development Planning Guideline and Provincial Budgeting Policy aimed to address these shortcomings but failed due to political resistance elite capture and structural inefficiencies The analysis reveals informal dynamics behind the allocation of discretionary development budget consisting of the Afghan central government s political considerations political relationship political importance and strength and weakness of local administrations and lobbying strategies of local actors This dynamic enabled the central government to continue to use public funds for purchasing political legitimacy to remain in power Afghanistan s case highlights the limits of externally driven state building that prioritizes centralization over local dynamics The book offers key lessons on inclusive governance structural barriers and sustainable public finance reforms in conflict affected states It appeals to donors development experts and researchers in public finance foreign aid security and development studies

Diverting the Flow Margreet Zwarteveen, Sara Ahmed, Suman Rimal Gautam, 2014-03-11

Across the South Asian region water determines livelihoods and in some cases even survival However water also creates exclusions Access to water and its social organisation are intimately tied up with power relations This book provides an overview of gender equity and water issues relevant to South Asia The essays empirically illustrate and theoretically argue how gender intersects with other axes of social difference such as class caste ethnicity age and religion to shape water access use and management practices Divided into six thematic sections each of which starts with an introduction of relevant concepts debates and theories the book looks at laws and rights policies technologies and intervention strategies In all the book clearly shows how understanding and changing the use distribution and management of water is conditional upon understanding and accommodating gender relations Published by Zubaan

[Southeast Asian Responses to Globalization](#) Francis Loh Kok Wah, Joakim Öjendal, 2005

It is now apparent especially in the aftermath of the regional financial crisis of 1997 that globalization has been impacting upon the Southeast Asian economies and societies in new and harrowing ways a theme of

many recent studies Inadvertently these studies of globalization have also highlighted that the 1980s and 1990s debate on democratization in the region which focused on the emergence of the middle classes the roles of new social movements NGOs and the changing relations between state and civil society might have been overly one dimensional This volume revisits the theme of democratization via the lenses of globalization understood economically politically and culturally Although globalization increasingly frames the processes of democracy and development nonetheless the governments and peoples of Southeast Asia have been able to determine the pace and character even the direction of these processes to a considerable extent This collection of essays by some distinguished senior scholars and other equally perceptive younger ones focuses on this globalization democratization nexus and shows empirically and analytically how governance is being restructured and democracy sometimes deepened in this new global era A historical review introduces the volume while an analytical assessment of the ten case studies concludes it **Public Administration in Southeast Asia** Evan M.

Berman,2017-09-25 While public administration practice and education in general has become considerably professionalized in the last decade existing knowledge on public administration in Southeast Asia is fragmented at best and often devoid of a useful reference While journal articles and government reports provide decentralized information Public Administration in Southeast Asia Thailand Philippines Malaysia Hong Kong and Macao takes a comprehensive and comparative look at the major components of administration systems The selection of countries and regions included reflects the diversity of Southeast Asia Organized by Country The handbook fills a critical need by bringing together leading scholars who provide an insider perspective and viewpoint on essential and advanced issues Divided into five sections each dedicated to a particular country the text outlines topics relevant to modern public administration including History and Political Context of Public Administration Decentralization and Local Governance Public Ethics and Corruption Performance Management Reforms Civil Service System Focusing on recent developments in public administration in these countries which are among the fastest growing economies in the world the book explores their practices and innovative approaches in public administration For many years people have been fascinated by the cultures peoples and governments of Southeast Asia and now they have a book that discusses the apparatus of government in Southeast Asia their agencies contexts processes and values

Decentralizing Governance G. Shabbir Cheema,Dennis A. Rondinelli,2007-08-01 The trend toward greater decentralization of governance activities now accepted as commonplace in the West has become a worldwide movement This international development largely a product of globalization and democratization is clearly one of the key factors reshaping economic political and social conditions throughout the world Rather than the top down centralized decisionmaking that characterized communist economies and Third World dictatorships in the twentieth century today s world demands flexibility adaptability and the autonomy to bring those qualities to bear In this thought provoking book the first in a new series on Innovations in Governance experts in government and public management trace the evolution and performance of

decentralization concepts from the transfer of authority within government to the sharing of power authority and responsibilities among broader governance institutions This movement is not limited to national government it also affects subnational governments NGOs private corporations and even civil associations The contributors assess the emerging concepts of decentralization e g devolution empowerment capacity building and democratic governance They detail the factors driving the movement including political changes such as the fall of the Iron Curtain and the ascendance of democracy economic factors such as globalization and outsourcing and technological advances e g increased information technology and electronic commerce Their analysis covers many different contexts and regions For example William Ascher of Claremont McKenna College chronicles how decentralization concepts are playing out in natural resources policy while Kadmeil Wekwete United Nations outlines the specific challenges to decentralizing governance in sub Saharan Africa In each case contributors explore the objectives of a decentralizing strategy as well as the benefits and difficulties that will likely result

Emerging Practices in Intergovernmental Functional Assignment Gabriele Ferrazzi, Rainer Rohdewohld, 2017-06-26 Attaining the benefits of especially fiscal decentralization in government remains an enduring challenge in part because the re arrangement of public functions across levels of government has often been carried out poorly This book aims to provide a firmer conceptual basis for the re arrangement of public functions across levels of government In doing so it offers practical advice for policy makers from developing and emerging countries and development cooperation practitioners engaged in such activity Combining a theoretical approach for inter governmental functional assignment with an in depth analysis of real life country cases where functional assignment FA has been supported in the context of international development cooperation it underscores the common technical and political challenges of FA and also demonstrates the need to expect and support country made and context specific solutions to FA processes and results Examples are drawn from a number of developing transition countries from the Asia Pacific region Africa and the OECD which outline and suggest advisory approaches tools principles and good practices and approaches This text will be of key interest to scholars students policy makers and practitioners in public policy decentralization local governance studies public administration and development administration studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

The Success of India's Democracy Atul Kohli, 2001-09-06 How has democracy taken root in India in the face of a low income economy widespread poverty illiteracy and immense ethnic diversity Atul Kohli brings together some of the world's leading scholars of Indian politics to consider this intriguing anomaly They do so by focusing not so much on socio economic factors but rather on the ways in which power is distributed in India Two processes have guided the negotiation of power conflicts First a delicate balance has been struck between the forces of centralization and decentralization and second the interests of the powerful in society have been served without excluding those on the margins These themes are addressed by the editor in his introduction which is

followed by an essay on the historical origins of Indian democracy and two sections one on the consolidation of democratic institutions and the other on the forces which motivate or inhibit democratic growth

Decentralization and Development of Sri Lanka Within a Unitary State N.S. Cooray, Sirimal Abeyratne, 2017-09-19 This comprehensive volume provides uniquely diverse insights into various aspects of decentralization and development from both developed and developing countries with special reference to Sri Lanka For a quarter century Sri Lanka was battered by its prolonged civil war which ended in 2009 but has now achieved relative peace and stability Having developed rapidly Sri Lanka offers a classic example for developing countries There is however a strong need particularly in the context of postwar conflict to formulate policies for reconciliation peace building and development at all levels local provincial and national Decentralization itself is not a new subject however how to devolve power to local administrative levels within a unitary system and how to link the devolved power to make local administrative systems more conducive to development and provide better services for citizens are challenging tasks in many countries Taking into account the developmental governance and conciliatory needs and the sensitivity of central local relations this volume critically examines the local government systems in Sri Lanka It also proposes a viable effective and autonomous local level administrative unit based which draws on experiences from Japan and other countries and identifies the role and functions of such a unit The book presents commissioned papers from a three year research project undertaken by internationally respected experts with financial support by the Japan Society for the Promotion of Science JSPS under a Grant in Aid for Scientific Research

What Then Must We Do? Gar Alperovitz, 2013-05-01 Never before have so many Americans been more frustrated with our economic system more fearful that it is failing or more open to fresh ideas about a new one The seeds of a new movement demanding change are forming But just what is this thing called a new economy and how might it take shape in America In What Then Must We Do Gar Alperovitz speaks directly to the reader about where we find ourselves in history why the time is right for a new economy movement to coalesce what it means to build a new system to replace the crumbling one and how we might begin He also suggests what the next system might look like and where we can see its outlines like an image slowly emerging in the developing trays of a photographer's darkroom already taking shape He proposes a possible next system that is not corporate capitalism not state socialism but something else entirely and something entirely American Alperovitz calls for an evolution not a revolution out of the old system and into the new That new system would democratize the ownership of wealth strengthen communities in diverse ways and be governed by policies and institutions sophisticated enough to manage a large scale powerful economy For the growing group of Americans pacing at the edge of confidence in the old system or already among its detractors What Then Must We Do offers an elegant solution for moving from anger to strategy

Governing Sustainable Energies in China Geoffrey Chun-fung Chen, 2016-06-29 This book examines sustainable energy development in China a non liberal state as a counterexample to conventional wisdom that effective policy outcomes are

premised on the basis of decentralized governance The use of sustainable energies as part of the solution for stabilising global warming has been promoted in industrialised countries for the past three decades In the last ten years China has expanded its renewable energy capacity with unprecedented speed and breadth This phenomenon seems to contradict the principle of orthodox environmental governance in which stakeholder participation is deemed a necessary condition for effective policy outcomes Based upon policy documents news report and interviews with 32 policy makers business leaders and NGO practitioners in selected subnational governments this book examines the politics of sustainable energy in China It engages debates over the relationships among democratic prioritisation environmental protection and economic empowerment arguing that China s quasi corporatist model in the sustainable energy field challenges Western scholars dominant assumptions about ecopolitics

Democracy, Development and Decentralisation in India Chandan Sengupta, Stuart Corbridge, 2013-10-28 Offering new insights into the political economy of contemporary India this book considers how and why unequal patterns of economic growth have taken shape within the context of a democratic and decentralising political system and how this has impacted upon the processes of economic development
