Rediscovery Of The Body:

The Consumer Society Jean Baudrillard, 2016-12-13 Jean Baudrillard's classic text was one of the first to focus on the process and meaning of consumption in contemporary culture. Originally published in 1970, the book makes a vital contribution to current debates on consumption. The book includes Baudrillard's most organized discussion of mass media culture, the meaning of leisure and anomie in affluent society. A chapter on the body demonstrates Baudrillard's extraordinary prescience for flagging vital subjects in contemporary culture long before others. This English translation begins with a new introductory essay.

The Body Mariam Fraser, Monica Greco, 2020-07-24 The body has become an increasingly significant concept in recent years and this Reader offers a stimulating overview of the main topics, perspectives and theories surrounding the issue. This broad consideration of the body presents an engagement with a range of social concerns from the processes of racialization to the vagaries of fashion and performance art enacted as surgery on the body. Individual sections cover issues such as the body and social disorder, bodies and identities, bodily norms, bodies in health and disease, bodies and technologies. Containing an extensive critical introduction, contributions from key figures such as Butler, Sedgwick, Martin, Scheper-Hughes, Haraway and Gilroy, and a series of introductions summarizing each section, this Reader offers students a valuable practical guide and a thorough grounding in the fascinating topic of the body.

The Seduction of the Female Body Eva De Clercq, 2013-02-18 Drawing on the ambiguous meaning of the notion of vulnerability, the book offers an innovative approach to the topic of the female body in relation to women's rights, going beyond the age-old dichotomy of casting women as either passive victims or conscious agents.

Religion & the Order of Nature Seyyed Hossein Nasr, 1996 The current ecological crisis is a matter of urgent global concern, with solutions being sought on many fronts. In this book, Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated, if not actually caused, by the reductionist view of nature that has been advanced by modern secular science. What is needed, he believes, is the recovery of the truth to which the great enduring religions all attest, namely that nature is sacred. Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans. His goal is to negate the totalitarian claims of modern science and to re-open the way to the religious view of the order of nature developed over centuries in the cosmologies and sacred sciences of the great traditions. Each tradition, Nasr shows, has a wealth of knowledge and experience concerning the order of nature. The resuscitation of this knowledge, he argues, would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth.

The Show and the Gaze of Theatre Erika Fischer-Lichte, Jo Riley, 1997 Theatre in some respects resembles a market Stories rituals ideas perceptive modes conversations rules techniques behavior patterns actions language and objects constantly circulate back and forth between theatre and the other cultural institutions that make up everyday life in the twentieth century These exchanges which challenge the established concept of theatre in a way that demands to be understood form the core of Erika Fischer Lichte s dynamic book Each eclectic essay investigates the boundaries that separate theatre from other cultural domains Every encounter between theatre and other art forms and institutions renegotiates and redefines these boundaries as part of an ongoing process Drawing on a wealth of fascinating examples both historical and contemporary Fischer Lichte reveals new perspectives in theatre research from quite a number of different approaches Energetically and excitingly she theorizes history theorizes and historicizes performance analysis and historicizes theory

Etienne Decroux and his Theatre Laboratory Marco de Marinis, 2023-05-31 Etienne Decroux and His Theatre Laboratory is based on the long awaited translation of Marco De Marinis monumental work on mime in the twentieth century *Mimo e teatro nel Novecento* 1993 Now revised and updated the volume focuses specifically on the seminal role played by French mime artist and pedagogue Etienne Decroux Mime is a theatrical form of ancient tradition In the nineteenth century it saw both apogee and crisis in the west with the realistic and gesticulating white pantomime In the twentieth century it underwent a radical overhaul transforming into an abstract corporeal art that shunned imitation and narrative and which instead tended towards the plastic elliptic allusive and symbolic transposition of actions and situations This book is the result of detailed investigations based on contemporary accounts and obscure or unpublished materials Through the examination of the creative pedagogical and theoretical work of the inventor of the new mime art Etienne Decroux De Marinis focuses on the different assumptions underlying the various modes of the problematic presence of mime in the theatre of the twentieth century from the utopia of a pure theatre attributed to the sole essence of the actor to its decline into a closed poetic genre often nostalgically stuck in the past from mime as a pedagogical tool for the actor to mime as an expressive and virtuosic
