Redwings A Smithsonian Nature:

REDWINGS Robert W. Nero,1984-01-17 Woman By the Shore and Other Poems Robert W. Nero,1990-06-30 Through this book of poetry Nero celebrates the ninety sixth birthday of internationally known naturalist Louise de Kiriline Lawrence

More Than Birds Val Shushkewich,2012-11-17 Twenty two profiles of significant naturalists beginning with 19th century Alexander Wilson and John James Audubon and including Jack Miner Roger Tory Peterson Robert Bateman and David Allen Sibley portray the development of natural heritage studies in North America Their extraordinary stories inspire recognition of the need for conservation

Growing Old Together Robert W. Nero,2005-11-29 Naturalist ornithologist avocational archaeologist and poet Winnipeg Dr Robert W Nero has authored nine books dealing with his amazing spectrum of interests Growing Old Together is the newest collection of poetry by this gifted writer revealing his sensitivity and keen observation of the natural world In his frequently passionate poetry Nero pays tribute to his wife Ruth who has over many years encouraged Bob to write and to pursue his outdoor interests all the while sharing him with Lady Grayl the great gray owl he found injured and starving in 1984 From that time on Lady Grayl toured with Bob Nero to raise funds for numerous environmental projects and to educate thousands of children and adults about conservation This remarkable association ended in October of 2005 with the passing of Lady Grayl at age 21 5 It is fitting that Manitoba Day 2005 honoured the Great Gray Owl the official provincial bird and yes Lady Grayl was involved

Complete Catalog Smithsonian Institution. Press,1984 Polygyny and Sexual Selection in Red-Winged Blackbirds William A. Searcy,Ken Yasukawa,2014-07-14 The purpose of this book is to explain why red winged blackbirds are polygynous and to describe the effects of this mating system on other aspects of the biology of the species Polygyny is a mating system in which individual males form long term mating relationships with more than one female at a time The authors show that females choose to mate polygynously because there is little cost to sharing male parental care in this species and because females gain protection against nest predation by nesting near other females Polygyny has the effect of intensifying sexual selection on males by increasing the variance in mating success among males For females polygyny means that they will often share a male s territory with other females during the breeding season and will thus be forced to adapt to frequent female female interactions This work reviews the results of many studies by other researchers as well as presenting the authors own results Studies of red winged blackbirds have ranged from long term investigations of reproductive success and demography to research on genetic parentage based on modern molecular methods to a variety of experimental manipulations of ecological circumstances and behavior Since the red winged blackbird is one of the best studied species of any taxa in terms of its behavior and ecology the authors have a particularly extensive body of results on which to base their conclusions Originally published in 1995 The Princeton Legacy Library uses the latest print on demand

technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Lady Grayl Robert W. Nero, 1994-06-30. This is the story of a man and his owl. But what a man and what an owl! The owl is one of our planet's most beautiful and elusive beings: an enchanting spook, a feathered spirit from some ancient world. The man is Robert Nero, his name synonymous with that of the Great Gray Owl, his love affair with the species spanning twenty-five years. For me, a non-professional adrift in a sea of biologists, it is heartening to find in Dr. Nero not just the able scientific mind but also a sense of wonder undiminished by the years. Perhaps it is the mortality of all living things that makes them exquisite to him; for he writes of their brief beauty in poetry and prose. His words remind us of joys we once knew of worlds to which we have grown blind. What a privilege it is to share a time on Earth with a man like this and to call him friend. Katherine McKeever, The Owl Foundation, Vineland, 1994. Bob Nero, one of Canada's finest nature writers, has done it again. His fifth book about Lady Grayl is a personal account, something close to a love story. For nine years, since the rescue of a starving runt owl from a wild brood, he has taken his beautiful owl, Lady Grayl, to countless schools and public meetings to preach the gospel of conservation. She and Bob are well known throughout Manitoba and beyond. Bob's careful observations of this imprinted owl supplement his 25 years of research into Great Gray Owls in the wild. Six sensitive poems and numerous photographs depict the owl in many moods and settings. This book will rank along with Bernd Heinrich's acclaimed *One Man's Owl*, which dealt with an imprinted Great Horned Owl, and will be of special interest to all who have been fortunate enough to see Lady Grayl.

C. Stuart, University of Saskatchewan. *Natural History in Iceland*, Julian Huxley, 1951. Recent Publications in Natural History, 1983.
