It has been claimed that the natural sciences have abstracted for themselves a material world set apart from human concerns and social sciences in their turn constructed a world of actors devoid of things While a subject such as archaeology by its very nature takes objects into account other disciplines such as psychology emphasize internal mental structures and other non material issues This book brings together a team of contributors from across the social sciences who have been taking things more seriously to examine how people relate to objects The contributors focus on every day objects and how these objects enter into our activities over the course of time Using a combination of different theoretical approaches including actor network theory ecological psychology cognitive linguistics and science and technology studies the book argues against the standard notion of objects and their properties as inert and meaningless and argues for the need to understand the relations between people and objects in terms of process and change **EVERYDAY REFLECTIONS FOR ORDINARY PEOPLE** Joseph Maynard Eastman,2014-07-09

WHAT AMAZON READERS HAVE SAID ABOUT JOE S FIRST BOOK WHAT IS BECOMING CLEARER TO ME Delightful A thought provoking book not only to be read but to be savored Each of the author s reflections

is an opportunity for the reader to gain personal insights into life's everyday moments. A delightful book from beginning to end. An eye-opening read. This has been one of the most thought-provoking books I've read in a long time. Well-written and stimulating one's thoughts about this world we live in and what we hold dear and important. Insightful and uplifting great way to look at life. Joe's reflections are fun and inspiring thought-provoking and charming. He takes ordinary moments and turns them into spiritual awakenings. He proves the bit of knowledge that Bagger Vance taught Junuh: there are no ordinary moments.

Spooky Technology: A reflection on the invisible and otherworldly qualities in everyday technologies

Daragh Byrne, Dan Lockton, Matthew Cruz, Christi Danner, Karen Escarcha, Katherine Giesa, Meijie Hu, Yiwei Huang, Miranda Luong, Anuprita Ranade, Gordon Robertson, Elizabeth Wang, Lisa (Yip Yan) Yeung, Catherine Yochum, 2021-08-31

Spooky Technology explores our understanding of the invisible technologies in our everyday lives from objects with intelligence to systems in our homes that talk to us and each other. The book is an inventory of spooky technologies compiled by Carnegie Mellon students reviewing work across art design, HCI, psychology, human factors research, and other fields that has been done in this field or adjacent to it both historically and more recently with commentary essays and interviews with creators and artists. We often hear that the technologies in our everyday lives would appear to be magic and potentially terrifying to people in the past: instantaneous communication with people all over the world, access to a vast ever-growing resource of human knowledge right there in the palm of our hand, objects with intelligence that can sense and talk to us and each other. But rarely are these otherworldly dimensions of technologies explored in more detail. There is an often unspoken presumption that the march of progress will inevitably mean we all adopt new practices and incorporate new products and new ways of doing things into our lives: all cities will become smart cities, all homes will become smart homes. But these systems have become omnipresent without our necessarily understanding them. They are not just black boxes but invisible entities in our homes and everyday lives which work through hidden flows of data, unknown agendas, imaginary clouds, mysterious sets of rules which we perhaps dismiss as algorithms or even AI without really understanding what that means. On some level, the superstitions and sense of wonder and ways of relating to the unknown and the supernatural, deities, spirits, ghosts which humanity has felt in every culture throughout history have not gone away but started to become transferred and transmuted into new forms.

Conspicuous and Inconspicuous Discriminations in Everyday Life Victor N. Shaw, 2013-06-19

In everyday life, people negotiate on issues, entertain offers and counteroffers, and gain or lose in terms of economic capital, political power, communal status, and social influence. Although life goes on in the form of compromise, feelings of discrimination or misfortune haunt consciously or unconsciously in the minds of living individuals. History continues in the spirit of forgiveness but residues of exploitation or injustice remain conspicuously or inconspicuously on the records of progressing civilizations. This study follows an average everyday life to compare individuals with individuals, individuals with organizations, and organizations with organizations in their everyday interactions. Through the eyes of the person, conspicuous and

inconspicuous discriminations by one against another whether individual or organizational are identified in different occasions on a typical day at home in the workplace in the community within the country around the world and throughout the course of life In the style of Socrates Plato Wittgenstein and other classical scholarship this study uses ordinary typical situations to demonstrate critical points reveal subtle connections and present important arguments It offers vivid examples for what social scientists strive to find the extraordinary from the ordinary the unfamiliar from the familiar the different from the similar and the significant from the trivial This study offers an opportunity for readers to reflect upon their social experiences and rethink and reshape their everyday acts and actions *Objects of Reflection* Annie Lockhart,2010-01-22

Use souvenirs keepsakes and everyday objects in your own brand of storytelling *Objects of Reflection* brings you a new form of visual journaling that of assemblage by creating art that is extremely personal and evokes your fondest memories Inspiration pours from every page as author Annie Lockhart takes you on a journey inside of her own heart sharing her stories for building pieces with tiny treasures and common objects Specific elements of each project are displayed in a legend detailing what each object symbolizes and will have you thinking about what similar objects might represent to you In addition to providing insight on her own art making process Annie will guide you through her favorite step by step techniques for attaching elements with simple materials like string wire and tape aging objects to give them a bit of charm adding texture with modeling paste and more Dare to color outside the lines Discover a new way to tell your own story and start using objects as words today You ll also receive insight on valuable lessons such as Quieting your harsh inner critic Seeing the beauty in objects that are broken Looking at the things you love with new perspective Realizing art need not be permanent to be enjoyed **Ibuanyidanda (complementary Reflection) and Some Basic Philosophical Problems in Africa Today** Innocent Asouzu,2013 This book gives an insightful account of how some fundamental phenomena and mechanisms control human consciousness impacting the way we think will and act The book identifies these phenomena and mechanisms as the mkpuchi anya the super maxim and the inherently tension laden ambivalent character of our experience of reality It re examines fundamental problems of philosophy from the perspective of ibuanyidanda complementary reflection and how the problems reappear in the way philosophy is conducted in Africa today Series Studies in African Philosophy Vol 8
