Reflections On Music Popularization:

Reflections on Music Popularization Gen'ichi Kawakami, 1987 **Reflections on American Music** College Music Society, 2000 Wright A closed fist from Spirals for violin viola and cello Judith Lang Zaimont **Composing Japanese Musical Modernity** Bonnie C. Wade, 2014-01-13 When we think of composers we usually envision an isolated artist separate from the orchestra someone alone in a study surround by staff paper and in Europe and America this image generally has been accurate For most of Japan s musical history however no such role existed composition and performance were deeply intertwined Only when Japan began to embrace Western culture in the late nineteenth century did the role of the composer emerge In *Composing Japanese Musical Modernity* Bonnie Wade uses an investigation of this new musical role to offer new insights not just into Japanese music but Japanese modernity at large and global cosmopolitan culture Wade examines the short history of the composer in Japanese society looking at the creative and economic opportunities that have sprung up around them or that they forged during Japan s astonishingly fast modernization She shows that modernist Japanese composers have not bought into the high modernist concept of the autonomous artist instead remaining connected to the people Articulating Japanese modernism in this way Wade tells a larger story of international musical life of the spaces in which tradition and modernity are able to meet and ultimately where modernity itself has been made **Indigenous African Popular Music, Volume 1** Abiodun Salawu, Israel A. Fadipe, 2022-05-31 This volume explores the nature philosophies and genres of indigenous African popular music focusing on how indigenous African popular music artistes are seen as prophets and philosophers and how indigenous African popular music depicts the world Indigenous African popular music has long been under appreciated in communication scholarship However understanding the nature and philosophies of indigenous African popular music reveals an untapped diversity which only be unraveled by knowledge of the myriad cultural backgrounds from which its genres originate Indigenous African popular musicians have become repositories of indigenous cultural traditions and cosmologies With a particular focus on scholarship from Nigeria Zimbabwe and South Africa this volume explores the work of these pioneering artists and their prot g s who are resiliently sustaining recreating and popularising indigenous popular music in their respective African communities and at the same time propagating the communal views about African philosophies and the temporal and spiritual worlds in which they exist Wind Bands and Cultural Identity in Japanese Schools David G. Hebert, 2011-10-20 This well researched volume tells the story of music education in Japan and of the wind band contest organized by the All Japan Band Association Identified here for the first time as the world s largest musical competition it attracts 14 000 bands and well over 500 000 competitors The book s insightful contribution to our understanding of both music and education chronicles music learning in Japanese schools and communities It examines the contest from a range of perspectives including those of policy makers adjudicators conductors and young musicians The book is an illuminating window on the world of Japanese wind bands a unique hybrid tradition that

comingles contemporary western idioms with traditional Japanese influences In addition to its social history of Japanese school music programs it shows how participation in Japanese school bands contributes to students sense of identity and sheds new light on the process of learning to play European orchestral instruments

Where Music Helps: Community Music Therapy in Action and Reflection Brynjulf Stige, 2017-07-05 This book explores how people may use music in ways that are helpful for them especially in relation to a sense of wellbeing belonging and participation The central premise for the study is that help is not a decontextualized effect that music produces The book contributes to the current discourse on music culture and society and it is developed in dialogue with related areas of study such as music sociology ethnomusicology community psychology and health promotion Where Music Helps describes the emerging movement that has been labelled Community Music Therapy and it presents ethnographically informed case studies of eight music projects localized in England Israel Norway and South Africa The various chapters of the book portray music s help in action within a broad range of contexts with individuals groups and communities all of whom have been challenged by illness or disability social and cultural disadvantage or injustice Music and musicing has helped these people find their voice literally and metaphorically to be welcomed and to welcome to be accepted and to accept to be together in different and better ways to project alternative messages about themselves or their community and to connect with others beyond their immediate environment The overriding theme that is explored is how music comes to afford things in concert with its environments which may suggest a way of accounting for the role of music in music therapy without reducing music to a secondary role in relation to the therapeutic that is being just a symbol of psychological states a stimulus or a text reflecting socio cultural content
