Reflections On The Battlefield From Infantryman To Chaplain 1914 1919:

Reflections on the Battlefield Robert J. Rider, 2001-01-01 When Robert J Rider died in 1961 he left to his descendants a typescript text tentatively entitled Flashbacks which would eventually become Reflections on the Battlefield Broadly autobiographical this text offers a unique account of its author who fought as an infantryman while also serving as a chaplain thus exposing himself in peculiar directness to the ambiguities of chaplaincy service on the battlefield A further particularity is that Rider was in a minority among chaplains being a Methodist chaplain In August 1914 Rider aged twenty five was about to begin his third year of training for the ministry of the Wesleyan Methodist church at Handsworth Theological College in Birmingham Two months later he had enlisted with the First Birmingham Battalion later termed the 14th Battalion of the Royal Warwickshire Regiment Rider s first hand accounts of Ypres the Somme and Arras reveal a man morally opposed to war and yet adamant that Germany and her allies needed to be defeated Reflections on the Battlefield provides us with a personal and valuable contribution to the present day debate about the contemporary understanding of the ethics of war as expressed on the World War I battlefield

God and the British Soldier Michael Snape, 2007-05-07 Drawing on a wealth of new material from military ecclesiastical and secular civilian archives this book shows that religion had much greater currency and influence in twentieth century British society than has previously been realized

Faith Under Fire Edward Madigan, 2011-02-08 After the Great War some texts by British Army veterans portrayed the Anglican chaplains who had served with them in an extremely negative light This book examines the realities of Anglican chaplains wartime experiences and presents a compelling picture of what it meant to be a clergyman in uniform in the most devastating war in modern history

The Clergy in Khaki Edward Madigan, 2016-03-23 British army chaplains have not fared well in the mythology of the First World War Like its commanders they have often been characterized as embodiments of ineptitude and hypocrisy Yet just as historians have reassessed the motives and

performance of British generals this collection offers fresh insights into the war record of British chaplains Drawing on the expertise of a dozen academic researchers the collection offers an unprecedented analysis of the subject that embraces military political religious and imperial history The volume also benefits from the professional insights of chaplains themselves several of its contributors being serving or former members of the Royal Army Chaplains Department Providing the fullest and most objective study yet published it demonstrates that much of the post war hostility towards chaplains was driven by political social or even denominational agendas and that their critics often overlooked the positive contribution that chaplains made to the day to day struggles of soldiers trying to cope with the appalling realities of industrial warfare and its aftermath As the most complete study of the subject to date this collection marks a major advance in the historiography of the British army of the British churches and of British society during the First World War and will appeal to researchers in a broad range of academic disciplines

British Religion and the World Wars Clive Field, 2019-05-08 Religion did much to shape contemporary British opinion and behaviour during the First and Second World Wars but it featured rather less in the initial historiography of either conflict The situation has changed considerably in the past half century with a steadily increasing number of academic and popular outputs on the religious aspects of the wars As key milestones in connection with the centenary of the First World War and the eightieth anniversary of the Second World War have occurred or approach it seems an appropriate time to take bibliographical stock This volume is the first to offer an in depth listing of modern literature in English and other European languages on British religion and the First and Second World Wars both on the home front and in combat zones Coverage extends to Judaism and alternative religion as well as Christianity More than 1 200 items are included comprising monographs book chapters journal articles and postgraduate theses They are arranged by subjects in separate sections on each war with cross references and a cumulative index of personal names Carefully compiled over several years by an accomplished religious historian and bibliographer the work will be an indispensable reference tool to those embarking on investigations into the religious landscape of Britain during the World Wars and those who wish to discover what has been written about their chosen field to date It will also help identify gaps in scholarship and encourage researchers to try and fill them
