Narrative Mortality Catherine Russell, 1995 Analyzes New Wave cinema from a postmodern perspective What seems like closure might be something more as Catherine Russell shows us in this book about death in narrative cinema since the 1950s Analyzing the structural importance of death in narrative endings as well as the thematics of loss and redemption Russell identifies mortality as a valuable critical tool for understanding the cinema of the second half of the twentieth century Her work

includes close textual readings of films by Fritz Lang Wim Wenders Oshima Nagisa Jean Luc Godard and Robert Altman among others In these analyses Russell reveals an uneasy relationship between death and closure which she traces to anxieties about identity gender and national cultural myths as well as to the persistence of desire Drawing on the work of Walter Benjamin she shows us death as a fundamentally allegorical structure in cinema and as a potential sign of historical difference with crucial implications for theories of film narrative and spectatorship Narrative Mortality provides fresh insight into the dynamics of postmodern cinema as it emerged from the modernist preoccupation with existential mortality By tracing the role of death from a work that precedes the Brechtian cinema of the 1960s Beyond a Reasonable Doubt to several that succeed it Nashville The State of Things the book expands the narrative project of New Wave cinema and ushers it onto a broader historical plane

The Golden Age Chris Murray, Elizabeth Rogers, Jeffrey W. Smith, 2016-09-23 This volume investigates the diverse applications and conceptions of the term The Golden Age The phrase resonates with the theme of nostalgia which is popularly understood as a wistful longing for the past but which also denotes homesickness and the unrecoverability of the past While the term Golden Age typically conjures up idealised visions of the past and gestures forward to utopian visions of future golden ages the idea of nostalgia is suggestive of a discontented present The Golden Age and nostalgia are therefore related ideas but are also partly in conflict with one another as many nostalgic sentiments are not idealised and may indeed be dark ironic or self aware There are of course many other ways to characterise the relationship between the Golden Age and nostalgia and the tension between the two can produce myths and romantic idylls or in religious terms images of prelapsarian innocence or dogmas relating to values associated with childhood The Golden Age is also often used to refer to specific respected periods of cultural production in all kinds of literature and visual media Indeed nearly every period genre nation and cultural form has some kind of mythic often illusory Golden Age against which it is defined and in which nostalgia often plays a part This collection interrogates the notion of the Golden Age and its connection to feelings of nostalgia from a range of interdisciplinary perspectives with a strong focus on the relationship between word and image It will interest scholars working on the subject of the Golden Age nostalgia particularly in English literature film studies comics studies history and the fine arts
