The Key Issues Concerning Contemporary Art Gary Willis, 2010 This thesis argues that the contemporary artist's objective is the production of new social space and the institution of new cultural knowledge It does this by drawing an unexpected parallel between the social and political expectations facing the contemporary artist and the deepest philosophic conception of the artist's function It traces art's historical trajectory from 20th century modernism post modernism to post colonialism from a broad range of critical theoretical and curatorial perspectives

Fashion and Orientalism Adam Geczy, 2013-08-01 Orientalism is a central factor within the fashion system both subtle and overt In this groundbreaking book the author shows the extent of the influence that the Orient had and continues to have on fashion Our concept of Western fashion is unthinkable without it whether in terms of the growth of the cotton industry or of garments we take for granted such as the dressing gown From pre modern to contemporary times this book demonstrates that in the realms of fashion the Orient is not simply a construction or a fascination of the imperial West with its eastern other Rather it reveals the extent of cross pollination exchange and multiple translation that has taken place between East and West for the last 500 years Exploring topics including Chinoiserie masquerade bohemianism Japonisme the de Orientalization of the Orient perfume and the birth of couture Fashion and Orientalism is an essential read for students and scholars of fashion cultural studies and history
