Christianity and Natural Law Norman Doe, 2017-07-20 This book compares historical and modern natural law ideas across global Christian traditions and explores their use in church law

The Vocation of Anglicanism Paul Avis, 2016-08-11 Paul Avis charts a pathway of theological integrity through the serious challenges facing the Anglican Communion in the first quarter of the 21st century He asks whether there is a special calling for Anglicanism as an expression of the Christian Church and expounds the Anglican theological tradition to shed light on current controversies He argues in conclusion that Anglicanism is called like all the churches to reflect the nature of the Church that we confess in the Creed to be one holy catholic and apostolic The book provides a clear view of the way that the Anglican tradition holds together aspects of the church that in other traditions are sometimes allowed to drift apart as the Anglican understanding of the Church reveals itself to be catholic and reformed episcopal and synodical universal and local biblical and reasonable traditional and open to fresh insight Avis combines accessible scholarly analysis with constructive arguments that will bring fresh hope and vision to Anglicans around the world

Making Heretics Michael P. Winship, 2009-02-09 Making Heretics is a major new narrative of the famous Massachusetts disputes of the late 1630s misleadingly labeled the antinomian controversy by later historians Drawing on an unprecedented range of sources Michael Winship fundamentally recasts these interlocked religious and political struggles as a complex ongoing interaction of personalities and personal agendas and as a succession of short term events with cumulative results Previously neglected figures like Sir Henry Vane and John Wheelwright assume leading roles in the processes that nearly ended Massachusetts while more familiar hot Protestants like John Cotton and Anne

Hutchinson are relocated in larger frameworks The book features a striking portrayal of the minister Thomas Shepard as an angry heresy hunting militant helping to set the volatile terms on which the disputes were conducted and keeping the flames of contention stoked even as he ostensibly attempted to quell them The first book length treatment in forty years Making Heretics locates its story in rich contexts ranging from ministerial quarrels and negotiations over fine but bitterly contested theological points to the shadowy worlds of orthodox and unorthodox lay piety and from the transatlantic struggles over the Massachusetts Bay Company s charter to the fraught apocalyptic geopolitics of the Reformation itself An object study in the ways that puritanism generated managed and failed to manage diversity Making Heretics carries its account on into England in the 1640s and 1650s and helps explain the differing fortunes of puritanism in the Old and New Worlds **The Congregationalist and Advance** ,1918 **Saturday Review** ,1874 **Papers on Maritime Legislation** Wendt,1871
