The Age of Wars of Religion, 1000-1650 Cathal J. Nolan,2006-04-30 The Age of Wars of Religion saw navies armies armed merchant companies and mercenaries battle one another and local potentates in many lands and along numerous shores Wars of religion were fought in and between all the major religions and civilizations from Europe to China in Africa and in the isolated Americas mixing motives of knightly

idealism mercenary greed and competing claims of divine sanction This unparalleled work traces the extraordinary upheavals of the period in military technology competing theologies and civilizational change that were brought about by or impinged upon military conflict It offers nearly 2 000 discrete but cross referenced entries on cultural military religious and political history as well as geography biography and military literature Close to 2 000 entries offer detailed information on the major events places battles figures technologies and ideas one must know to begin to make sense of the past six centuries of global conflicts Though especially ferocious and intense the Wars of Reformation and Counter Reformation fought by Europeans from the 15th through 17th centuries were hardly unique in world or military history The Byzantine Empire bastion of Christian Orthodoxy staggered to the tortuous end of its long conflict with the Ottoman Empire the Great Power of the Sunni Muslim world The Ottomans in turn were still engaged in an equally ancient intra Muslim war between Sunnis and Shi'ites In India the Hindu Rajputs and Marathas and also the Sikhs organized armies around religious communities to throw off the Muslim Yoke Mughul Empire and also fought against Christian invaders from Europe As for the isolated Americas ideas of divine kingship sustained by powerful priesthoods and religious warfare also prevailed as exemplified by the Inca and Aztec empires

The Forging of the Cosmic Race Colin M. MacLachlan, Jaime E. Rodriguez O., 2023-09-01

The Forging of the Cosmic Race challenges the widely held notion that Mexico's colonial period is the source of many of that country's ills The authors contend that New Spain was neither feudal nor pre-capitalist as some Neo-Marxist authors have argued Instead they advance two central themes that only in New Spain did a true mestizo society emerge integrating Indians Europeans Africans and Asians into a unique cultural mix and that colonial Mexico forged a complex balanced and integrated economy that transformed the area into the most important and dynamic part of the Spanish empire The revisionist view is based on a careful examination of all the recent research done on colonial Mexican history The study begins with a discussion of the area's rich pre-Columbian heritage It traces the merging of two great cultural traditions the Mesoamerican and the European which occurred as a consequence of the Spanish conquest The authors analyze the evolution of a new mestizo society through an examination of the colony's institutions economy and social organization The role of women and of the family receive particular attention because they were critical to the development of colonial Mexico The work concludes with an analysis of the 18th century reforms and the process of independence which ended the history of the most successful colony in the Western hemisphere The role of silver mining emerges as a major factor of Mexico's great socio-economic achievement The rich silver mines served as an engine of economic growth that stimulated agricultural expansion pastoral activities commerce and manufacturing The destruction of the silver mines during the wars of Independence was perhaps the most important factor in Mexico's prolonged 19th century economic decline Without the great wealth from silver mining economic recovery proved extremely difficult in the post-independence period These reverses at the end of the colonial epoch are important in understanding why Mexicans came to view the era as a burden to be overcome rather than as a formative

period upon which to build a new nation The Forging of the Cosmic Race challenges the widely held notion that Mexico's colonial period is the source of many of that country's ills The authors contend that New Spain was neither feudal nor pre-capitalists as some Neo Marxist authors have argued
