Congress. Senate. Committee on Military Affairs,1919 Litigation at the International Court of Justice Juan José Quintana,2015-05-19 Litigation at the International Court of Justice provides a systematic guide to questions of procedure

arising when States come before the International Court of Justice to take part in contentious litigation Quintana's approach is primarily empirical and emphasis is put on examples derived from actual practice This book is mainly intended to help practitioners and advisors to governments engaged in actual cases and deliberately avoids theoretical discussions favoring a pragmatic stance that is focused not so much on what authors have to say on any given topic concerning procedure but rather on presenting directly from the Court's mouth as it were what ICJ judges actually have done and said over the last ninety years concerning such questions **Documents on the International Court of Justice** Shabtai

Rosenne, 2024-10-28 **The Internal Justice of the United Nations** Abdelaziz Megzari, 2015-08-17 Since 1945 the United Nations has had an internal justice system to handle internal disputes and examine employee conformity with its rules of governance Based on an exhaustive analysis of 3 067 judgements advisory opinions and General Assembly debates on the issue The Internal Justice of the United Nations offers an unparalleled account of the system's effectiveness and shortcomings over its seventy year history **The International Court of Justice** H. Congress. Senate. Committee on Military

Affairs, 1919 *Routledge Handbook of Evidence-Based Criminal Justice Practices* Edelyn Verona, Bryanna Fox, 2023-10-31

Now more than ever the criminal justice system and the programs policies and practices within it are subject to increased public scrutiny due to well founded concerns over effectiveness fairness and potential unintended consequences One of the best means to address these concerns is to draw upon evidence based approaches demonstrated to be effective through empirical research rather than through anecdote standard practice or professional experience alone National Institute of Justice 2011 The goal of this book is to describe the most useful actionable and evidence based solutions to many of the most pressing questions in the criminal justice system today Specifically this edited volume contains brief and accessible summaries of the best available research alongside detailed descriptions of evidence based practices across different areas of the criminal justice system It is written so that practitioners and researchers alike can use the text as reference tool in their work and in training the new generation of individuals working to improve the system Researchers and practitioners in many areas of criminal justice crime prevention policing courts prosecution defendants judges corrections sanctions and sentencing can reference specific chapters in this book to guide their policy and practice decisions Although theory is a guide for the practices described the chapters will address practical issues in implementation and action This book overcomes the limitations of previous criminal justice practice books in that it is written as a practice resource and reference guide and spans practices and policies across different sectors of the criminal justice system from prevention to policing to sanctions and corrections Each chapter contains a list of action items based upon the best available scientific research that can be

implemented in practice to address key issues and long standing challenges in the criminal justice system **Arbitration as Balanced Administration of Justice** Massimo Benedettelli, Andrea Carlevaris, Antonio Crivellaro, Maria Beatrice Deli, 2024-08-05 Arbitration is adjudication and like any form of adjudication it must ensure justice to parties Justice requires that in settling disputes arbitrators constantly balance the opposing interests of the parties and the different legal systems relevant to the resolution of the dispute from time to time at hand This book addresses such issues by looking at the different stages of arbitration from the selection of the arbitral seat to the definition of jurisdictional limits from the choice of applicable law to the revision of arbitral awards The book collects essays by colleagues and friends of Piero Bernardini a leading practitioner of international arbitration who was a champion in achieving balance in the administration of justice through arbitration **Rules and Regulations Governing the Department of Justice and Its Various Branches** United States. Department of Justice, 1907 Justice of the Peace and Local Government Review , 1843 **The Bakassi Dispute and the International Court of Justice** Edwin Egede, Mark Igiehon, 2017-12-14 On the 10th of October 2002 the International Court of Justice delivered the Bakassi decision which amongst other things excised the resource rich land and maritime territory of Bakassi from Nigeria and transferred its legal title to Cameroon These two countries under the auspices of the United Nations established the mechanism of the Cameroon Nigeria Mixed Commission to honour and implement their obligations under the ICJ decision Over a decade after the ICJ decision this volume brings together academics and practitioners to assess the impact of this decision and the challenges and issues that have been raised in the course of its implementation Hailed by some as a model of preventive diplomacy and a blueprint for the future this timely assessment illuminates the difficulties in imposing such controversial decisions and considers whether this type of Mixed Commission is an adequate mechanism for implementing them *Civil Procedure: Access to Commercial Justice* Petra Butler, Allanah Colley, 2025-10-16 The financial burden of litigation continues to be the single most important consideration for parties in determining whether to fight their case in court The financial burden of embarking on civil litigation can influence litigation strategy and determine who has and who is denied access to justice This edition provides a comprehensive study of the financial obstacles of access to justice in civil litigation It draws on the contributions of eighteen jurisdictions to examine what impact the commitment to access to justice has made regarding access to civil litigation Preferring Justice Eric Cave, 2019-07-11 This manuscript is about the sense of justice that limits what individuals can do in pursuit of their ends and opens them to exploitation It shows how flawed agents choosing under partial information advance those of their ends having nothing to do with justice by maintaining such a disposition Latin America and the International Court of Justice Paula Wojcikiewicz Almeida, Jean-Marc Sorel, 2016-11-25 This book aims to evaluate the contribution of Latin America to the development of international law at the International Court of Justice ICJ This contemporary approach to international adjudication includes the historical contribution of the region to the development of international law through the emergence

of international jurisdictions as well as the procedural and material contribution of the cases submitted by or against Latin American states to the ICJ to the development of international law The project then conceives international jurisdictions from a multifunctional perspective which encompasses the Court as both an instrument of the parties and an organ of a value based international community This shows how Latin American states have become increasingly committed to the peaceful settlement of disputes and to the promotion of international law through adjudication It culminates with an expansion of the traditional understanding of the function of the ICJ by Latin American states including an analysis of existing challenges in the region The book will be of interest to all those interested in international dispute resolution including academic libraries the judiciary practitioners in international law government institutions academics and students alike
