Franklin, Suzanne Kosanke, 2000-01-01 This collection of essays and poems examines various recent literary texts and cultural arenas in North America and the Asia and Pacific regions for what they reveal of the ongoing struggles of indigenous people and people of colour for justice and autonomy *Doctrine and Difference* Michael J.

National Identities and Post-Americanist Narratives Donald E. Pease, 1994 National narratives create imaginary relations within imagined communities called national peoples But in the American narrative alongside the nexus of belonging established for the national community the national narrative has represented other peoples women blacks foreigners the homeless from whom the property of nationness has been removed altogether and upon whose differences from them the national people depended for the construction of their norms Dismantling this opposition has become the task of post national Post Americanist narratives bent on changing the assumptions that found the national identity This volume originally published as a special issue of *bounrary 2* focuses on the process of assembling and dismantling the American national narrative s sketching its inception and demolition The contributors examine various cultural political and historical sources colonial literature mass movements epidemics of disease mass spectacle transnational corporations super weapons

Visions of Order in William Gilmore Simms Masahiro Nakamura, 2009 One of nineteenth century America's foremost men of letters William Gilmore Simms 1806-1870 of Charleston South Carolina distinguished himself as a historian poet and novelist yet his stalwart allegiance to the ideals of the Confederacy have kept him largely marginalized from the modern literary canon In this engaging study Masahiro Nakamura seeks to reinsert Simms in current American literary and cultural studies through a careful consideration of Simms's southern conservatism as a valuable literary counterpoint to the bourgeois individualist ideology of his northern contemporaries For Nakamura Simms's vision of social order runs contrary to the staunch individualism expressed in traditional American romances by authors such as James Fenimore Cooper and Nathaniel Hawthorne In his thoughtful approaches to Simms's historical depictions of the making of American history and society Nakamura finds consistent assertions of social order against the perils of literal and metaphoric wilderness a conservative vision that he traces to the influence of Simms's southern *genius loci* To understand how this southern conservatism also manifests itself in Simms's fiction Nakamura contrasts Simms's historical romances with those of Hawthorne as representative of the New England romance tradition to differentiate the ways in which the two writers interpret the dynamic between the individual and society Nakamura finds that Simms's protagonists struggle to establish their places within their culture while Hawthorne's characters are often at odds with their culture The resulting comparison enriches our understanding of both writers

Reciting America Christopher Douglas, 2001 He explores how these novels and other texts confront national discourse and strive though with inconclusive results to open America up to new subject positions by offering alternatives to the dominant ideology Douglas finds contemporary intellectual and political life against the backdrop of a mythology enshrined in proclamations pledges and public documents to be impoverished by the pervasive use of clichés which he identifies as figures of speech that stimulate emotion or action while shortcircuiting reflection In its extreme clichéd form the American Dream consists of nothing more than advertising slogans and popular culture images yet these pronouncements retain a powerful hold on the will and imagination of U.S. citizens

An American Body - Politic Bernd Herzogenrath, 2010-11-09 A reflection on the metaphor of the body politic throughout American history

Robert Cantwell and the Literary Left T. V. Reed, 2014-06-01 Robert Cantwell and the Literary Left is the first full critical study of novelist and critic Robert Cantwell a Northwest born writer with a strong sense of social justice who found himself at the center of the radical literary and cultural politics of 1930s New York Regarded by F. Scott Fitzgerald and Ernest Hemingway as one of the finest young fiction writers to emerge from this era Cantwell is best known for his superb novel *The Land of Plenty* set in western Washington His literary legacy however was largely lost during the Red Scare of the McCarthy era

when he retreated to conservatism Through meticulous research an engaging writing style and a deep commitment to the history of American social movements T V Reed uncovers the story of a writer who brought his Pacific Northwest brand of justice to bear on the project of reworking American literature to include ordinary working people in its narratives In tracing the flourishing of the American literary Left as it unfolded in New York Reed reveals a rich progressive culture that can inform our own time

The Figure of the Road Christopher D. Morris, 2007 The Figure of the Road examines the metaphor of the road way or path in works of representative humanities disciplines literature religion philosophy visual art popular culture to show how writers and artists anticipated the dilemma known to contemporary deconstruction as the aporia or pathless place This tradition exposes the solution advocated in Derrida's late thought the search for the tout autre as a negative theology and suppression of writing's freedom to allegorize these insoluble problems The Figure of the Road concludes by tracing the bleak Beckett like implications of this freedom for curriculum and ethics in a world understood as wholly figural
