Eubanks,2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels Dictatorship, State Planning, and Social Theory in the German Democratic Republic Peter C. Caldwell,2003-03-27 The introduction of state planning and party dictatorship dramatically altered the environment for social theory in the German Democratic Republic But social thought did not disappear By the mid 1950s East German social theorists discovered the basic contradictions of state socialism that would eventually lead to its collapse the inability of the plan to function without markets and its inability to permit markets the inability of the party state to guarantee the rule of law and yet also the need for a regular system of rules in a modern industrial society and the contradictory philosophical claims of a Marxist Leninist philosophy that rejected idealism and Marxist Leninist dogma with its idealistic claim to know the laws of social modernization Making use of archival sources Caldwell examines the articulation of these analyses their subsequent suppression by party authorities in the late 1950s and their return under the guise of cybernetics in the 1960s

Comparative Economic Systems Jan S. Prybyla,1969 **Praxis and Method (RLE: Gramsci)** Richard Kilminster,2014-04-24 This sociological critique of the philosophy of praxis looks at the importance of the concept in the

social theory of leading influential Western Marxists such as Lukács, Gramsci, Korsch, Horkheimer, Marcuse and Adorno in the inter-war period. It offers a detailed critique of Marx and Hegel and explores the validity and implications for sociology of two of Marx's ideas which the later theorists made the centre piece of their social theory: first that true theory is authenticated by praxis and second its corollary that certain major social transformations should and would in practice render sociology redundant.

The first volume on this two-part biography traces Engels' career from his youth in the Wupper valley through his periods in Bremen and Berlin to the Manchester years and the beginning of his long collaboration with Marx. Marxist Thought in Latin America Sheldon B. Liss, 1984. *The Political Psychology of Appeasement* Walter Laqueur. This volume takes its title from one of the most prescient essays of our times: an analysis of Eurocommunism as a consequence of military stalemate and the atrophy of will in the West. These essays highlight Laqueur's exceedingly sober assessment of the current status in world power not primarily in military terms but in geopolitical and ideological terms.

Up from Communism John P. Diggins, 1994. This study explains how the radical experience of a generation of writers influenced the cultural and political climate of post-World War II USA and provided much of the conservative rationale for the early years of the Cold War.
