Reviving The Death Penalty Ideas In Conflict Series:

Capital Punishment C. Cliff, 2003 The issue of capital punishment is a continually debated issue because it calls into question the values and direction of society How is a civilisation supposed to handle lawbreakers Are some crimes so heinous and some people so dangerous that the death penalty is the only appropriate response The United States Constitution prohibits cruel and unusual punishment but opinions on whether that includes capital punishment are vehement on both sides Many states have some form of death penalty and public opinion seems to indicate support of it in principle However many firestorms have erupted recently over the application of the penalty including the topics of its use on minors and those with mental disabilities There are also questions raised about how much of a factor race plays in a capital sentence Internationally several countries have foresworn the death penalty with certain countries in Europe and the Americas refusing to extradite criminal suspects including suspected terrorists to the US if capital punishment is a possible sentence With such politically flammable and ethically challenging issues hanging over it capital punishment is a vitally important issue to understand To help facilitate that study this book assembles a carefully selected and substantial listing of literature focussing on the death penalty Anyone researching this area of criminal justice will find this book an important tool as it offers easy access to the most relevant works about capital punishment Following the bibliography further access is provided with author title and subject indexes *Reviving the Death Penalty* Gary E. McCuen, 1985 Essays discuss the history and methods of capital punishment reasons for and against the death penalty and capital punishment in Japan Russia and Iran

Books in Series, 1876-1949 R.R. Bowker Company, 1982 **Resolved, that the Federal Government Should Substantially Change Rules And/or Statutes Governing Criminal Procedure in Federal Courts in One Or More of the Following Areas** George Walser, 1994 Revival: Soviet Politics: The Dilemma of Power (1950) Barrington Moore, Jr, 2017-09-29 First published in 1950 this book investigates the interaction between Communist ideology and Soviet political practices from the period of Lenin's theoretical formulations to the contemporary Soviet bureaucratic state The Theatre of the Occult Revival E. Ligan, 2014-11-19 This book explores the religious foundations political and social significance and aesthetic aspects of the theatre created by the leaders of the Occult Revival Ligan shows how theatre contributed to the fragmentation of Western religious culture and how contemporary theatre plays a part in the development of alternative occult religions War and Ideas John Mueller, 2013-09-13 This book collects the key essays together with updating notes and commentary of Professor John Mueller on war and the role of ideas and opinions Mueller has maintained that war and peace are in essence merely ideas and that war has waned as the notion that peace is a decidedly good idea has gained currency The first part of the book extends this argument noting that as ideas have spread war is losing out not only in the developed world but now in the developing one and that even civil war is in marked decline It also assesses and critiques theories arguing that this phenomenon is caused by the rising acceptance of democracy and or capitalism The second part

argues that the Cold War was at base a clash of ideas that were seen to be threatening not of arms balances domestic systems geography or international structure It also maintains that there has been a considerable tendency to exaggerate security threats currently in particular the one presented by international terrorism and to see them in excessively military terms The third section deals with the role public opinion plays in foreign policy and argues that many earlier conclusions about opinion during the Korean and Vietnam Wars including especially ones concerning the importance of casualties in determining popular support for war apply to more recent military ventures in the Persian Gulf Bosnia Iraq and Afghanistan It also assesses the difficulties leaders and idea entrepreneurs often encounter when they try to manage or manipulate public opinion This book will be of much interest to students of international relations security studies foreign policy and international history

The Legacy of the Filibuster War Marco Cabrera Geserick, 2019-06-24 The Legacy of the Filibuster War National Identity and Collective Memory in Central America analyzes the development of the Filibuster War as a symbol of Costa Rican national identity and presents several challenges to traditional theories of modernization and the creation of nationalism By focusing on the development of cultural features defined by the transformation of collective memory Marco Cabrera Geserick argues that national identity is a dynamic process defined according to local national and international contexts Modernization theories connect the creation of symbols of official nationalism with the period of consolidation of the nation state yet the Filibuster War started its rise to Costa Rican national identity years later Cabrera Geserick analyzes the threats to sovereignty and imperialist advances that served to promote the memory of the Filibuster War while local social transformations such as the abolition of the army the rise of popular forces and internal political conflict have continued to force drastic changes on the interpretation of the war

Imagining the American Death Penalty Birte Christ, 2025-04-29 Imagining the American Death Penalty traces the US American cultural imaginary of capital punishment through popular visual representations from the 1890s to the twenty first century The book focuses on three generic and historical clusters of representations early film from the 1890s through Intolerance 1916 crime film noir of the 1950s and 1960s and legal TV series from the 1990s through the early 2000s The book makes two central arguments First it demonstrates that an increased concern with the death penalty in popular media does not mean that these texts promote an abolitionist agenda their cultural work is ambiguous at best This ambiguity is always contingent upon both the affordances of the particular genre and medium in question and on political legal discursive context The book explores both in detail Early film is enchanted with its own representational possibilities

due to the progress of technology and in analogy with the progress in execution technique specifically the electric chair In film noir genre conventions and the legal back and forth before and after Furman predicate ambiguity In legal TV series the genre s ensemble casts and its focus on conversational exchange invite open debate The second argument is that popular visual representations consistently whitewash the death penalty The book demonstrates that this is the case because the most common narrative around executions in film and TV is to cast the condemned man as a hero who defies the violence of the state gains dignity by accepting his fate and faults and in some ways triumphs over death The American imaginary until very recently did or could not imagine Black men to possess that measure of agency that it attributed to its white heroes

Capital Punishment and the American Agenda Franklin E. Zimring, Gordon Hawkins, 1989-02-24 This book redefines the central political and legal issues of the death penalty in the light of the social political and moral conditions of the United States in the 1980s The book which shows a United States pursuing an active execution policy is an original and compelling contribution to the discussion of the future of the death penalty *Guide to Reference Books for School Media Centers* Christine Gehrt Wynar, 1986 *Executing Freedom* Daniel LaChance, 2016-11-18 Breaks new ground shows compellingly and convincingly that punishment provides a major gateway to exploring a society and culture *Journal of American History* In the mid 1990s as public trust in big government was near an all time low 80% of Americans told Gallup that they supported the death penalty Why did people who didn t trust government to regulate the economy or provide daily services nonetheless believe that it should have the power to put its citizens to death That question is at the heart of *Executing Freedom* a powerful wide ranging examination of the place of the death penalty in American culture and how it has changed over the years Drawing on an array of sources including congressional hearings and campaign speeches true crime classics like *In Cold Blood* and films like *Dead Man Walking* Daniel LaChance shows how attitudes toward the death penalty have reflected broader shifts in Americans thinking about the relationship between the individual and the state Emerging from the height of 1970s disillusion the simplicity and moral power of the death penalty became a potent symbol for many Americans of what government could do and LaChance argues fascinatingly that it s the very failure of capital punishment to live up to that mythology that could prove its eventual undoing in the United States Fiercely provocative A must read for socio legal studies and punishment scholars who want to know more about how the phenomenon of capital punishment took on a life of its own in the modern US cultural imagination *Theoretical Criminology* **Subject Guide to Books in Print**, 1975 *Restoring America's Future* Gene Gordon, 1996 *Revival: The Life of Caesar (1933)* Guglielmo Ferrero, 2018-01-16 Translated from Italian into English The *Life of Caesar* by the noted Italian historian Guglielmo Ferrero is as the title would suggest a biography of the great Roman Dictator Julius Caesar Ferrero s book however cannot be described just as a biography His work in fact can be more accurately defined as a complete history not only of Julius Caesar s life but also of his times the time of the fall of the Roman Republic
