Revolution Americaine 1775-1783 Pourquoi La France Refuse Le Canada:

Portrait des arts, des lettres et de l'éloquence au Québec (1760-1840) Marc André Bernier, 2002 **Revisiting 1759** Phillip Alfred Buckner, John G. Reid, 2012-01-01 This cohesive collection investigates many of the most hotly contested questions surrounding the Conquest Was the battle itself a crucial turning point or just one element in the global struggle between France and Great Britain Did the battle's outcome reflect the superior strategy of General James Wolfe or rather errors on both sides Did the Conquest alter the long term trajectories of the French and British empires or simply confirm patterns well underway How formative was the Conquest in defining the new British America and those now living under its rule Pub desc He Did Not Conquer Madelaine Drohan, 2025-09-30 Throughout his long and illustrious career Benjamin Franklin nursed a not so secret desire to annex Canada and make it American When he was not busy conducting scientific experiments or representing American interests at home and abroad Benjamin Franklin hatched one plan after another to join Canada to the American colonies and then later to the United States These were not solely intellectual efforts He went to Montreal in 1776 to try to turn around the faltering occupation by American forces As lead American negotiator at the 1782 peace negotiations with Britain in Paris he held the fate of Canada in his hands Ill health and other American priorities then forced him to abandon his decades long campaign to possess Canada Franklin's elevation to the status of an American icon has pushed this signal failure into the far reaches of collective memory in both Canada and the United States Yet it shaped the future of North America and relations between the two neighbours over the next two and a half centuries

Entangling the Quebec Act Ollivier Hubert, François Furstenberg, 2020-12-30 Beyond redrawing North American borders and establishing a permanent system of governance the Quebec Act of 1774 fundamentally changed British notions of empire and authority Although it is understood as a formative moment indeed part of the textbook narrative in several different national histories the Quebec Act remains underexamined in all of them The first sustained examination of the act in nearly thirty years Entangling the Quebec Act brings together essays by historians from North America and Europe to explore this seminal event using a variety of historical approaches Focusing on a singular occurrence that had major social legal revolutionary and imperial repercussions the book weaves together perspectives from spatially and conceptually distinct historical fields legal and cultural political and religious and beyond Collectively the contributors resituate the Quebec Act in light of Atlantic American Canadian Indigenous and British Imperial historiographies A transnational collaboration Entangling the Quebec Act shows how the interconnectedness of national histories is visible at a single crossing point illustrating the importance of intertwining methodologies to bring these connections into focus **Brève histoire du peuplement européen en Nouvelle-France** Robert Larin, 2000 Une étude qui compare la colonisation de la Nouvelle France avec celle des autres colonies françaises en Amérique du Nord et aux Antilles Malgré le nombre limité d'habitants sur place il en ressort que c'est la Nouvelle France qui offrait les conditions de vie les plus favorables et les meilleurs résultats en termes de

peuplement de souche européenne Plusieurs facteurs de la colonisation nord américaine expliquent l'amorce du peuplement en Nouvelle France l'exode de groupes religieux minoritaires l'esclavage défavorable aux populations de souche européenne puisqu'elle a privilégié l'immigration noire au détriment de la population blanche aux Antilles le commerce colonial En Nouvelle France le peuplement a été favorisé grâce à l'envoi considérable de militaires des possibilités de travail pour les jeunes célibataires et l'immigration féminine
