Russia Inc:

Russia Greg Nickles, 2008 After enduring crushing inflation and unemployment Russians are looking to the future with hope of a new prosperity This colorful revised edition of *Russia the People* takes a look at the new middle class and how the culture has been changing since the change from a state controlled economy to a free market over the last few decades New topics include ethnic nationalisms and instability life in rural Russia and games food and activities Russians share *Russia Company Laws and Regulations Handbook - Strategic Information and Basic Laws* IBP, Inc., 2015-06 *Russia Company Laws and Regulations Handbook Strategic Information and Basic Laws* **Russia**, 1918 **Germany, Russia, and the Rise of Geo-Economics** Stephen F. Szabo, 2014-12-18 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Having emerged from the end of the Cold War as a unified country Germany has quickly become the second largest exporter in the world Its economic might has made it the center of the Eurozone and the pivotal power of Europe Like other geo economic powers Germany's foreign policy is characterized by a definition of the national interest in economic terms and the elevation of economic interests over non economic values such as human rights or democracy promotion This strategic paradigm is evident in Germany's relationship with China the Gulf States and Europe but it is most important in regard to its evolving policies towards Russia In this book Stephen F Szabo provides a description and analysis of German policy towards Russia revealing how unified Germany is finding its global role in which its interests do not always coincide with the United States or its European partners He explores the role of German business and finance in the shaping of foreign policy and investigates how Germany's Russia policy affects its broader foreign policy in the region and at how it is perceived by key outside players such as the United States Poland and the EU With reference to public opinion the media and think tanks Szabo reveals how Germans perceive Russians and he uncovers the ways in which its dealings with Russia affect Germany in terms of the importing of corruption and crime Drawing on interviews with key opinion shapers business and financial players and policy makers and on a wide variety of public opinion surveys media reports and archival sources his will be a key resource for all those wishing to understand the new geo economic balance of Europe *Russia's Virtual Economy* Clifford G. Gaddy, Barry William Ickes, 2002 Clifford Gaddy's and Barry Ickes thesis that Russia's economy is based on illusion or pretense about nearly every important economic yardstick including prices sales wages and budgets has forced broad recognition of the inadequacies of the intended market reform policies in Russia and provided a coherent framework for understanding how and why so much of Russia's economy has resisted reform *Russia and the World* Natasha Kuhrt, 2014-10-14 This volume brings together analyses of key domestic foreign and security policy issues during the Putin and Medvedev administrations Indeed the chapters demonstrate the extent to which domestic and foreign policy issues are inextricably linked in particular in the domain of security whether hard or soft Internal debates regarding Russia's trajectory including issues of national identity economic modernisation

human rights and democracy continue to be at the forefront of concern Moreover these debates are intimately connected to Russia s self image and the image therefore that it wishes to project in the wider world The debates focus on Russia as energy superpower as one of the BRICS as an Eurasian landbridge or a window on the Asia Pacific Such debates are a constant reminder of the uncertainty surrounding Russia s future path This book expresses these uncertainties which range from the role of nuclear weapons and energy to critiques of Russia s approach to concepts such as sovereignty and self determination the fight against terrorism insurgency and the role of Islam within and without Russia may have left the chaos of the Yeltsin years behind but as we move into Putin 3 0 the concerns of these chapters will remain critical both to Russia itself and to Russia s relations with the wider world This book was published as a special issue of Europe Asia Studies

Reflections on Leadership and Career Development Manfred F. R. Kets de Vries, 2011-09-19
Views from the interface of psychoanalysis and organizational life. In the books in this series Manfred Kets de Vries failed engineer, entrepreneur, manqué, reluctant economist, international management guru, psychoanalyst, wit, and outdoorsman offers an overview of his work spanning four decades, a period in which he has established himself as the leading figure in the clinical study of organizational leadership. At a key point in his career, working as he puts it in the twilight zone of economics, management, and psychoanalysis, he decided to strike out on a little trodden path and bring the person back into the organization. Now Kets de Vries occupies a unique position in the academic business world, putting leaders and companies of the couch and working at the often intimate interface where the inner theater of the individual meets the outer world of the organization. The second book in this series, *Reflections on Leadership and Career Development*, takes different perspectives on the intimate connection between the personality or inner theater of individuals and the organizational context in which they work: how different personality types in positions of leadership or as members of management teams affect the functioning and success of organizations. Kets de Vries looks at the way basic psychological processes operate on individual and corporate performance and analyzes them in the context of case studies of leaders and organizations. He examines narcissism, dysfunctional collusion between leaders and followers, some new leadership archetypes, and the roles that organizational therapists, coaches, or consultants can play in their interventions. The book includes a lengthy study of Vladimir Putin as CEO of Russia Inc., an assessment of the former Russian president's performance as an organizational leader. The final part of the book examines the career life cycle and how executives cope or fail to cope with rites de passage like succession and retirement. For the first time, this book provides a glimpse of Manfred Kets de Vries' own inner theater as the wellspring of his success as psychoanalyst, mentor, and inspiration to a generation of leaders. *Reflections on Leadership and Career Development* offers a rare opportunity to observe Manfred on his own legendary couch, a personal perspective not to be missed.

[The Limits of Partnership](#) Angela E. Stent, 2015-03-29
A gripping account of U.S.-Russian relations since the end of the Soviet Union. *The Limits of Partnership* is a riveting narrative about U.S.-Russian relations from the Soviet collapse through the Ukraine crisis and the difficult challenges ahead. It reflects the unique perspective of an insider who is also recognized as a leading expert on this troubled relationship. American presidents have repeatedly attempted to forge a strong and productive partnership, only to be held hostage to the deep mistrust born of the

Cold War For the United States Russia remains a priority because of its nuclear weapons arsenal its strategic location bordering Europe and Asia and its ability to support or thwart American interests Why has it been so difficult to move the relationship forward What are the prospects for doing so in the future Is the effort doomed to fail again and again What are the risks of a new Cold War Angela Stent served as an adviser on Russia under Bill Clinton and George W Bush and maintains dialogues with key policymakers in both countries Here she argues that the same contentious issues terrorism missile defense Iran nuclear proliferation Afghanistan the former Soviet space the greater Middle East have been in every president's inbox Democrat and Republican alike since the collapse of the USSR Stent vividly describes how Clinton and Bush sought inroads with Russia and staked much on their personal ties to Boris Yeltsin and Vladimir Putin only to leave office with relations at a low point and how Barack Obama managed to restore ties only to see them undermined by a Putin regime resentful of American dominance and determined to restore Russia's great power status *The Limits of Partnership* calls for a fundamental reassessment of the principles and practices that drive U S Russian relations and offers a path forward to meet the urgent challenges facing both countries This edition includes a new chapter in which Stent provides her insights about dramatic recent developments in U S Russian relations particularly the annexation of Crimea war in Ukraine and the end of the Obama Reset
