The Oreshnik Missile Russia's New Weapon StoryBuddiesPlay,2025-06-04 When Russia unveiled the Oreshnik missile in its war against Ukraine the world witnessed a new era of military innovation and strategic uncertainty This comprehensive ebook traces the development deployment and global reverberations of the Oreshnik from its experimental origins to its battlefield debut and far reaching consequences Combining technical insight expert analysis and a clear eyed look at the political and psychological stakes this book is essential reading for anyone seeking to understand the future of warfare and international security Oreshnik missile Russia hypersonic missile Ukraine conflict weapons modern warfare technology missile defense systems MIRV warheads Russian military innovation arms race 2025 strategic deterrence future of warfare

Trends in Russia's Armed Forces Keith Crane,Olga Oliker,Brian Nichiporuk,2019-10-10 The authors assess how Russian military forces are postured and resourced and how they are likely to operate They also discuss the goals and effects of Russian military reform efforts including initiatives that span all of the Russian armed forces services and independent branches Touching on most of Russia's armed forces major capabilities the authors conclude with a look at how those capabilities are being integrated in practice Publications Combined: Russia's Regular And Special Forces In The Regional And Global War On Terror , Over 2 400 total pages Russian outrage following the September 2004 hostage disaster at North Ossetia's Beslan Middle School No 1 was reflected in many ways throughout the country The 52 hour debacle

resulted in the death of some 344 civilians including more than 170 children in addition to unprecedented losses of elite Russian security forces and the dispatch of most Chechen allied hostage takers themselves. It quickly became clear as well that Russian authorities had been less than candid about the number of hostages held and the extent to which they were prepared to deal with the situation. Amid grief calls for retaliation and demands for reform, one of the more telling reactions in terms of hardening public perspectives appeared in a national poll taken several days after the event. Some 54% of citizens polled specifically judged the Russian security forces and the police to be corrupt and thus complicit in the failure to deal adequately with terrorism, while 44% thought that no lessons for the future would be learned from the tragedy. This pessimism was the consequence not just of the Beslan terrorism but the accumulation of years of often spectacular failures by Russian special operations forces (SOF). In the apt US military acronym, a series of Russian SOF counterterrorism mishaps, misjudgments and failures in the 1990s and continuing to the present have made the Kremlin's special operations establishment in 2005 appear much like Russia's old Mir space station: wired together, unpredictable and subject to sudden, startling failures. But Russia continued to maintain and expand a large, variegated special operations establishment which had borne the brunt of combat actions in Afghanistan, Chechnya and other trouble spots and was expected to serve as the nation's principal shield against terrorism in all its forms. Known since Soviet days for tough personnel, personal bravery, demanding training and a certain rough or brutal competence that not infrequently violated international human rights norms, it was supposed that Russian special operations forces, steeped in their world of threats to the state and associated with once dreaded military and national intelligence services, could make valuable contributions to countering terrorism. The now widely perceived link between corrupt special forces on the one hand and counterterrorism failures on the other reflected the further erosion of Russia's national security infrastructure in the eyes of both Russian citizens and international observers. There have been other, more ambiguous but equally unsettling dimensions of Russian SOF activity as well that have strong internal and external political aspects. These constitute the continuing assertions from Russian media, the judicial system and other Federal agencies and officials that past and current members of the SOF establishment have organized to pursue interests other than those publicly declared by the state or allowed under law. This includes especially the alleged intent to punish by assassination those individuals and groups that they believe have betrayed Russia. The murky nature of these alleged activities has formed a backdrop to other problems in the special units.

Russia's Long Twentieth Century Choi Chatterjee, Deborah A. Field, Lisa A. Kirschenbaum, 2025-08-01. Covering the sweep of Russian history from empire to Soviet Union to post-Soviet state, this new edition of Russia's Long Twentieth Century is an accessible textbook that encourages students to start a lively conversation with Russia's storied past. Chronologically organized, the book moves beyond the traditional Cold War framework, situating Russian history within world history. It covers topics including state power, political ideology, economic change and foreign policy, highlighting the perspectives of ordinary people and exploring the impacts of

race ethnicity nationality gender and generation on historical experience Taking an inquiry based approach the authors show how scholars diverge sharply in their understanding of key events historical processes and personalities Each chapter contains a selection of primary sources and discussion questions engaging with the voices and experiences of diverse Soviet citizens and familiarizing students with the techniques of source criticism The second edition features expanded coverage of the non Russian regions of the Russian empire and the Soviet Union adding new sections on Ukraine in particular To help students navigate the book the new edition also includes a timeline of key events and people and a glossary With a variety of learning tools maps and images this volume is an essential introduction to twentieth century Russian history *Russia in Africa* Samuel Ramani,2023-02-08 Three decades after the Soviet Union's collapse Russia has transformed from a fringe player to a resurgent great power in Africa The October 2019 Russia Africa Summit in Sochi highlighted the appeal of Russia's normative agenda the ubiquity of Russian military technology and the breadth of Moscow's presence on the continent Beneath the pageantry a darker side of Russia's African resurgence looms large From Libya to Madagascar Russia has used sinister tactics to expand its influence such as private military contractors shadowy mining and energy deals with authoritarian regimes and election interference campaigns This book presents a chronological examination of Russia's post Cold War foreign policy towards Africa and outlines the factors that have enabled and impeded the growth of its influence It pays special attention to the non material factors behind this rising power the domestic drivers of Russian decision making Moscow's relationships with fellow external powers and African perspectives on Russia's geopolitical role Samuel Ramani's analysis cites extensively both Russian language media and academic sources and his own interviews with Russian and African elites His fascinating study challenges popular depictions of Russia as an opportunistic anti Western actor instead emphasising Moscow's strategic commitment to Africa and the endurance of historical memory **Russia Unveiled** Panaït Istrati,2017-07-14 First published in English in 1931 the author of this book was thoroughly acquainted with Russia both in Tsarist and Bolshevik times he spoke fluent Russian and became an ardent supporter of the Bolshevik cause This volume documents how his illusions were shattered as he saw through the propaganda and perceived that the Soviet system was in practice both oppressive and unworkable **The war in Ukraine unveiled. Beyond the narratives: Geopolitics - Battles - Propaganda, - Geoeconomics - Trump's diplomacy - International implications - The role of Europe - China and BRICS+** Lygeros Stavros,2025-06-16 About This Book The war isn't over but negotiations for a peace treaty have begun The tide has shifted on the battlefield While the final chapter has yet to be written the core components of the war are examined thoroughly in this timely volume from Stavros Lygeros *Concealed Aspects of the War in Ukraine Beyond the Narratives* is titled intentionally since even the most hawkish observers among us are likely unaware of critical facts surrounding the conflict that have remained in the shadows mentioned only briefly in mainstream media These are brought to light in the pages of this book The goal of the author a seasoned political analyst and journalist is to provide a

comprehensive anatomy of a war that could and arguably should have been avoided Although the conflict is geographically localized it is in a broader sense a global war And so are the consequences of it reflected in the book s multifaceted subtitle Geopolitics Battles Propaganda Geoeconomics Trump s Diplomacy Europe s Role China and BRICS The book is structured into five sections Before the Invasion explores the prelude to the conflict War and Diplomacy During the Biden Presidency covers the military and diplomatic developments under the current U S administration The Ideological Dimension of the War focuses on the propaganda war and how Russia s self perception has evolved The Geoeconomics of the War delves into the economic dimensions of the conflict with particular attention paid to energy issues War and Diplomacy during the Trump Presidency examines the shift in U S foreign policy and the diplomatic momentum it has generated towards ending the war

Economic Developments in Contemporary Russia Ian Jeffries,2011-03-07 This book provides a comprehensive overview of economic developments in Russia since the late 1990s Key subjects covered include economic transition privatization and liberalization changes in land ownership and agriculture energy foreign direct investment economic stabilization and economic performance

Perils of Plenty Jonathan N. Markowitz,2020-04-02 Among scholars who focus on the politics of natural resources conventional wisdom asserts that resource scarce states have the strongest interest in securing control over resources Counterintuitively however in Perils of Plenty Jonathan N Markowitz finds that the opposite is true In actuality what states make influences what they want to take Specifically Markowitz argues that the more economically dependent states are on resource extraction rents for income the stronger their preferences will be to secure control over resources He tests the theory with a set of case studies that analyze how states reacted to the 2007 exogenous climate shock that exposed energy resources in the Arctic Given the dangerous potential for conflict escalation in the Middle East and the South China Sea and the continued shrinkage of the polar ice cap this book speaks to a genuinely important development in world politics that will have implications for understanding the political effects of climate change for many years to come

Russia as a Developing Society Teodor Shanin,2016-01-09

Blissful Blindness Dariusz Tolczyk,2023-09-05 The most heinous Soviet crimes the Red Terror brutal collectivization the Great Famine the Gulag Stalin s Great Terror mass deportations and other atrocities were treated in the West as a controversial topic With the Cold War dichotomy of Western democracy versus Soviet communism deeply imprinted in our minds we are not always aware that these crimes were very often questioned dismissed denied sometimes rationalized and even outright glorified in the Western world Facing a choice of whom to believe the survivors or Soviet propaganda many Western opinion leaders chose in favor of Soviet propaganda Even those who did not believe it behaved sometimes as if they did Blissful Blindness explores Western reactions and lack thereof to Soviet crimes from the Bolshevik revolution to the collapse of Soviet communism in order to understand ideological political economic cultural personal and other motivations behind this puzzling phenomenon of willful ignorance But the significance of Dariusz Tolczyk s book reaches beyond its direct historical focus Written for audiences not

limited to scholars and specialists this book not only opens one's eyes to rarely examined aspects of the twentieth century but also helps one see how astonishingly relevant this topic is in our contemporary world Extreme Politics Charles King, 2010-01-14 Why do some violent conflicts endure across the centuries while others become dimly remembered ancient struggles among forgotten peoples Is nationalism really the powerful force that it appeared to be in the 1990s This wide ranging work examines the conceptual intersection of nationalist ideology social violence and the political transformation of Europe and Eurasia over the last two decades The end of communism seemed to usher in a period of radical change an era of extreme politics that pitted nations ethnic groups and violent entrepreneurs against one another from the wars in the Balkans and Caucasus to the apparent upsurge in nationalist mobilization throughout the region But the last twenty years have also illustrated the incredible diversity of political life after the end of one party rule Extreme Politics engages with themes from the micropolitics of social violence to the history of nationalism studies to the nature of demographic change in Eurasia Published twenty years since the collapse of communism Extreme Politics charts the end of Eastern Europe as a place and chronicles the ongoing revolution in the scholarly study of the post communist world **Disintegration** Andrei Martyanov, 2021-05-01 The United States is undergoing a profound and radical transformation all features of which point to the fact of its departure at an accelerated rate from its largely self proclaimed status as a global hegemon The United States has lost ground in every single category that defines the power and status of a nation in relation to its rivals This book delves into the reasons for a catastrophic decline of the American nation addressing a range of factors from the economic especially energy to cultural technological and military factors America's deindustrialized economy is now deeply affected by what can only be described as a massacre of her small and middle size businesses and the implosion of the US commercial aerospace industry America's only driver of real growth the shale oil industry is facing realities which may make the Great Depression pale in comparison Disintegration also seeks answers to the precipitous moral and professional decline of the always mediocre qualities of the American elites from the corridors of political power to those of the military and business now spiraling out of control More alarmingly the trend also points to the possibility of the actual physical disintegration of the United States as a unified entity whether the divisions are ethnic or ideological The most profound fault line is cultural between the Coastal self proclaimed elites backed by the secular liberal media and deep state who promote the most radical ideologies as it concerns gender and race and the working class majority whom the former polemicize as deplorables Christian fundamentalists white supremacists and climate and science denialists Investigating these factors sheds light on America's future which holds very little promise for the country which had once proclaimed itself to be a shining city on the hill The American collapse is not just coming we are presently experiencing it How can we deal with a catastrophe which is unfolding before our very eyes Disintegration lays out some possibilities Communism Ferdinand Mount, 1993-04 From the overthrow of the tsars until the sudden collapse of Soviet communism the most influential Western analysts have reflected on

and debated the rise and fall of communism in the pages of the TLS The diverse opinions gathered in Communism A TLS Companion reflect the succession of Western attitudes to the birth growth and death of communism Contributors to this volume include Isaac Deutscher Eric Hobsbawm Richard Pipes Hugh Seton Watson Robert Conquest Geoffrey Hosking C M Woodhouse Max Hayward Leszek Kolakowski Timothy Garton Ash and many others of equal distinction The volume is arranged in four sections covering the period leading to the Russian Revolution the post Revolution era of Lenin Trotsky and Stalin the Soviet Union from World War II to 1968 and the final period of disillusionment and collapse

China At 60: Global-local Interactions Gerald Chan,Lai-ha Chan,Fung Kwan,2011-03-24 China at 60 explores the interactions between China and the world over the course of 60 years of Communist Party rule since 1949 and the impact of these interactions on China s domestic development To understand China s development experience and its transformation it is necessary to examine the trajectory of development from pre reform to post reform periods While the book may concur with previous findings on the changing development of China under economic reform more importantly it demonstrates the areas of continuity of the PRC s existence over the entire six decades To that end a dual theme change and continuity and global local interactions on China s development is adopted to assess the historical development of China s policies in various issue areas over the past 60 years The focus is chiefly on the domestic impacts of China s increasing engagement with the world the global implications of China s reform efforts and growing power and the long lasting uniqueness of this rising non European nation The book brings together a team of international experts to share their perspectives on global local interactions within a range of different topics including foreign policy domestic politics macroeconomic policy the central local relations the People s Liberation Army public health energy security finance and banking foreign trade and intellectual property rights as well as changes in the state s policies towards interest groups such as ethnic minorities

Foreign Affairs Edmund Dene Morel,Helena Maria Swanwick,1929

The New Battle for the Atlantic Magnus F Nordenman,2019-06-15 In this book Magnus Nordenman explores the emerging competition between the United States and its NATO allies and the resurgent Russian navy in the North Atlantic This maritime region played a key role in the two world wars and the Cold War serving as the strategic link between the United States and Europe that enabled the flow of reinforcements and supplies to the European Allies Nordenman shows that while a conflict in Europe has never been won in the North Atlantic it surely could have been lost there With Vladimir Putin s Russia threatening the peace in Europe following the annexation of Crimea in 2014 the North Atlantic and other maritime domains around Europe are once again vitally important But this battle will in many ways be different Nordenman demonstrates due to an overstretched U S Navy the rise of disruptive technologies a beleaguered NATO that woke up to the Russian challenge unprepared for high end warfighting in the maritime domain and a Russia commanding a smaller but more sophisticated navy equipped with long range cruise missiles Nordenman also provides a set of recommendations for what the United States and NATO must do now in order to secure the North Atlantic

in this new age of great power competition
