This important book shows the inability of revisionism to explain why millions are moved to act in defence of political causes and why specific political currents emerge and is a significant reassertion of the concept of revolution in human development.

The Image of Peter the Great in Russian History and Thought Nicholas Valentine Riasanovsky, 1992 The image of Peter the Great, Tsar of Russia from 1689 to 1725 has been a central theme of Russian history, art, and literature. This study draws on Russian historical accounts, folklore, and the arts to demonstrate how the image of Peter has reflected the changing cultural values of Russian people.

The International Politics of Eurasia: v. 9: The End of Empire? Comparative Perspectives on the Soviet Collapse S. Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1997. This book is the ninth in a series of ten volumes produced by the Russian Littoral Project. The project shares the conviction that the transformation of the former Soviet republics into independent states demands systematic analysis of the determinants of the domestic and foreign policies of the new countries. The series of volumes is intended to provide a basis for comprehensive scholarly study of these issues. This volume was shaped by the author's view that future scholarship about the post-Soviet world requires both specialized research and broad gauge studies that carefully juxtapose the breakup of the Soviet empire with the transformation of other multinational empires.

The Russian Revolution and Civil War 1917-1921 Jonathan Smele, 2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history. It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves. However, until now, historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature. The Russian Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state.

National Identities in Soviet Historiography Harun Yilmaz, 2015-02-20 Under Stalin's totalitarian leadership, the USSR's Soviet national identities, with their historical narratives, were constructed. These constructions envisaged how nationalities should see their imaginary common past, and millions of people defined themselves according to them. This book explains how and by whom these national histories were constructed and focuses on the crucial episode in the construction of national identities of Ukraine, Azerbaijan, and Kazakhstan from 1936 and 1945. A unique comparative study of three different case studies, this book reveals different

aims and methods of nation construction despite the existence of one party rule and a single overarching official ideology The study is based on work in the often overlooked archives in the Ukraine Azerbaijan and Kazakhstan By looking at different examples within the Soviet context the author contributes to and often challenges current scholarship on Soviet nationality policies and Stalinist nation building projects He also brings a new viewpoint to the debate on whether the Soviet period was a project of developmentalist modernization or merely a renewed Russian empire The book concludes that the local agents in the countries concerned had a sincere belief in socialism especially as a project of modernism and development and at the same time were strongly attached to their national identities Claiming that local communist party officials and historians played a leading role in the construction of national narratives this book will be of interest to historians and political scientists interested in the history of the Soviet Union and contemporary Eastern Europe the Caucasus and Central Asia
