*Russian Corporations* Andreï Igorevich Kuznetsov, 2001 *Russian Corporations The Strategies of Survival and Development* shows that while predictions of the quick development of a functional market economy there have not for the most part come true it is nevertheless possible if one's preconceptions are properly modified to do business successfully there

The Conundrum of Russian Capitalism Ruslan Dzarasov, 2013-12-06 The fall of the Soviet Union and the emergence of contemporary Russian capitalism are often all too often read as a juncture with the past In reality Russia's current capitalist system originated in the degenerated Soviet bureaucracy alongside the pressures of global capital From Roman Abramovich to Leonid Mikhelson the reign of the CEO in Russia corporations mirrors the autocracy of the Soviet Union's leaders the Russian tradition of the Cult of Personality lives on The conception of the massive corporations and the autocrats that lead them occurred towards the end of the Soviet Union when the would be owners seized corporate assets and taking advantage of Gorbachev's reforms transformed publicly owned industry into private enterprises with themselves at the helm By comparing the practices of Russian corporate governance labour practices and investment strategies to the typical models of corporate governance and investment behaviour of big firms in the West Ruslan Dzarasov exposes the parallels between the core and the periphery of the capitalist world system Drawing on the theory of Leon Trotsky as well as Immanuel Wallerstein and Robert Brenner this study disrupts many of the myths about Russia's political economy

The Palgrave Handbook of Critical International Political Economy Alan Cafruny, Leila Simona Talani, Gonzalo Pozo Martin, 2016-07-05 Challenging the assumptions of mainstream International Political Economy IPE this Handbook demonstrates the considerable value of critical theory to the discipline through a series of cutting edge studies The field of IPE has always had an inbuilt vocation within Historical Materialism with an explicit ambition to make sense from a critical standpoint of the capitalist mode of production as a world system of sometimes paradoxically and sometimes smoothly overlapping states and markets Having spearheaded the growth of a vigorous critical scholarship in the 1960s and 1970s however Marxism and neo Gramscian approaches became increasingly marginalized over the course of the 1980s The authors respond to the exposure of limits to mainstream contemporary scholarship in the wake of the onset of the Global Financial Crisis and provide a comprehensive overview of the field of Critical International Political Economy Problematising socioeconomic and political structures and considering these as potentially transitory and subject to change the contributors aim not simply to understand a world of conflict but furthermore to uncover the ways in which purportedly objective analyses reflect the interests of those in positions of privilege and power
