James,2025-02-28 The Beginner s Guide to Metaphysics is an introduction into certain types of metaphysical knowledge that has been presented throughout time immemorial It is by no means all inclusive Some of the material presented dates back to Atlantis Mu Lemurian and Ancient Egyptian times Recent discoveries are now indicating that Atlantis existed well over 13 000 years ago It is the hope of this author to provide some basic insight into our Earthly perspective of the Universe for our true understanding has been hidden for thousands of years It should also be noted that the ultimate goal of this project is to broaden one s perspective and provide opportunities to expand one s consciousness and not just individually or even globally but on a galactic level The world in which we live is based upon metaphysics The Greeks considered metaphysics to be one of the branches of philosophy Merriam Webster defines metaphysics as a division of philosophy that is concerned with the fundamental nature of reality and being emphasis added which also includes the study of ontology cosmology and epistemology While physics is based upon our three dimensional existence and concerns the nature of matter and energy the prefix meta refers to going beyond nature and the origin of reality itself A few topics discussed in this Beginner s Guide include Chakras Numerology Intuition and Reincarnation By having basic knowledge of each topic contained in this book the opportunity to hone in on a specific subject that resonates with one s understanding of the universe will become clear In turn this will provide the reader the jump start needed to pursue a specific field of interest s and gain a greater understanding of the true limitlessness of every human being **Tarot and Other Meditation Decks** Emily E. Smith's deck has become the gold standard for identifying and analyzing contemporary Tarot and other meditation decks based on archetypes. Developments in both visual and literary history and theory have influenced Tarot since its fifteenth century invention as a game and subsequent adaptations for esotericism, cartomancy and meditation. This analysis considers Tarot in relation to established modern and postmodern art movements such as Symbolism, Surrealism and Pattern and Decoration Art as well as the concepts and theories informing both the dominance and the dissolution of the modernist grid and hierarchical priorities. This work also explores the close connection between Tarot and the invention of the literary novel and includes new material on the representation of Tarot in film and fiction. A new chapter addresses the growing influence of the archetypal shadow and shadow work on Tarot as an artistic form, narrative genre and practice in the new millennium.

Her husband Tam, the notorious Licensee, amassed a fortune by leading a safe cracking gang before masterminding a spectacular \$50 million drugs racket. Mags was a devotee of Tarot cards and fortune telling so when Tam and his associates wondered whether luck would be with them it was to her that they turned. But Mags discovered that the cards warned of much more than years in prison: cells they predicted death. She learned that her own husband was also doomed to a fate that was unexpected by everyone but her. Tam died in the arms of the wife he called his rock while her secret lover frantically tried to save him. In *The Gangster's Wife* Mags reveals her gripping life story from being a London clippie through often hilarious days running an ice cream van during the infamous Glasgow Ice Cream Wars to managing a notorious bar, being agony aunt to the toughest criminals around, hiding a secret love and sharing a life with The Licensee. **Tarot - Take Your Readings To The Next Level** Jez Rogers, 2008-03-26 The secrets of successful tarot reading revealed. contains a collection of the customs usages and ceremonies used among gypsies as regards fortune telling witch doctoring love philtering and other sorcery illustrated by many anecdotes and instances taken either from works as yet very little known to the English reader or from personal experiences Within a very few years since Ethnology and Archaeology have received a great inspiration and much enlarged their scope through Folk lore everything relating to such subjects is studied with far greater interest and to much greater profit than was the case when they were cultivated in a languid half believing half sceptical spirit which was in reality rather one of mere romance than reason Now that we seek with resolution to find the whole truth be it based on materialism spiritualism or their identity we are amazed to find that the realm of marvel and mystery of wonder and poetry connected with what we vaguely call magic far from being explained away or exploded enlarges before us as we proceed and that not into a mere cloudland gorgeous land but into a country of reality in which men of science who would once have disdained the mere thought thereof are beginning to stray *Connecting Link* ,1992
