Kohut, Bohdan Y. Nebesio, Myroslav Yurkevich, 2013-07-11 Although present day Ukraine has only been in existence for something over two decades its recorded history reaches much further back for more than a thousand years to Kyivan Rus Over that time it has usually been under control of invaders like the Turks and Tatars or neighbors like Russia and Poland and indeed it was part of the Soviet Union until it gained its independence in 1991 Today it is drawn between its huge neighbor to the east and the European Union and is still struggling to choose its own path although it remains uncertain of which way to turn Nonetheless as one of the largest European states with considerable economic potential it is not a place that can be readily overlooked The problem is or at least was where to find information on this huge modern Ukraine and since 2005 the answer has been the *Historical Dictionary of Ukraine* in its first edition and now even more so with this second edition It now boasts a dictionary section of about 725 entries these covering the thousand years of history but particularly the recent past and focusing on significant persons places and events political parties and institutions as well as more broadly international relations the economy society and culture The chronology permits readers to follow this history and the introduction is there to make sense of it It also features the most extensive and up to date bibliography of English language writing on Ukraine **Reflections on the Gulag** Elena Dundovich, Francesca Gori, Emanuela Guercetti, 2003 *Moscow's Russification of Ukraine* Nicholas L. Cultural Heritage of East Central Europe Wojciech Roszkowski, 2015-01-02 The concept of culture is a relatively modern invention It stems from the Latin term cultura meaning cultivation Cicero was the first to use this word in a non agricultural context In his Tusculanae Disputationes he reflected on the cultivation of the soul cultura animi Later this term was rarely used in this sense but as of the 17th century more and more authors considered culture an intellectual and not an agricultural phenomenon Samuel Pufendorf 1632 1694 described culture as a vehicle overcoming natural barbarism He was followed by German philosophers of culture Johann Gottfried Herder 1744 1803 argued that human creativity was as important as human rationality and called attention to national cultures The works of German romantic philosophers were mainly focused on the specificity of the German culture a factor that was to unite divided German statehoods At the same time however Herder and his followers noticed other national cultures including first of all those of East and Central Europe It is therefore noteworthy that the early philosophical reflection on culture was closely connected with the specific traditions of East and Central Europeans
