Russian T34 Battle Tank:

The T-34 Russian Battle Tank Matthew Hughes, Chris Mann, 1999 One of World War II's most important military vehicles was the Russian T 34 a tank that was instrumental in the defeat of Germany on the Eastern Front and thus ultimate Allied victory in Europe As the author points out the T 34 was an innovative yet simple design whose mobility and armor represented a leap forward in fighting tanks Examined and fully illustrated are all aspects of T 34 development and service histories including sections on design variants armaments powerplants crews and armor Specification tables offer design drawings and comparisons to T 34 contemporaries which were in most cases far inferior to the Russian tank

T-34 Shock: The Soviet Legend in Pictures Francis Pulham, Will Kerrs, 2021-07-11 The Soviet T 34 medium tank needs no introduction being the most famous tank ever built especially as has seen service across the globe throughout the twentieth century's most brutal wars However despite this fame little has been written about its design changes While most tank enthusiasts can differentiate between the T 34 76 and the T 34 85 identifying different factory production batches has proven more elusive Until now With nearly six hundred photographs mostly taken by soldiers who both operated and fought against the T 34 this book seeks to catalogue and contextualise even the subtlest details to create a true T 34 continuum The book begins with the antecedents of the T 34 the ill fated BT fast tank series and the influence of the traumatic Spanish Civil War before moving to an in depth look at the T 34's prototypes After this every factory production change is catalogued and contextualised with never before seen photographs and stunning technical drawings Furthermore four battle stories are also integrated to explain the changing battle context when major production changes take place The production story is completed with sections on the T 34's post war production and modification by Czechoslovakia Poland and the People's Republic of China as well as T 34 variants

The Russian T-34 Battle Tank Horst Scheibert, 1997-01-15 This book covers the use and design of the Russian T 34 battle tank

Russia at War Timothy C. Dowling, 2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia's military past provides insights into European and U S history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol domination in the 14th century to the present day More than 650 entries by scores of expert contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further

exploration **Russian and Soviet Tanks 1914-1941** Maximino Argüelles Martinez, 2014-02-17 About the evolution of the Soviet offensive doctrine during World War II Where did this doctrine and armored formations that takes practice arise Why was the USSR as a nation which in 1940 developed a tank as advanced as the T 34 100 pages trying to answer these and other questions with a description of the principal armored vehicles and the formations in which were integrated from its beginnings in the Russian Empire until June 22 1941 **TANKER DIGITAL 02 , Russian Combat Methods in World War II** , 1950 *T-34 in Action* Artem Drabkin, Oleg Sheremet, 2006-06-19 First hand accounts from the Russian veterans of World War II who fought in the celebrated tanks that powered the Soviet armored forces The Soviet T 34 medium tank was one of the most famous and effective fighting vehicles of the Second World War Along with the German Tiger and the American Sherman it was a milestone in tank design that changed the course of the conflict Much has been written about the technical history of the tank and the vital part it played in the huge tank battles on the Eastern Front but less has been said about the men who went to war in the T 34 and lived fought and sometimes died in these remarkable machines This pioneering book which is based on extensive interviews with tank crews records their experiences and offers a compelling inside view of armored warfare in the mid twentieth century An engaging book and you will find yourself feeling the discomfort anxiety fear pride and joy of a Soviet Tanker in WWII as you read the T 34 in Action Military Trader An excellent read and a good book for tank enthusiasts The Armourer Hitler's Panzers East R. H. S. Stolfi, 1991 How close did Germany come to winning World War II Did Hitler throw away victory in Europe after his troops had crushed the Soviet field armies defending Moscow by August 1941 R H S Stolfi offers a dramatic new picture of Hitler s conduct in World War II and a fundamental reinterpretation of the course of the war Adolf Hitler generally is thought to have been driven by a blitzkrieg mentality in the years 1939 to 1941 In fact Stolfi argues he had no such outlook on the war From the day Britain and France declared war Hitler reacted with a profoundly conservative cast of mind and pursued a circumscribed strategy pushing out siege lines set around Germany by the Allies Interpreting Hitler as a siege F hrer explain his apparent aberrations in connection with Dunkirk his fixation on the seizure of Leningrad and his fateful decision in the summer of 1941 to deflect Army Group Center into the Ukraine when both Moscow and victory in World War II were within its reach Unaware of Hitler s siege orientation the German Army planned blitz campaigns Through daring operational concepts and bold tactics the army won victories over several Allied powers in World War II and these led to the great campaign against the Soviet Union in summer of 1941 Stolfi postulates that in August 1941 German Army Group Center had the strength both to destroy the Red field armies defending the Soviet capital and to advance to Moscow and beyond The defeat of the Soviet Union would have assured victory in World War II Nevertheless Hitler ordered the army group south to secure the resources of the Ukraine against a potential siege And a virtually assured German victory slipped away This radical reinterpretation of Hitler and the capabilities of the German Army leads to a reevaluation of World War II in which the lesson to be learned is not how the

Allies won the war but how close the Germans came to a quick and decisive victory long before the United States was drawn into the battle

Hitler's Command Rex Bashford, 2024-04-30 The third in a three part in depth study and deals with Hitler's influence on the Wehrmacht and how his decisions influenced the advancement of weapons technology in this pivotal era of the Second World War Hitler arrogated to himself the power to make all critical decisions relating to the strategic and operational deployment of the entire Wehrmacht and this volume analyzes the effect of his decisions on the Luftwaffe and Kriegsmarine How did his decisions affect the development of German Jet aircraft And the types of U Boats used How did he decide what priority to assign to key weapons in the overall German war effort What determined how programs such as the V1 V2 and the potential German Atomic bomb were integrated into the German war effort All these matters were critical to the actual operational power of the Wehrmacht as opposed to its theoretical potential Similarly what was the effect of the allied strategic bombing campaign on Germany's war potential and how effective were the steps Hitler ordered against it Finally what did the leading military figures of the Third Reich such as Field Marshals von Rundstedt Rommel Kluge Bock Model and Kleist think of Hitler's command Did the Chiefs of the General Staff during the war Halder Zeitzler and Guderian state their views And what was the effect of the attempt on Hitler's life through Operation Valkyrie on military operations
