Annual Workshop on Formal Approaches to Slavic Linguistics Steven Franks, Frank Y. Gladney, Mila Tasseva-Kurktchieva,2005 **To Amend the Joint Resolution Providing for the Adjudication of Claims of American Nationals Against the Government of the Union of Soviet Socialist Republics** United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe,1954 Considers resolutions providing for the appointment of a commissioner to determine the validity and amounts of the claims of American nationals against the Soviet government prior to Nov 16 1933 date of the recognition of the Soviet Union by the U S *Interrogativity* William Chisholm,Louis T. Milic,John A.C. Greppin,1984-01-01 This is a comparative study on the subject of interrogativity presenting broad and narrow attributes on this subject in diverse languages Russian Mandarin Georgian Bengali Bantu Japanese West Greenlandic and Ute Each contribution presents first the basic facts about the language in question its more recent provenience facts about numbers of speakers writing systems and related areal and sociolinguistic points An overview of the typological hallmarks follows together with a sketch of the grammar broadly construed Finally the grammar of interrogativity is described and the semantics and pragmatics of it are explored Integer Programming and Related Areas C. Kastning,2013-11-11 Integer Programing is one of the most fascinating and difficult areas in the field of Mathematical Optimization Due to this fact notable research contributions to Integer Programming have been made in very different branches of mathematics and its

applications Since these publications are scattered over many journals proceedings volumes monographs and working papers a comprehensive bibliography of all these sources is a helpful tool even for specialists in this field I initiated this compilation of literature in 1970 at the Institut für Konometrie und Operations Research University of Bonn Since then many collaborators have contributed to and worked on it Among them Dipl Math Claus Kastning has done the bulk of the work With great perseverance and diligence he has gathered all the material and checked it with the original sources The main aim was to incorporate rare and not easily accessible sources like Russian journals preprints or unpublished papers Without the invaluable and dedicated engagement of Claus Kastning the bibliography would never have reached this final version For this reason he must be considered its responsible editor As with any other collection this literature list has a subjective viewpoint and may be in some sense incomplete We have however tried to be as complete as possible The bibliography contains 4704 different publications by 6767 authors which were classified by 11839 descriptor entries

Systems of Nominal Classification Gunter Senft, 2000-08-03 This book first published in 2000 addresses the fundamental linguistic question of how the perceived world is expressed through systems of nominal classification that are grammatically encoded in various languages A team of leading international scholars reviews the whole spectrum of nominal classification from gender systems through to numeral classifiers providing cutting edge theoretical interpretations and empirical case studies based on a wide range of languages The volume presents ideas about the problems of classification advances theory by proposing typological categories and clarifies the interface between anthropological and grammatical work Focusing on systems that have a conceptual semantic basis the contributors reflect and represent approaches in nominal classification research This invaluable reference work will appeal to linguists anthropologists and psychologists alike as well as specialists in languages as diverse as Australian Amazonian Mayan and Japanese

Text, Speech and Dialogue Václav Matoušek, Pavel Mautner, Tomáš Pavelka, 2005-08-25 The International Conference TSD 2005 the 8th event in the series on Text Speech and Dialogue which originated in 1998 presented state of the art technology and recent achievements in the field of natural language processing It declared its intent to be an interdisciplinary forum intertwining research in speech and language processing with its applications in everyday practice We feel that the mixture of different approaches and applications offered a great opportunity to get acquainted with the current activities in all aspects of language communication and to witness the amazing vitality of researchers from developing countries too The financial support of the ISCA International Speech Communication Association enabled the wide attendance of researchers from all active regions of the world This year

conference was partially oriented towards multi modal human computer interaction HCI which can be seen as the most attractive topic of HCI at the present time In this way we are involved in a rich complex of communicative activity facial expressions hand gestures direction of gaze to name but the most obvious ones The interpretation of each user utterance depends on the context prosody facial expressions e g brows raised brows and gaze both raised and gestures Hearers have to adapt to the speaker e g maintaining the theme of the conversation smiling etc Research into the interaction of these channels is however limited often focusing on the interaction between a pair of channels Six significant scientific results achieved in this area in the USA Japan Switzerland Germany The Netherlands and the Czech Republic were presented by keynote speakers in special plenary sessions Further approx *Nominalizations, Double Genitives and Possessives* Anja Šarić, 2018-10-22 The goal of this work is twofold First it aims to account for double genitive constructions in Serbian Second it aims to re evaluate the DP hypothesis in light of their existence in Serbian Based on evidence from the categorial status of possessives argumenthood in the nominal domain the morphosyntactic structure of nominalizations and the assignment of the genitive case it is argued that DP projection must be assumed in Serbian Supreme Court Appellate Division ,

American Diplomacy Before the Courts Stephen M. Millett, 1977 Following the 1917 Bolshevik Revolution the American government refused to grant de jure recognition to the Soviet regime American courts likewise refuse to acknowledge the legal existence of the Soviet Union in matters concerning Russian property in the United States In the 1933 Litvinov Assignment when President Roosevelt granted conditional recognition to Moscow the Soviets assigned its rights to Russian property in the U S to the American government The assignment however proved to be difficult for courts to interpret and implement after 16 years of nonrecognition In 1937 the Supreme Court ruled in *United States v Belmont* that the assignment had been an executive agreement with the same domestic legal effect as a treaty Five years later it ruled that the American government had a superior claim to disputed Russian property to that of any private claimants because of the 1933 executive agreement A review of the cases concerning the legal effects of Soviet American relations from 1917 to 1942 demonstrates the domestic impacts of foreign relations and the role of the courts as they influence the conduct of foreign relations *Hearings* United States. Congress. House. Committee on Foreign Affairs, 1955 *Report* United States.

Congress Senate, **Integer Programming and Related Areas** Rabe v. Randow, 2012-12-06 The fields of integer programming and combinatorial optimization continue to be areas of great vitality with an ever increasing number of publications and journals appearing A classified bibliography thus continues to be necessary and useful today even more so than it did when the project of which this is the fifth volume was started in 1970 in the Institut für Ökonometrie und Operations Research of the University of Bonn The pioneering first volume was compiled by Claus Kastning during the years 1970 1975 and appeared in 1976 as Volume 128 of the series *Lecture Notes in Economics and Mathematical Systems* published by the Springer Verlag Work on the project was continued by Dirk Hausmann Reinhardt Euler and Rabe von

Random and resulted in the publication of the second third and fourth volumes in 1978 1982 and 1985 Volumes 160 197 and 243 of the above series The present book constitutes the fifth volume of the bibliography and covers the period from autumn 1984 to the end of 1987 It contains 5864 new publications by 4480 authors and was compiled by Rabe von Randow Its form is practically identical to that of the first four volumes some additions having been made to the subject list *Russia Tax, Law and Business Briefing: 2006* Amanda D. Johnson, 2005 The restructuring of Russia's legal and regulatory frameworks in the past decade have created new conditions for investment and business ventures offering both new opportunities and challenges to the prospective investor Russia Tax Law The restructuring and resulting creditworthiness of Russian banks five years after the 1998 1999 financial crisis A discussion of the performance of the Russian ruble against the dollar and the euro and the resulting impact on Russia's trade balance and inflation rate Drugstore chain 36 6's successful launching of the first IPO in Russia by a retail company and the second domestic IPO in the country's history and The prospects for project financing in Russia's fossil fuels sector as well as other restructuring and privatization developments in the energy market As with all WorldTrade publications Russia Tax Law Business Briefing 2004 is written by leading practitioners in the region Top law firms and ratings companies offer commentary and analysis concerning the current status of the banking energy intellectual property labor trade and real estate sectors
