

Thomas M. Nichols

Russian Presidency Society And Politics In 2nd Russian Republic

Robert R. Redfield

Russian Presidency Society And Politics In 2nd Russian Republic:

The Russian Presidency T. Nichols, 2015-12-22 Why has Russian democracy apparently survived and even strengthened under a presidential system when so many other presidential regimes have decayed into authoritarian rule And what are the origins of presidential power in modern Russia Thomas M Nichols argues that the answer lies in the relationship between political institutions and trust where society and consequently politics is fractious and divided structural safeguards inherent in presidentialism actually serve to strengthen democratic behavior The Russian presidency is not the cause of social turmoil in Russia but rather a successful response to it This book's emphasis on the social origins of Russian politics explains not only the unexpected survival of Russian democracy but encourages a reconsideration of the relationship between institutions social conditions and democracy

Russian Politics and Presidential Power Donald R. Kelley, 2016-10-05 Russian Politics and Presidential Power takes an in depth look at the Russian presidency and uses it as a key to understanding Russian politics Donald R Kelley looks at presidents from Gorbachev to Putin as authoritarian transformational leaders who set out to build the future while sometimes rejecting and reinterpreting the work of past modernizers Placing the presidency in this context helps readers understand both the disintegration of the Soviet Union and the nature of the Russian Federation that rose in its place And by setting the presidency within a longer historical context Kelley shows how the future of the presidency is dependent on other features of the political system

Routledge Handbook of Russian Politics and Society Graeme Gill, James Young, 2013-03 There is an ever burgeoning number of books analyzing the Russian experience or aspects of it This Handbook is the first single volume which gives both a broad survey of the literature as well as highlighting the cutting edge research in the area Through both empirical data and theoretical investigation each chapter in the Routledge Handbook Russian of Politics and Society examines both the Russian experience and the existing literature points to research trends and identifies issues that remain to be resolved Offering focused studies of the key elements of Russian social and political life the book is organized into the following broad themes General introduction Political institutions Political Economy Society Foreign Policy Politically economically and socially Russia has one of the most interesting development trajectories of any major country This Handbook seeks to answer questions about democratic transition the relationship between the market and democracy stability and authoritarian politics the development of civil society the role of crime and corruption and the creation of a market economy Providing a comprehensive resource for scholars and policy makers alike this book is an important contribution to the study of Russian Studies Eastern European studies and International Relations

Russian Politics and Society Richard Sakwa, 2020-08-16 Fully revised and updated to reflect the considerable changes in Russia over the last decade the fifth edition of this classic text builds on the strengths of previous editions to provide a comprehensive and sophisticated analysis of Russian politics and society The new edition incorporates the latest debates about Russian politics analysing recent institutional and political developments and examines

the electoral cycle and prospects of the president elected at the end of the process New to this edition an evaluation of Putin's leadership and the country's political performance under him updated election results and demographic social ethnic national statistics to include results of the 2010 census changes in the party system to electoral legislation and to the composition of parliament as well as the relationship between the executive and legislature coverage of the constitutional changes and governmental appointments under the various prime ministers more analysis of economic performance including discussion of the energy sector and pipeline politics changes in Russian foreign policy since EU enlargement its relationship with NATO since the reset as well as its relations with post Soviet states assessment of the military reforms and security and defence policy debates over the question of democracy in Russia today the nature of the system and its future prospects Written in an accessible and lively style this book is packed with detailed information on the central debates and issues in Russia's difficult transformation An unrivalled textbook on the subject it is essential reading for all those concerned with the fate of Russia and with the future of international society The Russian Presidency Thomas M. Nichols, 1999 Why has Russian democracy apparently survived and even strengthened under a presidential system when so many other presidential regimes have decayed into authoritarian rule And what are the origins of presidential power in modern Russia Thomas M Nichols argues that the answer lies in the relationship between political institutions and trust where society and consequently politics is fractious and divided structural safeguards inherent in presidentialism actually serve to strengthen democratic behaviour The Russian presidency is not the cause of social turmoil in Russia but rather a successful response to it This book's emphasis on the social origins of Russian politics explains not only the unexpected survival of Russian democracy but encourages a reconsideration of the relationship between institutions social conditions and democracy

Private and Civil Law in the Russian Federation William Bradford Simons, 2009 The chapters in this volume are from two Leiden conferences There distinguished scholars and practitioners from Russia and the Far Abroad measured the winds of change in the field of private law in post Soviet Russia enormous differences from the Soviet period crucial in supporting post Soviet changes toward freedom of choice in the marketplaces of goods services ideas and political institutions This volume will enable the reader to further chart the progress made in Russia and the region in the revitalization of private and civil law and its impact upon practice and comparative legal studies and to appreciate the role which the distinction between the public and private sectors is seen as playing in the process *Television and Presidential Power in Putin's Russia* Tina Burrett, 2010-12-14 As a new president takes power in Russia this book provides an analysis of the changing relationship between control of Russian television media and presidential power during the tenure of President Vladimir Putin It argues that the conflicts within Russia's political and economic elites and President Putin's attempts to rebuild the Russian state after its fragmentation during the Yeltsin administration are the most significant causes of changes in Russian media Tina Burrett demonstrates that President Putin sought to increase state control over television as part of a larger programme

aimed at strengthening the power of the state and the position of the presidency at its apex and that such control over the media was instrumental to the success of the president's wider systemic changes that have redefined the Russian polity. The book also highlights the ways in which oligarchic media owners in Russia used television for their own political purposes and that media manipulation was not the exclusive preserve of the Kremlin but a common pattern of behaviour in elite struggles in the post-Soviet era. Basing its analysis predominately on interviews with key players in the Moscow media and political elites and on secondary sources drawn from the Russian and Western media, the book examines broad themes that have been the subject of constant media interest and have relevance beyond the confines of Russian politics.

Developments in Russian Politics 5 Stephen White, Alex Pravda, Zvi Y. Gitelman, 2001. Russia has a new parliament and a new president and the shape of its future political life remains uncertain. Taking the elections of 1999 and 2000 as their starting point, the contributors to *Developments in Russian Politics 5* describe the institutional framework of the post-Yeltsin system and examine the policy choices that confront the Putin administration. This completely revised edition includes new discussions of such topics as media and political communication, crime and corruption, and Russia's continuing search for a national idea. Other sections cover elections and electoral procedures, parties and organized interests, as well as economic, social, and foreign policy. Written by leading scholars from both sides of the Atlantic, *Developments in Russian Politics 5* will replace earlier editions as the leading text for students of Russia and for a wider group of readers seeking a reliable and up-to-date introduction to the politics of the world's largest country.

Russia and Ukraine Maria Popova, Oxana Shevel, 2023-11-08. In February 2022, Russian missiles rained on Ukrainian cities and tanks rolled towards Kyiv to end Ukrainian independence. President Zelensky declined a Western evacuation offer, and Ukrainians rallied to defend their country. What are the roots of this war which has upended the international legal order and brought back the spectre of nuclear escalation? How did these supposedly brotherly peoples become each other's worst nightmare? In *Russia and Ukraine: Entangled Histories, Diverging States*, Maria Popova and Oxana Shevel explain how, since 1991, Russia and Ukraine diverged politically, ending up on a collision course. Russia slid back into authoritarianism and imperialism, while Ukraine consolidated a competitive political system and pro-European identity. As Ukraine built a democratic nation-state, Russia refused to accept it and came to see it as an anti-Russia project. After political and economic pressure proved ineffective and even counterproductive, Putin went to war to force Ukraine back into the fold of the Russian world. Ukraine resisted, determined to pursue European integration as a sovereign state. These irreconcilable goals, rather than geopolitical wrangling between Russia and the West over NATO expansion, are the authors' argument, essential to understanding Russia's war on Ukraine.

IBSS Compiled by the British Library of Political and Economic Science, 2001. IBSS is the essential tool for librarians, university departments, research institutions, and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences.

Russia, America and the Islamic World Mike Bowker, 2007-01-01. Mike Bowker examines

the newly emerging relationship between Russia and the United States and their struggle against the common threat of international terrorism He looks at the difficulties of such a relationship by analyzing the lingering mutual suspicion differing views on the nature of the global terrorist threat and how each side has continued to pursue their own national interests

Political, Economic, and Social Factors Affecting the Development of Russian Statehood: Emerging Research and Opportunities Ershov, Bogdan, Muhina, Natalia, Ashmarov, Igor, 2019-07-26 The historical development of Russia remains one of the most unique yet ambiguous timelines in the realm of political science and sociology Understanding the state of culture as a single dynamic and interrelated phenomenon is a vital component regarding the memoirs of this prominent nation Political Economic and Social Factors Affecting the Development of Russian Statehood Emerging Research and Opportunities is a collection of innovative research on the historical aspects of the formation of the political system in Russia and proposes directions for the further development of modern Russian statehood While highlighting topics including socio politics Soviet culture and capitalization this book is ideally designed for economists government officials policymakers historians diplomats intelligence specialists political analysts professors students and professionals seeking current research on the history of public administration in Russia *Russian Federation Legislative Survey, June 1990-December 1993* Ferdinand J.M. Feldbrugge, 2023-07-24 This special issue of the REVIEW OF CENTRAL AND EAST EUROPEAN LAW compiles the material published under the head Russian Federation Legislative Survey in the six 1993 issues of the journal It covers Russian legislation from the date of the Declaration of the State of Sovereignty of the RSFSR 12 June 1990 until the end of 1992 The principal watershed in this period was the disappearance of the USSR This event had far reaching consequences for Russian law because of the two tier character of law in the former Soviet Union USSR law at the top and underneath the subordinate legal systems of the individual union republics including the RSFSR These consequences can still be felt in many areas and it will take considerable time and major efforts to replace all USSR law by new Russian enactments The Institute of East European Law and Russian Studies intends to bring this survey up to date as soon as possible This is of course desirable for the practitioner as well as for the academic user It is felt however that it was imperative to build on a solid foundation even if it meant some delay in the beginning As new official sources of legislation emerge as some already have in 1993 they will be included in the issues of the REVIEW OF CENTRAL AND EAST EUROPEAN LAW The present survey is a reprint of the fourth issue of the REVIEW OF CENTRAL AND EAST EUROPEAN LAW 1994 and is available gratis to subscribers *The Rhetorical Rise and Demise of "Democracy" in Russian Political Discourse, Volume 2* David Cratis Williams, Marilyn J. Young, Michael K. Launer, 2022-05-17 Post Soviet Russia in the 1990s saw a surge in civic participation The traditional power structure officially relinquished control of political rhetoric and a nascent civil society had begun to emerge Free elections and political partisanship between reformist and conservative elements of Russian society spurred on by Russia's economic troubles gave a Wild West tenor to public rhetoric that was reflected in the election campaigns of 1993 1995 and 1996 In this

volume the authors examine through a series of contemporaneously written essays the arc of government rhetoric during the height of media freedom the quest for a new national identity and the struggle for self government *The Republics and Regions of the Russian Federation* Robert W. Orttung, Danielle N. Lussier, Anna Paretskaya, 2000 A presentation of political economic and demographic data on every territorial unit of the Russian Federation its local government structure and electoral history Each entry includes a profile of the president governor or prime minister and an overview of local trends

Politics, Judicial Review, and the Russian Constitutional Court C. Thorson, 2012-02-07 Analysis of why politicians are driven to create an independent judicial institution with the authority to overrule their decisions It focuses on a country with no tradition of independent judicial review Russia History does not support an independent judiciary here yet a potentially powerful constitutional court has existed for 20 years *Russian Politics* Zoltan D. Barany, Robert G. Moser, 2001-08-27 What went wrong in Russia's decade old post communist transition A group of leading young scholars answer this question by offering assessments of five crucial political arenas during the Yeltsin era elections executive legislative relations interactions between the central state and the regions economic reforms and civil military relations All of the contributors recognize that adverse historical legacies have complicated Russian democratization They challenge structural explanations that emphasize constraints of the pre existing system however and concentrate instead on the importance of elite decisions and institution building The authors agree that elites failure to develop robust political institutions has been a central problem of Russia's post communist transition The weakness of the state and its institutions has contributed to a number of serious problems threatening democratic consolidation These include the tensions between the executive and the legislature the frail infrastructure for successful market reform and the absence of proper civilian control over the armed forces **Putin Redux** Richard Sakwa, 2014-05-23 This book builds on the strengths of the previous volumes by the same author to provide the most detailed and nuanced account of the man his politics and his profound influence on Russian politics foreign policy and society However this is not a new edition of the earlier books but is an entirely new work The focus now is on the dilemmas of power since 2008 There is a brief biographical sketch of Vladimir Putin and much analysis of his ideas and policies but the book now focuses on the systemic contradictions that have created a blockage on modernisation and a stalemate in politics Putin's role as Prime Minister since 2008 and his political successes and failures analysis of the implications of Putin's third term as President and the 2011-12 electoral cycle and the ensuing crisis which led to thousands protesting on the streets This work assesses the achievements and failing of Putin's rule but above all tries to make sense of contemporary developments This is the definitive account of Putin and is essential reading for all scholars and students of Russian politics [The Constitution of the Russian Federation](#) Jane Henderson, 2022-08-25 The scholarship is consistently thorough and lucid and absolutely reliable European Public Law As reviews of the first edition attest this book gives a unique critical and contextual insight into the Constitution of one the world's most powerful countries

Its first edition was published in 2011 when Dmitrii Medvedev was Russia's President. Since then there was a regime change in 2012 as Vladimir Putin returned to the presidency and significantly dramatic shifts in constitutionality as Russia pursues a return to traditional values. The book explores the Constitution's evolution over its nearly 30 years existence including the significant amendments of 2020. This second edition situates these important changes in the context of Russia's historical and legal development as Putin continues to dominate the political scene. It also looks at broader constitutional questions on the interrelation between the main State agencies, the role of the courts, human rights and their enforcement.

Advances in Natural, Human-Made, and Coupled Human-Natural Systems Research Svetlana G. Maximova, Roman I. Raikin, Alexander A. Chibilev, Marina M. Silantyeva, 2023-03-16

This book is a collection of cutting edge and cross disciplinary studies on natural, human made and coupled human natural systems addressing the challenge of developing integrated knowledge from multiple disciplines. The authors explore the structure, function and dynamic mechanisms of various systems both natural and human made as well as analyze their reciprocal interactions under the concept of coupled human natural systems. These interactions are used to understand feedback, nonlinearities, thresholds, time lags, legacy effects and path dependencies emerging across multiple spatial, temporal and organizational scales. In other words, this book is a collection of advanced research on unique properties of natural and human made systems as well as human environment dynamics, reciprocal relationships and cross scale interactions. The authors outline prospects on building a holistic view of social development and coherent sustainability. Among the topics covered are the following: human networks, research adaptation of local people to social and environmental challenges, coupled dynamics of socioeconomic and environmental systems, critical issues in social science, climate change research, education for greater sustainability, peace, justice and strong institutions, advances in cultural traditions and strategies for social stability, innovative development and barriers to sustainable development, economic systems in the age of digital changes and unstable external environments. The scholars analyze how more effective technologies can enhance resilience, reduce vulnerability and minimize human impacts on natural systems, taking into consideration critical thresholds to prevent harmful feedback to human systems. The authors grasp the complexity of systems by integrating knowledge of constituent subsystems and their interactions. The framework developed by the authors is used to integrate human and natural systems for achieving greater sustainability, covering critical threats, challenges and best governance approaches and practices. The research results obtained from studies on coupled human natural systems are stronger, the authors argue, if compared with traditional discipline approaches.
