Klots,2023-05-15 Tamizdat offers a new perspective on the history of the Cold War by exploring the story of the contraband manuscripts sent from the USSR to the West A word that means publishing over there tamizdat manuscripts were rejected censored or never submitted for publication in the Soviet Union and were smuggled through various channels and printed outside the country with or without their authors knowledge Yasha Klots demonstrates how tamizdat contributed to the formation of the twentieth century Russian literary canon the majority of contemporary Russian classics first appeared abroad long before they saw publication in Russia Examining narratives of Stalinism and the Gulag Klots focuses on contraband manuscripts in the 1960s and 70s from Khrushchev's Thaw to Stagnation under Brezhnev Klots revisits the traditional notion of late Soviet culture as a binary opposition between the underground and official state publishing He shows that even as tamizdat represented an alternative field of cultural production in opposition to the Soviet regime and the dogma of Socialist Realism it was not devoid of its own hierarchy ideological agenda and even censorship Tamizdat is a cultural history of Russian literature outside the Iron Curtain The Russian literary diaspora was the indispensable ecosystem for these works Yet in the post Stalin years they also served as a powerful weapon on the cultural fronts of the Cold War laying bare the geographical stylistic and ideological rifts between two disparate yet inextricably intertwined fields of Russian literature one at home the other abroad Open Access edition funded by the National Endowment for the Humanities

theatre in post WW2 Britain why in British minds is Russia viewed almost as a run of the mill production of a Chekhov play Is it because Chekhov is so dominant in British theatre culture What about all those other Russian writers Many of them are very different from Chekhov A key question was formulated thanks to a review by Susannah Clapp of Turgenev's *A Month in the Country* have the British staged a Russia of the theatrical mind

Mandelstam Brown,1973-10-26 Osip Mandelstam who died in 1938 in one of Stalin's labour camps is one of the greatest poets of this century Brown's 1978 volume is a very full and important book which tells of Mandelstam's earlier life and gives an introduction to the poetry Professor Brown tells as much as will probably ever be known about Mandelstam's early life his studies his literary relationships and recreates in piquant detail the intellectual world of prerevolutionary St Petersburg Indeed the criticism of Mandelstam's three collections of poetry quoted both in Russian and in translation manages the seemingly impossible the reader with no Russian begins to grasp as though at first hand how this poetry makes its effects and he senses its originality and importance and its place in European literature Professor Brown here presents the first critical study of the life and works **Problems of Communism**,1972 **University of Michigan Official Publication** ,1964

Global Russian Cultures Kevin M. F. Platt,2019-01-15 Is there an essential Russian identity What happens when Russian literature is written in English by such authors as Gary Shteyngart or Lara Vapnyar What is the geographic home of Russian culture created and shared via the internet Global Russian Cultures innovatively considers these and many related questions about the literary and cultural life of Russians who in successive waves of migration have dispersed to the United States Europe and Israel or who remained after the collapse of the USSR in Ukraine the Baltic states and the Central Asian states The volume's internationally renowned contributors treat the many different global Russian cultures not as displaced elements of Russian cultural life but rather as independent entities in their own right They describe diverse forms of literature music film and everyday life that transcend and defy political geographic and even linguistic borders Arguing that Russian cultures today are many this volume contends that no state or society can lay claim to be the single or authentic representative of Russianness In so doing it contests the conceptions of culture and identity at the

root of nation building projects in and around Russia Recording Russia Gabriella Safran, 2022-11-15 Recording Russia examines scenes of listening to the people across a variety of texts by Russian writers and European travelers to Russia Gabriella Safran challenges readings of these works that essentialize Russia as a singular place where communication between the classes is consistently fraught arguing instead that as in the West the sense of separation or connection between intellectuals and those they interviewed or observed is as much about technology and performance as politics and emotions Nineteenth century writers belonged to a distinctive media generation using new communication technologies not bells but mechanically produced paper cataloguing systems telegraphy and stenography Russian writers and European observers of Russia in this era described themselves and their characters as trying hard to listen to and record the laboring and emerging middle classes They depicted scenes of listening as contests where one listener bests another at times the contest is between two sides of the same person They sometimes described Russia as an ideal testing ground for listening because of its extreme cold and silence As the mid century generation witnessed the social changes of the 1860s and 1870s their listening scenes revealed increasing skepticism about the idea that anyone could accurately identify or record the unadulterated voice of the people Bringing together intellectual history and literary analysis and drawing on ideas from linguistic anthropology and sound and media studies Recording Russia looks at how writers folklorists and linguists such as Turgenev Dostoevsky and Vladimir Dahl as well as foreign visitors thought about the possibilities and meanings of listening to and repeating other people's words **The Slavonic and East European Review**, 1928 Includes section Reviews Publishing in Tsarist Russia Yukiko Tatsumi, Taro Tsurumi, 2020-02-20 According to Benedict Anderson the rapid expansion of print media during the late 1700s popularised national history and standardised national languages thus helping create nation states and national identities at the expense of the old empires Publishing in Tsarist Russia challenges this theory and by examining the history of Russian publishing through a transnational lens reveals how the popular press played an important and complex Imperial role while providing a soft infrastructure which the subjects could access to change Imperial order As this volume convincingly argues this is because the Russian language at this time was a lingua franca it crossed borders and boundaries reaching speakers of varying nationalities Russian publications then were able to effectively operate within the structure of Imperialism but as a public space they went beyond the control of the Tsar and ethnic Russians This exciting international team of scholars provide a much needed fresh take on the history of Russian publishing and contribute significantly to our understanding of print media language and empire from the 18th to 20th centuries Publishing in Tsarist Russia is therefore a vital resource for scholars of Russian history comparative nationalism and publishing studies
