## **Russias War A History Of The Soviet War Effort 1941 1945:**

*Russia's War* R. J. Overy, 1998 Presents an account of the greatest military encounter in human history This title describes the events of 1941-45 in which the Soviet Union after initial catastrophes destroyed Hitler's Third Reich and shaped European history for the next half Century **Russia's War** Richard Overy, 1998-08-01 A penetrating and compassionate book on the most gigantic military struggle in world history The New York Times Book Review An extraordinary tale Overy's engrossing book provides extensive details of the slaughter brutality bitterness and destruction on the massive front from the White Sea to the flank of Asia Chicago Tribune The Russian war effort to defeat invading Axis powers an effort that assembled the largest military force in recorded history and that cost the lives of more than 25 million Soviet soldiers and civilians was the decisive factor for securing an Allied victory Now with access to the wealth of film archives and interview material from Russia used to produce the ten hour television documentary *Russia's War* Richard Overy tackles the many persuasive questions surrounding this conflict Was Stalin a military genius Was the defense of Mother Russia a product of something greater than numbers of tanks and planes of something deep within the Russian soul

Normandy Olivier Wieviorka, 2008 The Allied landings on the coast of Normandy have assumed legendary status But overly romanticizing D day Wieviorka argues loses sight of the full picture Normandy offers a balanced complete account that reveals the successes and weaknesses of the titanic enterprise **Fragile Migration Rights** Matthew Light, 2016-03-10 The Soviet Union comprehensively governed the mobility of its citizens by barring emigration and strictly regulating internal migration In the aftermath of the Soviet collapse the constitution and laws of the new Russian Federation appeared to herald a complete break with the repressiveness of the previous government Russian law now proclaims the right of Russian citizens and residents to move around their country freely This book examines how and why this post Soviet legal promise of internal freedom of movement has been undermined in practice by both federal and regional policies It thereby adds a new dimension to scholarly understanding of the nature of rights citizenship and law enforcement in contemporary Russia Most contemporary works focus on the attempts of developed Northern countries to regulate migration from the global South to the global North here Matthew Light examines the restriction of migration within Soviet and post Soviet Russia providing a comprehensive view into an area rarely explored within migration scholarship *Fragile Migration Rights* develops a comprehensive theoretical framework to analyse this complex subject It is essential reading for students and academics from a range of disciplines including criminology human rights migration studies and political science

**Cigarettes and Soviets** Tricia Starks, 2022-11-15 Winner of the Southern Conference on Slavic Studies Book Award Enriched by color reproductions of tobacco advertisements packs and anti smoking propaganda *Cigarettes and Soviets* provides a comprehensive study of the Soviet tobacco habit Tricia Starks examines how the Soviets maintained the first mass smoking society in the world while simultaneously fighting it The book is at once a study of Soviet tobacco deeply enmeshed

in its social political and cultural context and an exploration of the global experience of the tobacco epidemic Starks examines the Soviet antipathy to tobacco yet capitulation to market the development of innovative cessation techniques and clinics and the late entry into global anti tobacco work the seeming lack of cultural stimuli alongside massive use and the expansion of smoking without the conventional prompts of capitalist markets She tells the story of Philip Morris s Mission to Moscow campaign for the Soviet market the triumph of the quintessential capitalist product the cigarette in a communist system and the successes and failures of the world s first national antismoking campaign The interplay of male habits and health against largely female tobacco producers and medical professionals adds a gendered dimension Smoking developed continued and grew in the Soviet Union without mass production intensive advertising seductive industrial design or product ubiquity The Soviets were early to condemn tobacco and yet by the end of the twentieth century Russians smoked more heavily than most most other nations in the world Cigarettes and Soviets challenges interpretations of how tobacco use rose in the past and what leads to mass use today     The Mediterranean Air War Robert S. Ehlers, Jr.,2015-03-27 Without what the Allies learned in the Mediterranean air war in 1942 1944 the Normandy landings and so perhaps the Second World War II would have ended differently This is one of many lessons of The Mediterranean Air War the first one volume history of the vital role of airpower during the three year struggle for control of the Mediterranean Basin in World War II and of its significance for the Allied successes in the war s last two years Airpower historian Robert S Ehlers opens his account with an assessment of the pre war Mediterranean theater highlighting the ways in which the players strategic choices strengths and shortcomings set the stage for and ultimately shaped the air campaigns over the Middle Sea Beginning with the Italian invasion of Abyssinia Ehlers reprises the developing international crisis initially between Britain and Italy and finally encompassing France Germany the US other members of the British Commonwealth and the Balkan countries He then explores the Mediterranean air war in detail with close attention to turning points joint and combined operations and the campaign s contribution to the larger Allied effort In particular his analysis shows how and why the success of Allied airpower in the Mediterranean laid the groundwork for combined arms victories in the Middle East the Indian Ocean area North Africa and the Atlantic northwest Europe Of grand strategic importance from the days of Ancient Rome to the Great Power rivalries of the eighteenth and nineteenth centuries the Middle Sea was no less crucial to the Allied forces and their foes Here in the successful offensives in North Africa in 1942 and 1943 the US and the British learned to conduct a coalition air and combined arms war Here in Sicily and Italy in 1943 and 1944 the Allies mastered the logistics of providing air support for huge naval landings and opened a vital second aerial front against the Third Reich bombing critical oil and transportation targets with great effectiveness The first full examination of the Mediterranean theater in these critical roles as a strategic and tactical testing ground for the Allies and as a vital theater of operations in its own right The Mediterranean Air War fills in a long missing but vital dimension of the history of World War II     **On Absolute War** Eric

Fleury,2019-01-15 Nearly two decades after the declaration of a War on Terror the precise relationship between warfare and terrorism remains unclear The United States and its allies have long sought to inflict a decisive defeat upon groups such as Al Qaeda and ISIS while regarding their individual members as malevolent criminals undeserving of combatant status A clearer understanding of how terrorists define victory and how their method of fighting relates to conventional military forces is necessary in order to devise more realistic and effective strategies of counterterrorism On Absolute War constructs a theoretical framework for the study of terrorism based on Carl von Clausewitz s On War widely regarded as the greatest analysis of war ever written Through a review of Clausewitz s work and a set of historical case studies ranging from the Fenian Dynamite Campaign of the 1880s to the wars in Iraq and Afghanistan Prof Fleury reveals just how closely terrorism mimics the logic of war Terrorism attempts to restore war to its theoretical baseline a condition that Clausewitz called absolute war featuring relentless escalation toward a climactic result While never achieving this ideal in practice terrorists succeed to the extent that they compel their enemies and their prospective followers to engage mutual escalation which will ultimately favor whichever side is better able to jettison logistical and normative limits Consequently states must engage terrorists on the basis of Clausewitz s two most important injunctions namely that war is temporary and subordinate to political controls Given the very real prospect of a war without any temporal and spatial limits On Absolute War provides the theoretical basis for a strategy of limiting the effects of terrorism rather than repeatedly trying and failing to destroy it

**The Nazi Conspiracy** Brad Meltzer,Josh Mensch,2023-08-03 A major international bestseller The little known true story of a Nazi plot to kill Winston Churchill President Franklin Roosevelt and Joseph Stalin at the height of World War II and how it was averted In 1943 only three men stood in Hitler s way Churchill Roosevelt and Stalin As the war against Nazi Germany raged the Allied leaders desperately needed to meet face to face and discuss their strategy Facing extreme danger they travelled to Tehran to meet in secret Yet when the Nazis found out about the meeting their own covert plan took shape an assassination plot A true story filled with daring rescues body doubles and political intrigue The Nazi Conspiracy details this pivotal meeting of the Big Three and the deadly Nazi scheme that could ve changed history In page turning detail it shows the greatest political minds of the twentieth century at work and reveals how they strategized to defeat the enemy all whilst coming close to world shattering disaster

**Russia at War** Timothy C. Dowling,2014-12-02 This easy to use reference explores the people and events that shaped Russian military history and impacted Europe Asia and the world over the past eight centuries Russian military history is an often overlooked field Yet Russia is and has long been an important player in global politics and its military exploits have been central to its role on the world stage This study of Russia s military past provides insights into European and U S history including the conduct of the two World Wars and the Cold War and will help readers better appreciate the current geopolitical situation This work covers major events and figures in Russian military history from the end of Mongol domination in the 14th century to the present day More than 650 entries by scores of expert

contributors detail events individuals organizations and ideas that have influenced Russian warfare over 800 years Two alphabetically arranged volumes explore such conflicts as the Russo Polish Wars the Great Northern War the Russo Turkish Wars the Napoleonic Wars the Crimean War the Russo Japanese War World War I World War II and the Cold War including the Soviet invasion of Afghanistan Cross references and further readings in each entry serve as jumping off points for further exploration

From Incarceration to Repatriation Susan C. I. Grunewald, 2024-07-15 From Incarceration to Repatriation explores the lives and memories of the nearly 1.5 million German POWs who were held by the Soviet Union during and after World War II and released in phases through 1956 seven years longer than the prisoners of any other Allied nation Susan C. I. Grunewald argues that Soviet leadership deliberately kept able bodied German POWs to supplement their labor force after the end of the war The Soviet Union lost 27 million citizens and a quarter of its physical assets during the war motivating Soviet leadership to harness the labor of German POWs for as long as possible Engaging with recently declassified documents in former Soviet archives archival material from multiple German governments as well as innovative use of digital humanities methods and geographic information system GIS mapping Grunewald demonstrates that Soviet authorities detained German POWs primarily for economic rather than punitive reasons In fact the GIS mapping of the historical materials makes it clear that most of the four thousand POW camps across the USSR were strategically located near industrial infrastructure and natural resource sites that were critical to postwar economic reconstruction From Incarceration to Repatriation is the first book to draw together the distinct fields of Soviet and German history to provide a more nuanced and comprehensive understanding of German POW captivity in the USSR during and after World War II Attending to the ways that the memory of German POWs remains in circulation in both the former Soviet Union and Germany Grunewald tracks the political repercussions of war commemoration

**World War II** Spencer C. source volume provides essential source material for homework test preparation or special projects With a wealth of new information and new ideas about the war s causes course and consequences World War II will be the first place students turn for the who what when where and more importantly the why behind this historic conflict **Massacres and Morality** Alex J. Bellamy,2012-09-27 Most cultural and legal codes agree that the intentional killing of civilians whether in peacetime or war is prohibited This is the norm of civilian immunity widely considered to be a fundamental moral and legal principle Yet despite this fact the deliberate killing of large numbers of civilians remains a persistent feature of global political life What is more the perpetrators have often avoided criticism and punishment Examining dozens of episodes of mass killing perpetrated by states since the French Revolution late eighteenth century this book attempts to explain this paradox It studies the role that civilian immunity has played in shaping the behaviour of perpetrators and how international society has responded to mass killing The book argues that although the world has made impressive progress in legislating against the intentional killing of civilians and in constructing institutions to give meaning to that prohibition the norm s history in practice suggests that the ascendancy of civilian immunity is both more recent and more fragile than might otherwise be thought In practice decisions to violate a norm are shaped by factors relating to the norm and the situation at hand so too is the manner in which international society and individual states respond to norm violations Responses to norm violations are not simply matters of normative obligation or calculations of self interest but are instead guided by a combination of these logics as well as perceptions about the situation at hand existing relations with the actors involved and power relations between actors holding different accounts of the situation Thus whilst civilian immunity has for the time being prevailed over anti civilian ideologies which seek to justify mass killing it remains challenged by these ideologies and its implementation shaped by individual circumstances As a result whilst it has become much more difficult for states to get away with mass murder it is still not entirely impossible for them to do so **The Literature of Absolute War** Nil Santiáñez,Nil

Santiáñez-Tió,2020-05-28 This is the first comparative transnational approach to the language of absolute war and the literature on World War II **The Wars for Asia, 1911-1949** S. C. M. Paine,2014-10-09 The Wars for Asia 1911 1949 shows that the Western treatment of World War II the Second Sino Japanese War and the Chinese Civil War as separate events misrepresents their overlapping connections and causes The Chinese Civil War precipitated a long regional war between China and Japan that went global in 1941 when the Chinese found themselves fighting a civil war within a regional war within an overarching global war The global war that consumed Western attentions resulted from Japan s peripheral strategy to cut foreign aid to China by attacking Pearl Harbour and Western interests throughout the Pacific in 1941 S C M Paine emphasizes the fears and ambitions of Japan China and Russia and the pivotal decisions that set them on a collision course in the 1920s and 1930s The resulting wars together yielded a viscerally anti Japanese and unified Communist China the still angry rising power of the early twenty first century **Life and Times of Andrei Zhdanov, 1896-1948** Kees

Boterbloem,2004-03-01 In 1934 Andrei Zhdanov was promoted to the post of secretary of the Communist Party's Central Committee in Moscow and entered the inner circle of Stalin's partners. Notable for his involvement in implementing the artificial crisis of the Great Terror in Moscow and Leningrad, Zhdanov was later involved in the preparation and signing of the Molotov-Ribbentrop Pact and acted as Stalin's Party emissary in the Winter War and the sovietization of Estonia. Boterbloem details how Zhdanov's career was put in jeopardy in the summer of 1941 when German troops almost captured Leningrad. Stalin kept Zhdanov at the Leningrad front for much of the Second World War because of his alleged failure to halt the initial German advance where he presided over the terrible suffering of the besieged city's population. In 1945 Zhdanov's ideological commitment led to his recall to the centre of Soviet power where more publicly visible than ever before he berated Soviet artists, scientists, philosophers, composers and foreign Communist Parties for failing to adhere to the Party line. Never in good health, the stress of being Stalin's main assistant in both the massive bureaucracy of the Communist Party and the attempt to restore ideological orthodoxy combined with anxiety about his son Iurii led to his death in 1948. *Final*

*Solutions* Benjamin A. Valentino,2013-01-14 Benjamin A. Valentino finds that ethnic hatreds or discrimination, undemocratic systems of government and dysfunctions in society play a much smaller role in mass killing and genocide than is commonly assumed. He shows that the impetus for mass killing usually originates from a relatively small group of powerful leaders and is often carried out without the active support of broader society. Mass killing, in his view, is a brutal political or military strategy designed to accomplish leaders' most important objectives: counter threats to their power and solve their most difficult problems. In order to capture the full scope of mass killing during the twentieth century, Valentino does not limit his analysis to violence directed against ethnic groups or to the attempt to destroy victim groups as such as do most previous studies of genocide. Rather, he defines mass killing broadly as the intentional killing of a massive number of noncombatants using the criteria of 50,000 or more deaths within five years as a quantitative standard. *Final Solutions* focuses on three types of mass killing: communist mass killings like the ones carried out in the Soviet Union, China and Cambodia; ethnic genocides as in Armenia, Nazi Germany and Rwanda; and counter guerrilla campaigns including the brutal civil war in Guatemala and the Soviet occupation of Afghanistan. Valentino closes the book by arguing that attempts to prevent mass killing should focus on disarming and removing from power the leaders and small groups responsible for instigating and organizing the killing.

**Russian War Films** Denise Jeanne Youngblood,2007 A panoramic survey of nearly a century of Russian films on wars and wartime from World War I to more recent conflicts in Afghanistan and Chechnya with heavy emphasis on films pertaining to World War II. **Global Perspectives on Death in Children's Literature** Lesley D. Clement, Leyli Jamali,2015-07-30 This volume visits death in children's literature from around the world, making a substantial contribution to the dialogue between the expanding fields of Childhood Studies, Children's Literature and Death Studies. Considering both textual and pictorial representations of death, contributors focus on the topic of death in children's literature as a physical reality, a

philosophical concept a psychologically challenging adjustment and or a social construct Essays covering literature from the US Mexico El Salvador Guatemala Canada the UK Sweden Germany Poland Bulgaria Brazil Czechoslovakia the Soviet Union India and Iran display a diverse range of theoretical and cultural perspectives Carefully organized sections interrogate how classic texts have been adapted for the twenty first century how death has been politicized ritualized or metaphorized and visual strategies for representing death and how death has been represented within the context of play Asking how different cultures present the concept of death to children this volume is the first to bring together a global range of perspective on death in children s literature and will be a valuable contribution to an array of disciplines *Beyond Totalitarianism* Michael Geyer, Sheila Fitzpatrick, 2009 These essays rethink the nature of Stalinism and Nazism and establish a new methodology for viewing their histories that goes well beyond outdated twentieth century models of totalitarianism ideology and personality They offer a new understanding of the intertwined trajectories of socialism and nationalism in European and global history

**The Specter of Genocide** Robert Gellately, Ben Kiernan, 2003-07-07 Genocide mass murder and human rights abuses are arguably the most perplexing and deeply troubling aspects of recent world history This collection of essays by leading international experts offers an up to date comprehensive history and analyses of multiple cases of genocide and genocidal acts with a focus on the twentieth century The book contains studies of the Armenian genocide the victims of Stalinist terror the Holocaust and Imperial Japan Several authors explore colonialism and address the fate of the indigenous peoples in Africa North America and Australia As well there is extensive coverage of the post 1945 period including the atrocities in the former Yugoslavia Bali Cambodia Ethiopia Rwanda East Timor and Guatemala The book emphasizes the importance of comparative analysis and theoretical discussion and it raises new questions about the difficult challenges for modernity constituted by genocide and other mass crimes
