Annual Meeting Kōbunshi Gakkai (Japan), Kōbunshi Gakkai (Japan), 1991 *Disordered Attention* Claire Bishop, 2024-06-11 How technology and the politics of attention changed the way we look at art The ways we encounter contemporary art and performance has changed How are we expected to engage with today's diverse practice Is the old model of close looking still the ideal or has it given way to browsing skimming and sampling Across four provocative and insightful essays art historian and critic Claire Bishop identifies trends in contemporary practice Charting a critical path through the last three decades Bishop pinpoints how spectatorship and visual literacy are evolving under the pressures of digital technology She explores how researched based exhibitions have proliferated turning the artist into an investigator or archivist with mixed results Spatial performance can now involve the artist dancers or even the audience as participants often framed with Instagram in mind The political event is no longer activated without an understanding of the media that will record and distribute it The proliferation of works that use modernist architecture is noticeable but has this become a shorthand for something else *Disordered Attention* is a vital survey of 21st century art from one of the leading art thinkers of our times **Polymer Preprints, Japan**, 1991 **Index of Patents Issued from the United States Patent and Trademark Office**, 1993 Tsunami Edward Bryant, 2014-06-11 It is a comprehensive and well illustrated textbook on all aspects of tsunami I don't think there is any other book on the topic published As one bookseller said after the Indian Ocean tsunami event I would have just filled my front window with copies and they would have walked out the store This statement was just as relevant after the Japanese tsunami of 2011 and will be as relevant when the next large tsunami event happens sooner rather than later The book can be used by a student or layperson to gain encyclopedic knowledge about tsunami **Cyberpunk in a Transnational Context** Takayuki Tatsumi, 2019-08-20 Mike Mosher's *Some Aspects of Californian Cyberpunk* vividly reminds us of the influence of West Coast counterculture on cyberpunks with special emphasis on 1960s theoretical gurus such as Timothy Leary and Marshall

Aesthetics in Present Future The Arts and the Technological Horizon is a collection of essays by scholars and a few artists who focus on the issue of how arts either change when conveyed by new media such as the web 3D printers and videos or are simply diffused by them The contributors analyses describe how both virtual production and virtual communication change our attitudes toward what we call the arts The scope of the topics ranges from photography to cinema and painting from theater to avant garde art and Net art and from construction of robots to simulation of brain functions The result is an astonishing range of new possibilities and risks for the arts and new perspectives regarding our knowledge of the world

A Critical History of Contemporary Architecture Asst Prof David Rifkind, Dr Elie G Haddad, 2014-03-28 This book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 The first section provides a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often

skirts the discussion of its formal aspects
