The War on Women in the United States Joel T. Nadler, Meghan R. Lowery Ph.D., 2018-02-08 The book examines gender roles gender inequity and the impacts of both unintentional and purposeful efforts to undermine women's equal treatment in the United States documenting what women have faced in the past and still face in America today Although women's rights is a worldwide issue this book examines how in the United States an alleged war on women is still occurring Are there only forces opposing women's equality that aim to subvert women's advancement or are defensive strategies employed as well What has been the offensive response from women and supportive groups of women Is there actually substantial evidence of a war on women or is the idea primarily political rhetoric Are the actions and behaviors contributing to gender inequality intentional or unintentional In this unique collection experts from multiple disciplines analyze the U S women's rights movement developments progress and obstacles The chapters extend the analogy of this fight for equal rights with a war to document how women's struggle for gender equality is simultaneously a health issue a political issue and a wider issue of social justice a formidable challenge in which women's lives are sometimes literally at stake and at risk The book's contributors and editors take the unique angle of eyeing the fight for equality on the same level as a war analyzing this war on historical social cultural levels the battlefield identifying policy political and legal issues major battles and explaining how to best fight on personal or individual levels skirmishes The coverage includes current federal and state initiatives that have fueled concern that women's rights are under continued assault All of the nearly 162 million women in the United States and their family members regardless of sex are affected by the issues addressed in this book Informal STEM Learning at Home and in Community Spaces Bradley Morris, Brenna Hassinger-Das, Rachael Todaro, Jennifer DeWitt, 2024-03-22 Children in Western countries spend only about 20% of their waking time in school Meltzoff et al 2009 Leveraging the 80% of time that they spend outside of school can provide children with opportunities to engage in meaningful authentic STEM learning experiences with family members other caregivers and children STEM learning and readiness go beyond acquiring content knowledge to include interest engagement and motivation for STEM learning as well as the formation of a STEM identity To date there has been a dearth of research focusing on children's informal STEM experiences when compared to formal school based STEM learning experiences This Research Topic focuses attention on the authentic everyday experiences of children and how these experiences provide opportunities for STEM learning engagement and identity In addition these papers will explore how these everyday experiences can be leveraged and augmented to promote STEM learning and engagement through culturally relevant design and implementation **Ulrich's Periodicals Directory**, 1990 The Mathematics Teacher, 1951 *Systems Literacy* Gary S. Metcalf, Peter Tuddenham, Gerhard Chroust, Mary C. Edson, 2017-02-22 Conversations were introduced by Bela H Banathy around 1980 as an alternative to the classical conferences which usually consist only of presentation of streamlined papers and short question slots In a Conversation a small group of systems scientists and practitioners meets for several days to discuss in a self guided way a

topic of scientific and social importance The overarching theme for the IFSR Conversation 2016 was Systems Literacy It aims at developing systemic principles or big ideas as orienting guidelines for application of systems science in across disciplines and provide for appropriate dissemination and world wide acceptance Systems Literacy could be defined as understanding your model or models of Systems how it is the same and different from others models of Systems and how our individual and collective actions influence Systems behaviors and how Systems behaviors influence us An agreed definition will be an outcome of the Systems Literacy Initiative process The Systems Literacy Initiative is a process of an ongoing international coordinated effort to create a greater awareness and understanding about Systems and to develop a comprehensive set of big ideas supporting concepts and learning progressions that have broad agreement As team leaders developed their topics with their teams they kept a focal theme of Systems Literacy in mind The intention was that participants in the Conversation integrate the work of the teams into a body of knowledge to be developed into modes for educating those new to systems thinking the systems sciences and systems research as a coordinated and coherent whole system initiative to define and achieve Systems Literacy 24 practitioners from twelve countries took part in this five day cooperative effort Three teams approached Systems Literature from different viewpoints Team 1 Application of Boulding s Skeleton of Science to Inform Transdisciplinarity Team 2 Unity in Diversity Making the Implicit Explicit and Team 3 Exploring the Relationship of Systems Research to Systems Literacy The outcome of this Conversation while at a high conceptual level also supports and encourages further practical applications through individual member activities The outcome of the conversation is summarized in three overview papers and six team reports A short description of the IFSR s activities completes the proceedings
