Theological Dictionary of the Old Testament G. Johannes Botterweck, Helmer Ringgren, Heinz-Josef Fabry, 1974 Analyzes the meaning of Hebrew terms used in the Old Testament considering their occurrences in ancient Near Eastern texts *The Places Where Men Pray Together* Paul Wheatley, 2001 What makes a city an economic political and cultural center In *The Places Where Men Pray Together* Paul Wheatley draws on two decades of astonishingly wide ranging research to demonstrate that Islamic cities are defined by function rather than form by what they do rather than what they are Focusing on the roles of cities during the first four centuries of Islamic expansion Wheatley explores interconnected cultural historical economic political and religious factors to provide the clearest and most extensively documented portrait of early Islamic urban centers available to date Building on the tenth century geographer al Maqdisi's writings on urban centers of the Islamic world buttressed by extensive comparative material from roadbooks topographies histories adab literatures and gazetteers of the time Wheatley identifies the main functions of different Islamic urban centers Chapters on each of the thirteen centers that al Maqdisi identified ranging from the Atlantic to the Indus and from the Caspian to the Sudan form the heart of this book In each case Wheatley shows how specific agglomeration and accessibility factors combined to make every city functionally distinct as a creator of effective space He also demonstrates that far from revolutionizing every aspect of life in these cities the adoption of Islam often affected the development of these cities less than previously existing local traditions *The Places Where Men Pray Together* is a monumental work that will speak to scholars and readers across a broad

The Arabs in Antiquity Jan Retso, 2013-07-04 The history of the Arabs in antiquity from their earliest appearance around 853 BC until the first century of Islam is described in this book It traces the mention of people called Arabs in all relevant ancient sources and suggests a new interpretation of their history It is suggested that the ancient Arabs were more a religious community than an ethnic group which would explain why the designation Arab could be easily adopted by the early Muslim tribes The Arabs of antiquity thus resemble the early Islamic Arabs more than is usually assumed both being united by common bonds of religious ideology and law

Mecca and Eden Brannon Wheeler, 2006-07 Nineteenth century philologist and Biblical critic William Robertson Smith famously concluded that the sacred status of holy places derives not from their intrinsic nature but from their social character Building upon this insight Mecca and Eden uses Islamic exegetical and legal texts to analyze the rituals and objects associated with the sanctuary at Mecca Integrating Islamic examples into the comparative study of religion Brannon Wheeler shows how the treatment of rituals relics and territory is related to the more general mythological depiction of the origins of Islamic civilization Along the way Wheeler considers the contrast between Mecca and Eden in Muslim rituals the dispersal and collection of relics of the prophet Muhammad their relationship to the sanctuary at Mecca and long tombs associated with the gigantic size of certain

Animal Sacrifice and the Origins of Islam Brannon Wheeler, 2022-06-23 Islam is the only biblical religion that still practices animal sacrifice Indeed every year more than a million animals are shipped to Mecca from all over the world to be slaughtered during the Muslim Hajj This multi disciplinary volume is the first to examine the physical foundations of this practice and the significance of the ritual Brannon Wheeler uses both textual analysis and various types of material evidence to gain insight into the role of animal sacrifice in Islam He provides a thick description of the elaborate camel sacrifice performed by Muhammad which serves as the model for future Hajj sacrifices Wheeler integrates biblical and classical Arabic sources with evidence from zooarchaeology and the rock art of ancient Arabia to gain insight into an event that reportedly occurred 1400 years ago His book encourages a more nuanced and expansive conception of sacrifice in the history of religion
