Sacajawea Co:

Sacajawea's People John W. W. Mann, 2004-12-01 On October 20 2001 a crowd gathered just east of Salmon Idaho to dedicate the site of the Sacajawea Interpretive Cultural and Education Center in preparation for the Lewis and Clark Bicentennial In a bitter instance of irony the American Indian peoples conducting the ceremony dedicating the land to the tribe the city of Salmon and the nation the Lemhi Shoshones Sacajawea's own people had been removed from their homeland nearly a hundred years earlier and had yet to regain official federal recognition as a tribe John W W Mann's book at long last tells the remarkable and inspiring story of the Lemhi Shoshones from their distant beginning to their present struggles Mann offers an absorbing and richly detailed look at the life of Sacajawea's people before their first contact with non Natives their encounter with the Lewis and Clark Expedition in the early nineteenth century and their subsequent confinement to a reservation in northern Idaho near the town of Salmon He follows the Lemhis from the liquidation of their reservation in 1907 to their forced union with the Shoshone Bannock tribes of the Fort Hall Reservation to the south He describes how for the past century surrounded by more populous and powerful Native tribes the Lemhis have fought to preserve their political economic and cultural integrity His compelling and informative account should help to bring Sacajawea's people out of the long shadow of history and restore them to their rightful place in the American story **The Pacific Reporter**, 1927

Linked Histories Wendy Faith, Pamela McCallum, 2005 The essays collected from the journal *ARIEL* A Review of International English Studies in *Linked Histories* take up some of the most pressing issues in postcolonial debates the challenges which new theories of globalization present for postcolonial studies the difficulties of rethinking how marginality might be defined in a new globalized world the problems of imagining social transformation within globalization The editors goal in bringing together this collection of articles is not to provide any definitive statement on these urgent questions rather it is to assemble a group of essays which think through the issues and which therefore has the potential to move the discipline forward *Decisions Rendered* United States Board on Geographic Names, *Decision List* United States Board on Geographic Names, 1938 *Report* United States Congress Senate, *Lead and Zinc News*, 1904 **Cases**

A History of the Lewis and Clark Journals Paul Russell Cutright, 2000-04-01 When President Thomas Jefferson dispatched Captains Meriwether Lewis and William Clark on their great exploratory expedition of the lands west of the Mississippi the journey was destined to become the most famous and significant American land expedition in history Jefferson must have realized the timeless importance of the mission for he urged the captains to keep multiple records of all they saw and experienced during the journey Those records dutifully kept from the departure of the expedition in 1803 to its

conclusion in 1806 provided invaluable information about the wonders of the American West In the next 150 years the journals were published in several versions scrupulously authentic dubiously revised and complacently counterfeit This book is the first comprehensive account of the various versions and of the persons responsible for them It tells of the dedicated scholarship inspired judgment and exciting discovery of new materials as well as the misguided enthusiasm and journalistic skulduggery that marred the publishing history of the journals field notes and letters of members of the expedition The author breaks new ground in his use of previously unpublished letters written by the editors of the two major editions An appendix introduces a recently discovered manuscript version of the journal kept by one of the expedition members The book also includes an appraisal of books and articles written about the expedition and a resume of the illustrative materials sketches and maps that enriched the accounts A History of the Lewis and Clark Journals is thus itself a significant expedition into a historic period in America s past **Holstein-Friesian Herd-book** Holstein-Friesian Association of America,1913

Ordinary Women, Extraordinary Lives Kriste Lindenmeyer,2000-06 This collection of seventeen minibiographies sheds light on the often neglected herstory of U S history from the revolutionary era through the late twentieth century In addition this volume suggests the complexity of studying the past when gender race class region age and ethnicity are included in the analysis This book is unique in that it focuses on the lives of ordinary women The names of the vast majority of those whose stories are included here will likely be unfamiliar even to serious students of American women s history The varied experiences of such women help to create a more complete picture of the past by revealing the influence general historical trends have had on the lives of ordinary individuals But ordinary does not mean lesser nor does it denote class race ethnicity or age The individual women s stories that are told in the following pages show that even people who are not featured in mainstream history texts led lives that deserve the attention of those interested in understanding the past The authors of these chapters have found support for generalizations commonly held by American women s historians Nonetheless their research has also led to unexpected findings that ask students of women s history to examine assumptions about the past more closely **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986** ,1987
