## **Sacha Runa Ethnicity And Adaptation Of Ecuadorian Jungle Quichua:**

*Sacha Runa* Norman E. Whitten, 1976      *Sacha Runa* Norman E. Whitten, Marcelo F. Naranjo, 1976      *Weaving the Past* Susan Kellogg, 2005-09-02 Weaving the Past offers a comprehensive and interdisciplinary history of Latin America's indigenous women. While the book concentrates on native women in Mesoamerica and the Andes, it covers indigenous people in other parts of South and Central America, including lowland peoples in and beyond Brazil and Afro-indigenous peoples such as the Garifuna of Central America. Drawing on primary and secondary sources, it argues that change, not continuity, has been the norm for indigenous peoples whose resilience in the face of complex and long-term patterns of cultural change is due in no small part to the roles, actions, and agency of women. The book provides broad coverage of gender roles in native Latin America over many centuries, drawing upon a range of evidence from archaeology, anthropology, religion, and politics. Primary and secondary sources include chronicles, codices, newspaper articles, and monographic work on specific regions. Arguing that Latin America's indigenous women were the critical force behind the more important events and processes of Latin America's history, Kellogg interweaves the region's history of family, sexual, and labor history with the origins of women's power in prehispanic, colonial, and modern South and Central America. Shying away from interpretations that treat women as house-bound and passive, the book instead emphasizes women's long history of performing labor, being politically active, and contributing to even supporting family and community well-being.

**Remaking Kichwa** Michael Wroblewski, 2021-01-28 Investigating the efforts of the Kichwa of Tena, Ecuador, to reverse language shift to Spanish, this book examines the ways in which Indigenous language can be revitalized and how creative bilingual forms of discourse can reshape the identities and futures of local populations. Based on deep ethnographic fieldwork among urban, periurban, and rural Indigenous Kichwa communities, Michael Wroblewski explores adaptations to culture contact, language revitalization, and political mobilization through discourse. Expanding the ethnographic picture of native Amazonians and their traditional discourse practices, this book focuses attention on Kichwa's diverse engagements with rural and urban ways of living, local and global ways of speaking, and Indigenous and dominant intellectual traditions. Wroblewski reveals the composite nature of Indigenous words and worlds through conversational interviews, oral history narratives, political speechmaking, and urban performance media, showing how discourse is a critical focal point for studying cultural adaptation. Highlighting how Kichwa assert autonomy through creative forms of self-representation, *Remaking Kichwa* moves the study of Indigenous language into the globalized era and offers innovative reconsiderations of Indigeneity, discourse, and identity.

*Editing Eden* Frank Hutchins, Patrick C. Wilson, 2010-04-01 Recent scholarship on the Amazon has challenged depictions of the region that emphasize its natural exuberance or represent its residents as historically isolated peoples stoically resisting challenges from powerful global forces. The contributors to this volume follow this lead by situating the

discussion of the Amazon and its inhabitants at the intersections of identity politics debates about socioeconomic sovereignty and processes of place making *Editing Eden* focuses on case studies from Amazonian Brazil Colombia and Ecuador regarding the themes of indigeneity community making development politics and the transcendence of indigenous nonindigenous divides Portraits of the Amazon emerge through an analysis of indigenous identity as a product of multiple sources including state policies toward Amazonian populations the views of foreign ecotourists the agendas of nongovernmental organizations NGOs and accounts of journalists At the same time indigenous and nonindigenous Amazonians challenge the representations constructed for and about them by integrating anthropologists and other nonlocals into their reciprocal systems of gift giving or by utilizing NGO or ecotourist dollars to support their own cultural agendas *Editing Eden* offers insights from leading anthropologists of the region providing perspectives on the Amazon beyond the counterfeit paradise but short of El Dorado

Pachakutik and the Rise and Decline of the Ecuadorian Indigenous Movement Kenneth J. Mijeski, Scott H. Beck, 2011-04-12 One of the most important stories in Latin American studies today is the emergence of left leaning social movements sweeping across Latin America includes the mobilization of militant indigenous politics Formed in 1995 in Ecuador to advance the interests of a variety of people s organizations and to serve as an alternative to the country s traditional political parties Pachakutik Plurinational Unity Movement Pachakutik is an indigenist based movement and political party In this critical work Kenneth J Mijeski and Scott H Beck evaluate the successes and failures experienced by Ecuador s Indians in their quest to transform the state into a participative democracy that would address the needs of the country s long ignored and impoverished majority both indigenous and nonindigenous Using a powerful statistical technique and in depth interviews with political activists the authors show that the political election game failed to advance the cause of either Ecuador s poor majority or the movement s own indigenous base Pachakutik and the Rise and Decline of the Ecuadorian Indigenous Movement is an extraordinarily valuable case study that examines the birth development and in this case waning of Ecuador s indigenous movement **From Tribal Village to Global Village** Alison Brysk, 2000 This book examines the rise of human rights movements in five Latin American countries Ecuador Mexico Brazil Nicaragua and Bolivia

How Forests Think Eduardo Kohn, 2013-08-10 Can forests think? Do dogs dream? In this astonishing book, Eduardo Kohn challenges the very foundations of anthropology, calling into question our central assumptions about what it means to be human and thus distinct from all other life forms Based on four years of fieldwork among the Runa of Ecuador's Upper Amazon, Eduardo Kohn draws on his rich ethnography to explore how Amazonians interact with the many creatures that inhabit one of the world's most complex ecosystems Whether or not we recognize it, our anthropological tools hinge on those capacities that make us distinctly human However, when we turn our ethnographic attention to how we relate to other kinds of beings, these tools, which have the effect of divorcing us from the rest of the world, break down How Forests Think seizes on this breakdown as an opportunity, avoiding reductionistic solutions and without losing sight of how our lives and those of others are caught up in the moral webs we humans spin, this book skillfully fashions new kinds of conceptual tools from the strange and unexpected properties of the living world itself In this groundbreaking work, Kohn takes anthropology in a new and exciting direction, one that offers a more capacious way to think about the world we share with other kinds of beings
