Signs of Freedom German Martinez, 2003 Modern secular culture has severely eroded the religious foundations on which traditional sacramental practice was based Built upon the sacramental bedrock the very Christian identity and mission were affected German Martinez looks at this challenge from the perspective of freedom as an opportunity to develop a sacramental worldview relevant to the new millennium To this effect he applies a series of methodologies and fresh pastoral approaches to the highly complex sacramental reality and to each individual sacrament Beginning with ten key interpretative elements he offers a coherent synthesis of the remarkable development of sacramental theology in our time Envisioned for both scholarly research and pastoral ministry this book presents the key issues of a renewed sacramentality rooted in ordinary life and celebrated in the liturgical mystery This theology is grounded in a biblical patristic historical and theological background It tries to articulate especially the Christological ecclesial individual and social aspects of the celebration of the sacraments as a dynamic and organic whole emphasizing their spirituality The material is organized into four parts the Sacramental Way of Life the Initiation and Foundational Church the Healing Church the Church at the service of Communion Highlights scholarly yet pastorally sensitive perfect text for courses on the sacraments solid one volume comprehensive text

*The Theology and Spirituality of Mary Tudor's Church* William Wizeman, 2017-09-29 Few areas of early modern English history have roused such passions and interpretations as the rule of Mary Tudor and her efforts to return the country to

Catholicism following the reigns of her father and brother In this book Dr Wizeman explores Catholic theology and spirituality according to the religious literature printed during the reign of Mary Tudor 1553 1558 As part of the strategy to renew Catholic religion in England after the reformation under Henry VIII and Edward VI Marian theologians authors and editors produced numerous works of catechesis religious polemic devotion and sermons These writings demonstrate that the Catholicism of Marian England was not a mere insular reaction to the preceding decades of religious change nor a via media polity which eschewed important elements of traditional religion while embracing tenets of the Reformation Rather the theology and spirituality of Mary Tudor's church as well as many of its strategies for religious renewal was intimately connected to and in fact anticipated or paralleled the theology spirituality and strategies for reform embraced by Counter Reformation Catholicism especially after the promulgation of the decrees of the Council of Trent 1545 1563 After considering the recent historiography of Mary Tudor's reign the book contextualises these writings through a brief history of the Marian church and a discussion of the authors and dedicatees It then presents an analysis of the Marian writers and theologians views on revelation christology soteriology ecclesiology sacramental theology piety and eschatology Finally the study compares the Catholic belief asserted in these works to that found in texts by English theologians printed before 1553 especially John Fisher and by contemporary theologians in Europe particularly Bartolom Carranza as well as the Tridentine catechism and the decrees and official texts of the English Reformation Finding All Things in God Hans

Gustafson,2017-05-25 In Finding All Things in God Hans Gustafson proposes pansacramentalism as holding the potential to find the divine in all things and all things in the divine Such a proposition carries significant interreligious implications particularly in the practice of theology Presupposing theological practice as divorced from spirituality lived religious experience Gustafson presents pansacramentalism as a bridge between the two In so doing Gustafson offers a history of spirituality sketching the foundations of a classical approach to sacramentality through Aquinas as well as a contemporary approach to the same through Rahner and Chauvet Through three fascinating case studies this book presents particular instances of sacramentality in lived religious experience Gustafson offers an exciting method of doing theology one which is entirely compatible with the interdisciplinary field of interreligious studies *General Principles of Sacramental Theology*

Roger W. Nutt,2017 *General Principles of Sacramental Theology* addresses a current lacuna in English language theological literature Bernard Leeming's highly respected book *Principles of Sacramental Theology* was published more than sixty years ago Since that time there has been a noted decrease especially in English language sacramental theology in treatments of the basic topics and principles such as the nature of the sacraments of signs sacramental grace sacramental character sacramental causality sacramental intention the necessity and number of the sacraments sacramental matter and form inter alia which apply to all of the sacraments This book will be of use in seminary graduate and undergraduate courses The sacraments play an irreplaceable role in pursuing a Universal Call to Holiness that is so central to Vatican II's teaching

José C. Nieto, 1979      **A New Old Spirituality?** Tone Stangeland Kaufman, 2017-07-11 How do pastors live their spiritual lives both as private persons and as professionals How can their spirituality be characterized and understood Drawing on in depth interviews with Norwegian clergy as well as literature from the fields of Christian spirituality practical theology congregational studies and the sociology of religion this book offers a nuanced understanding of clergy spirituality Tone Stangeland Kaufman identifies three locations and sources of spiritual nurture for pastors the ministry itself vocational spirituality daily life everyday spirituality and spiritual practices located at the margins of daily life intentional spirituality The participants in this study engage in classic Christian practices yet approach them in a subjective and new way that also potentially revitalizes their spiritual lives Hence the author makes the case that their spirituality can aptly be described as a new old spirituality The book also seeks to nuance Paul Heelas's and Linda Woodhead's Spiritual Revolution claim and thus engages in the broader spirituality vs religion discourse A New Old Spirituality is an exciting example of how qualitative

empirical research can be used in creative ways to make a practical theological argument It is a book for scholars students and practitioners

**Christian Marriage and Family** Michael G. Lawler, William P. Roberts, 1996 A definite shift in the Catholic Church's understanding of marriage took place at Vatican Council II Rather than perceiving marriage as a contract whose primary purpose was the procreation of children the council spoke of marriage as an intimate partnership of life and love Then recapturing an earlier tradition it went on to describe the family as a domestic church In this book seven theologians who have lectured and written extensively on marriage probe the rich theology of marriage and family that emerged from Vatican II and explore some of the implications that flow from this theology Part One reflects on the sacramentality of marriage and on the family as a church of the home Part Two examines the pastoral implications this has for marital and family ministry and spirituality
