## Sacred Fragments:

**Sacred Fragments** Neil Gillman, 1990 The modern Jew living in a world of shattered beliefs and competing ideologies is often confronted with questions of faith Sacred Fragments is for those who still care enough to continue the struggle In forthright nontechnical language the author addresses the most difficult theological questions of our time and shows that there are still viable Jewish answers for even the greatest skeptics The Eclipse of Humanity Lawrence Perlman, 2016-01-29 It has been widely assumed that Heschel's writings are poetic inspirations devoid of philosophical analysis and unresponsive to the evil of the Holocaust Who Is Man 1965 contains a detailed phenomenological analysis of man and being which is directed at the main work of Martin Heidegger found primarily in Being and Time 1927 and Letter on Humanism 1946 When the analysis of Who Is Man is unpacked in the light of these associations it is clear that Heschel rejected poetry and metaphor as a means of theological elucidation that he offered a profound examination of the Holocaust and that the major thrust of his thinking eschews Heideggerian deconstruction and the postmodernism that ensued in its phenomenological wake Who Is Man contains direct and indirect criticisms of Heidegger's notions of Dasein thrownness facticity and submission to name a few essential Heideggerian concepts In using his ontological connective method in opposition to Heidegger's ontological difference Heschel makes the argument that the biblical notion of Adam as a being open to transcendence stands in opposition to the philosophical tradition from Parmenides to Heidegger and is the only basis for a redemptive view of humanity *Kitawa Literary Fragments* Giancarlo M. G. Scoditti, 2025-03-31 The Nowau oral texts collected in this volume were recorded by Scoditti during the several years of fieldwork on Kitawa Island Papua New Guinea devoted mainly to understanding the mental mechanisms followed by the image creators that are the makers of the kula ceremonial canoes the poets the magicians the female and male singers who perform a poetic text orally written by a poet to an oral score composed by a musician With these early works Scoditti identifies within Kitawa culture a clear distinction between the author and the performer interpreter of a given oral text be it a verbal and a non verbal one a distinction that has called into question the hypothesis that in a culture that does not know or use any form of phonetic writing a text is composed at the time of its performance so that composition and performance would coincide A first result of his interpretation is Kitawa A linguistic and aesthetic analysis of visual art in Melanesia 1990 De Gruyter Mouton then by Kitawa oral poetry An example from Melanesia 1996 ANU Press Notes on the cognitive texture of an oral mind Kitawa a Melanesian culture 2012 Sean Kingston Publishing and now Kitawa Literary Fragments How Storytelling Shapes Spacetime in a Melanesian Matrilineal Culture Respectful Atheism Thomas B. Sheridan, 2021-03-23 This is a study of God as a concept not from the perspective of any religious tradition but rather as belief in an all powerful all knowing and loving supernatural entity as has prevailed through the ages The book reviews arguments throughout history for and against the idea of such a God One unique perspective is to ask what can be modeled about God in denotative language of rationality much as modeling

in science medicine and economics in contrast to connotative language e g myth metaphor art and music Since the early Greeks there have been skeptics concerning God with progressively more questioning since the Enlightenment Today s new atheists are seen as being even more assertive and as having little respect for religious and philosophical traditions and the natural longing for some kind of supreme being However as demographic trends continue to diminish the influence of the church there is opportunity for atheism to gain respect by respecting the beliefs of others The book ends with some considerations of what it means to respect others beliefs and cultural traditions without abandoning a sincere disbelief in a supernatural being     **Approaching the World's Religions, Volume 1** Robert Boyd,2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today It deviates from the typical approaches used for the study of world religions Its goal is to engage readers in thinking hard about world religions not about the data surrounding those traditions By focusing on philosophical questions each reader should be challenged to do their own investigations that may reveal the heart of these traditions Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions Pluralism which is the predominate assumption today ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory By taking an open inclusivist approach all religious traditions may engage at the table of dialogue The final essay is about justice and social affairs While that discussion is couched within the context of a particular tradition each religious tradition must have the discussion But it must be more than an intrareligious dialogue it must become an interreligious dialogue

**Believing and Its Tensions** Neil Gillman, 2013 An intimate and candid examination of the changing nature of belief and where it can lead us from the life experience of one of Judaism s leading thinkers For over five decades Rabbi Neil Gillman has helped people think through the most challenging questions at the heart of being a believing religious person In this intimate rethinking of his own theological

journey he explores the changing nature of belief and the complexities of reconciling the intellectual emotional and moral questions of his own searching mind and soul If what we have in recognizing speaking of and experiencing God is a wide ranging treasury of humanly crafted metaphors what then is the ultimate reality the ultimate nature of God What lies beyond the metaphors If humanity was an active partner in revelation if the human community participated in what was revealed and gave it meaning what then should be the authority of Jewish law How do we cope intellectually emotionally and morally with suffering the greatest challenge to our faith commitment relationship with God and sense of a fundamentally ordered world Death is inevitable but why is it built in as part of the total life experience      **Shema is for Real Lab Book** Joel Lurie

Do We Still Need Inspiration? Matthieu Richelle, Camilla Recalcati, Martijn

Beukenhorst, 2023-11-20 The concept of inspiration is part and parcel of the theological tradition in several religious confessions but it has largely receded to the background if not vanished altogether in the discussions of biblical scholars The question Do we still need inspiration might well reflect the perplexity of many exegetes today Systematic theologians for their part often further their own reflections on the subject independently of developments in the field of exegesis with the risk of remaining purely theoretical Biblical research in the last decades has been marked by new insights about the nature of the biblical texts stemming from the study of their inner plurality insofar as they combine and sometimes intertwine conflicting theologies of their textual fluidity and of their reception Can these new insights be integrated into a theological reflection on the notion of inspiration These questions are often explicitly raised about the Jewish and Christian Scriptures but they also prove increasingly relevant for Qur'anic studies This volume addresses them through contributions from exegetes of the Bible and of the Qur'an and systematic theologians

**The Certainty of Uncertainty** Mark

Schaefer, 2018-08-23 The world is full of people who are very certain in politics in religion in all manner of things In addition political religious and social organizations are marketing certainty as a cure all to all life's problems But is such certainty possible Or even good The Certainty of Uncertainty explores the question of certainty by looking at the reasons human beings crave certainty and the religious responses we frequently fashion to help meet that need The book takes an in depth view of religion language our senses our science and our world to explore the inescapable uncertainties they reveal We find that the certainty we crave does not exist As we reflect on the unavoidable uncertainties in our world we come to understand
