**Marian Apparitions in Cultural Contexts** Valeria Céspedes Musso, 2018-10-03 *Marian Apparitions in Cultural Contexts* provides an analysis of collective phenomena specifically mass visions of the Virgin Mary from a psychoanalytical perspective. It draws from Jung's compensation theoretical model with the aim of merging depth psychology and historical material from the Zeitoun case. Offering an original interpretation of this phenomenon from a Jungian psychological perspective, the book provides stimulating insights to any person interested in these supernatural events, whether general readers with active curiosity or scholars with broad intellectual interests. A review of the literature points to a prevailing socio-political approach to examining visions of the Virgin Mary while a psychoanalytical approach is generally lacking. Musso draws from Jung's compensation theoretical model in *Flying Saucers* with the aim of merging depth psychology and historical material. Common themes and symbols are extracted and interpreted from the empirical material and analyzed along with Egyptian social and political data. The book concludes with a discussion on how depth psychological principles grounded in empirical and historical material could be applied in order to explicate cases of mass visions. An original interdisciplinary exploration of cultural phenomena. *Marian Apparitions in Cultural Contexts* will be of value to academics and students in the fields of psychoanalysis, analytical psychology, political science, and religious studies. This book will also be of interest among Jungian scholars and practitioners in applications of depth psychology to cultural phenomena. [Kitchen Witchcraft & Moon Magic](#)

Hein Viljoen, C. N. Van der Merwe, 2004 In *Storyscapes* we listen carefully to what South African writers reveal about themselves and their relations to South African space since the democratic transition of 1994. One main focus is the power of stories to uncover contradictory processes and investments of identity and to point readers toward a more meaningful life. Another main focus is the complexities of the post-colonial understanding of South African land, landscape, and space. Space in relation to race, class, and gender identity figures prominently in analyses and comparisons of diverse South African texts such as Breyten Breytenbach's *Dog Heart*, Andr Brink's *Imaginings of Sand*, as well as the important South African subgenre of the farm novel. Questions of black or hybrid identity are highlighted by confronting older texts with new ones by black and women writers such as A. H. M. Scholtz and E. K. M. Dido. These texts and a number of Afrikaans texts that are less well known

in the English speaking world are set in the wider frameworks of postcolonial criticism and global issues of cultural identity
