holy places and pilgrimage sites sacred to the world's major religious traditions and illustrates their elemental place in human culture. As interest increases in the role of world religions in history and international affairs, the new edition of *Encyclopedia of Sacred Places* which arrives 15 years after the publication of the original edition provides new and updated information on site specific religious practice and spiritually significant locations around the globe. While many of the entries describe specific places like the Erawan Shrine and the Rock of Cashel, others examine types of sacred sites, pilgrimages and practices. With articles that describe both the places and their associated traditions and history, this reference book reveals the enormous diversity and cultural significance of religious practice worldwide. For students and teachers of classes ranging from high school geography to university level courses in religious studies, geography, anthropology and sociology, this book provides essential reference on places of great significance to the world's various faith traditions.

Griffith,2015-10-20 The region once known as Pimer a Alta now southern Arizona and northern Sonora has for more than three centuries been a melting pot for the beliefs of native Tohono O odham and immigrant Yaquis and those of colonizing Spaniards and Mexicans One need look no further than the roadside crosses along desert highways or the diversity of local celebrations to sense the richness of this cultural commingling Folklorist Jim Griffith has lived in the Pimer a Alta for more than thirty years visiting its holy places and attending its fiestas and has uncovered a background of belief tradition and history lying beneath the surface of these cultural expressions In Beliefs and Holy Places he reveals some of the supernaturally sanctioned relationships that tie people to places within that region describing the cultural and religious meanings of locations and showing how bonds between people and places have in turn created relationships between places a spiritual geography undetectable on physical maps Throughout the book Griffith shows how culture moves from legend to art to belief to practice all the while serving as a

dynamic link between past and future Now as the desert gives way to newcomers Griffith s book offers visitors and residents alike a rare opportunity to share in these rich traditions      *Colorado's Sanctuaries, Retreats, and Sacred Places* Jean Torkelson,2001 From camp like mountain retreats to urban sanctuaries to remote enclaves of miraculous natural beauty this guidebook catalogs nearly 100 of the state s best sites for soul searching through informative descriptions and full color photographs Photos      Landscape as Sacred Space Steven Lewis,2005-07-15 Steven Lewis s Landscape as Sacred Space Metaphors for the Spiritual Journey invites new discussions about our spiritual journeys and allows seekers to rethink approaches to Christian spirituality and theology in light of postmodernity Landscape metaphors provide a common and accessible language to articulate one s spiritual journey Spiritual mountains deserts and valleys are dominant landscapes on our journey through life Most people have experienced the joy of a mountaintop spiritual experience the pain of spiritual deserts or perhaps the dreariness too often associated with spiritual valleys There is a tendency however to highlight spiritual mountaintops while avoiding spiritual deserts and ignoring spiritual valleys This leaves many Christians ill equipped either to deal with crises or to integrate God into ordinary life Each landscape offers rich lessons that when combined together lead us toward a maturing faith and into a deeper relationship with God Landscape as Sacred Space is intended to aid those who search for more meaningful ways to articulate their faith journey The book grants permission to struggle with life s landscapes provides safe spaces to reflect on the journey and introduces language that enables exploration and discovery      *Modernity and the Construction of Sacred Space* Aaron French,Katharina Waldner,2024-07-01 This volume focuses on the connection between modern design and architectural practices and the construction of sacred spaces Not only language and ritual but space place and architecture play a significant role in constructing special or religious spaces However this concept of a constructed sacred space remains undertheorized in religious studies and the history of art and architecture in general This volume therefore revisits the question of a modern sacred space from an interdisciplinary perspective focusing on religion space and architecture during the emergence of the modern period and up until contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today      **Native American Sacred Places** United States. Congress. Senate. Committee on Indian Affairs,2003      Teaching Interreligious Encounters Marc A. Pugliese,Alexander Y. Hwang,2017 Divided into five components of teaching interreligious encounters Theory Design Textual Analysis Practice and Formation this volume guides both new teachers and seasoned scholars in addressing the sometimes challenging questions raised by contact between divergent faiths
