Counseling People with Cancer Jann Aldredge-Clanton, 1998-01-01 Few moments are as devastating as when one hears a diagnosis of cancer and one out of three Americans will hear this diagnosis in their lifetimes In this book Jann Aldredge Clanton brings a perspective from a theology of hope for people struggling with cancer She believes that in the midst of a frightening illness our spiritual task is to reunderstand our life story in light of the sacred story of God s love in the world This book is full of practical insights to enable pastors and pastoral counselors to help persons cope with the diagnosis and experience of cancer The purpose of the

Counseling and Pastoral Theology series is to address clinical issues that arise among particular populations currently neglected in the literature on pastoral care and counseling This series is committed to enhancing both the theoretical base and the clinical expertise of pastoral caregivers by providing a pastoral theological paradigm that will inform both assessment and intervention with persons in these specific populations Holy Visions, Sacred Stories Charles Tidball,2012-03 Recently a chasm has opened between many of our leaders and those who work for them We have witnessed the sacrifices of airline workers and the unconscionable compensation of top executives the ideals of Olympic Games and the conduct of certain committee members the sacrament of religion and the priests who abused the sanctity of the human body the needed services of United Way and their extravagant executive perks and hopes for a democratically fair system versus the 2000 presidential election The values of hard work inalienable rights fairness and public service held by most Americans is often lacking in our leaders An ethical chasm has opened up in our midst and unless we do something our future will fall victim to our inadequacies Our standing in the world in years to come will depend less on our military might and more on our moral strength We need to begin a united search for ethical leadership As we take Torin s journey of discovery with him we see the roots of this loss of ethical leadership and begin to understand that there is a way out of this situation by applying the spiritual principles of Rudolf Steiner s spiritual science In Search for Ethical Leadership is grounded with practical tools that offer us real hope for the future of ethical leadership **Sacred Stories Sacred Dreams Bible Myth and Metaphor** Edward V. element of children's education that can enrich the school curriculum and encourage social and thinking skills. She discusses the different kinds of story that are useful in the classroom and explores the impact of individual and group dynamics on the telling and reception of these stories.

Prophetic Politics David S. Gutterman, 2018-07-05 In an era of military conflict and economic hardship, religious and political leaders adamantly speak in the language of crisis. Whether one attributes this public religious fervor to a response to the attacks of September 11, 2001, millennial hopes and fears, a sense of moral decay generally based on either growing economic inequality or the breakdown of the American family, or a sign of the normal progression of the stages of history, the discourse of religious revival is increasingly prominent. And as is amply evident in the United States and throughout the world, devout declarations of religious belief in the public sphere can bring intractable passions to politics.

Chapter 1: What are the relationships among religion, politics, and narratives? What makes prophetic political narratives congenial or hostile to democratic political life? David S. Gutterman explores the prophetic politics of four twentieth and twenty-first century American Christian social movements: the Reverend Billy Sunday and his vision of muscular Christianity; Dr. Martin Luther King Jr. and the Civil Rights movement; the conservative Christian male organization Promise Keepers; and the progressive antipoverty organization Call to Renewal. Gutterman develops a theory based on the work of Hannah Arendt and others and employs this framework to analyze expressions of the prophetic impulse in the political narrative of the United States. In the process, he examines timely issues about the tense and intricate relationship between religion and politics. Even prior to George W. Bush's faith-based initiative, debates about abortion, family values, welfare reform, and environmental degradation were informed by religious language and ideas. In an interdisciplinary and accessible manner, Gutterman translates the narratives employed by American Christian social movements to define both the crises in the land and the path to resolving these crises. The book also explores the engagement of these prophetic social movements in contentious political issues concerned with sex, gender, sexuality, race, and class, as well as broader questions of American identity.

Considers the ways in which ancient stories from diverse religions such as the Bhagavad Gita and the lives of Jesus and Buddha have provided ethical orientation in the modern world. Updated to reflect recent discussions on globalization and its influence on cross-cultural and comparative ethics; economic dimensions to ethics; Gandhian traditions; and global ethics in an age of terrorism. Expands coverage of Asian religions; quest narratives; the religious and philosophical approach to ethics in the West; and considers Chinese influences on Thich Nhat Hanh's Zen Buddhism and Augustine's
