Sacred Times A New Approach To Festivals

Gerald Parsons

Sacred Times A New Approach To Festivals:

Sacred Times William Bloom, Ph.D.,1990-01-01 *Transforming the World* Stuart Rose,2005 This study provides a comprehensive and balanced view of the New Age through formal studies and original research Equal attention is accorded to practices and institutions illustrating the New Age as a concrete living enterprise not merely a philosophy The book offers a thorough study of major writings by British American and other commentators detailed ethnographic testimony and a broad survey of the New Age phenomenon in all its aspects *The Growth of Religious Diversity: Traditions* Gerald Parsons,1993 These two volumes consider the significance of religion in post war Britain concentrating on the decline of the specifically Christian Society and the emergence of a culturally and religiously plural society *Children of the New Age* Steven Sutcliffe,2003 As the first true social history of New Age culture this presents an unrivalled overview of the diverse varieties of New Age belief and practise from the 1930s to the present day *The Emerging Network* Michael York,1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena *The Growth of Religious Diversity - Vol 1* Gerald Parsons,2012-11-12 This two volume set considers the role and significance of religion in post war Britain focusing in particular upon the closely inter related themes of the decline of a specifically Christian Society and the emergence of a culturally and religiously plural society Three core questions are examined in depth to what extent and in what ways has religion remained a significant factor in British culture and society in the period since 1945 what role does religion play in interpreting and understanding the development of a multi cultural and multi ethnic society in post war Britain and to what extent has Britain remained or ceased to be a religious society during this period Volume 1 *Traditions* analyses the history and development of the major religious groups present in Britain in the period since 1945 The major religious traditions examined include the traditional Christian churches Judaism Islam Hinduism Sikhism Afro Caribbean religious groups New Religious Movements and the implicit religion of the silent majority who remain detached from organised religion but are by no means simply secular Volume 2 *Controversies* explores some of the challenges tensions and controversies presented by the emergence of an increasingly religiously plural society in Britain since 1945 In particular it focuses on the impact of religious pluralism on both the Christian churches and other religious traditions the relationship between communal and national identities and religion women and religion and the relationship between religion and changing attitudes to personal and especially sexual morality **Indigenous Religions** Graham Harvey,2000-11-01 Indigenous religions are the majority of the world s religions This Companion shows how much they can contribute to a richer understanding of human identity action and relationships An international team of contributors discuss

representative indigenous religions from all continents The book is in three parts Persons Powers and Gifts Relevant to everyone interested in human religiosity today Handbook of Religion and the Authority of Science Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world

The Halakhah, Volume 1 Part 4 Jacob Neusner, 2021-11-15 The Halakhah embodies the complete Jewish Law and contains commandments and guidelines for day to day living The original commandments given by God to the Jewish people were enhanced by rabbis to offer a detailed framework to guide the lives of all Jews In this complete all encompassing encyclopaedia of the Halakhah the various laws are classified in such a way that a systematic and coherent structure is obtained Each entry of the Halakhah is presented in a logical fashion Where applicable the original biblical wording is given extended with literal abstracts from the Torah Next problems and questions that may arise from that law are stated and any additional information given Finally each entry gives comprehensive explanations and recommendations as to how these laws are to be observed in daily life where to be and where not to be what to do and what not to do what to say and what not to say The Halakhah or standard Jewish Law combines the Mishnah about 200 CE the Tosefta about 300 CE and the two Talmuds about 400 600 CE for the Land of Israel and Babylon respectively Volumes I and II contain entries pertaining to the Jewish people in relationship to God Volume III explains how the Jewish people can restore and maintain their society in accordance with the Torah as it is explained by the rabbis In Volumes IV and V of this study we take up the life of the Jewish household in their encounter with God The Encyclopaedic account therefore moves from regulating relationships between Israel and God to establishing stable and equitable relationships among Israelites and finally to actually living the Halakhah

Chapters in the Formative History of Judaism, Eighth Series Jacob Neusner, 2012-06-14 This collection of essays draws on work done in 2011 2012 The author takes up several topics in the systemic analysis of Judaism its literature and its theology The reason for periodically collecting and publishing essays and reviews is to give them a second life after they have served as lectures or as summaries of monographs or as free standing articles or as expositions of Judaism in collections of comparative religions This re presentation serves a readership to whom the initial presentation in lectures or specialized journals or short run monographs is inaccessible Some of the essays furthermore provide a pr cis for colleagues in kindred

fields of fully worked out monographs **Introducing Religion** Robert S. Ellwood, Patrick Horn, 2024-08-22 Introducing Religion examines the different ways of looking at religion in the twenty first century Providing a broad overview to the discipline of religious studies this new edition continues to introduce students to engaging and contemporary topics such as sociology of religion psychology of religion history of religion religion and art religious ethics popular religion religion and violence Thoroughly updated throughout this sixth edition includes new coverage of current debates and hot topics in the field such as concerns about essentialism in religion the importance of categorization and the role of psychology in religious experience This textbook is fundamental reading for students approaching this subject area for the first time The Halakhah Jacob Neusner, 2000 The Halakhah embodies the complete Jewish Law and contains commandments and guidelines for day to day living The original commandments given by God to the Jewish people were enhanced by rabbis to offer a detailed framework to guide the lives of all Jews In this complete all encompassing encyclopaedia of the Halakhah the various laws are classified in such a way that a systematic and coherent structure is obtained Each entry of the Halakhah is presented in a logical fashion Where applicable the original biblical wording is given extended with literal abstracts from the Torah Next problems and questions that may arise from that law are stated and any additional information given Finally each entry gives comprehensive explanations and recommendations as to how these laws are to be observed in daily life where to be and where not to be what to do and what not to do what to say and what not to say The Halakhah or standard Jewish Law combines the Mishnah about 200 CE the Tosefta about 300 CE and the two Talmuds about 400 600 CE for the Land of Israel and Babylon respectively Volumes I and II contain entries pertaining to the Jewish people in relationship to God Volume III explains how the Jewish people can restore and maintain their society in accordance with the Torah as it is explained by the rabbis In Volumes IV and V of this study we take up the life of the Jewish household in their encounter with God The Encyclopaedic account therefore moves from regulating relationships between Israel and God to establishing stable and equitable relationships among Israelites and finally to actually living the Halakhah **Handbook of Rabbinic Theology** Jacob Neusner, 2021-12-28 From his extensive and intensive study of the rabbinic literature Jacob Neusner shows how the rabbinic documents give expression to a very real if implicit theological system While the rabbinic literature is often seen as a collection of miscellaneous responses to questions arising from study of the Hebrew Bible and its application to contemporary life Neusner sees a system behind and embodied in the various writings He discusses the ways in which the divine thought and the human thinking that sought faithfully to interpret it actually came to expression and treats what he calls the grammar of the divine self expression in order to help us see the theological structure that it implies Then he shows how this implicit system is expressed in the rules for the life of the people that God has chosen as his own Citing passages from almost all of the mishnaic tractates Neusner shows how they fit into and give expression to the system This publication has also been published in paperback please click here for details **The Theology of the Halakhah** Jacob Neusner, 2001

Neusner proves that the law of normative Judaism the Halakhah viewed whole with its category formations read in logical sequence tells a coherent story He demonstrates that details of the law contribute to making a single statement one that moreover complements and corresponds with that of the Aggadah the lore and scriptural exegesis of Judaism He has now portrayed for the first time the way in which Aggadah and Halakhah attitude and action belief and behavior join together to set forth normative Judaism the vast system for holy Israel s social order of the Mishnah Talmud and Midrash of late antiquity

Religions of the East Lucius Boraks,1988 In the letter to the Hebrews we read At various times in the past and in various different ways God spoke to our ancestors Hebrews 1 1 At various times and in various ways that is what this book is all about Just how did God speak to our ancestors How did God make an abiding presence known in creation It is an attempt to penetrate the varied manifestations of this Presence in the world and the religious sensitivities of humanity that help make us aware of this presence This study revolves around the origins and ideas of the world s major living religions of the eastern half of the world The different ways that eastern religions perceive the reality of the world of the sacred is our focus *The Oxford Handbook of Ritual and Worship in the Hebrew Bible* Samuel E. Balentine,2020 The conceit in the title of this volume is that ritual however expansively it may be defined is ineluctably tethered to religion and worship It has a primal connection to the idea that a transcendent order numinous and mysterious supernatural and elusive divine and wholly other gives meaning and purpose to life The construction of rites and rituals enables humans to conceive and apprehend this transcendent order to symbolize it and interact with it to postulate its truths in the face of contradicting realities and to repair them when they have been breached or diminished The focus of this Handbook is on ritual and worship from the perspective of biblical studies particularly on the Hebrew Bible and its ancient Near Eastern antecedents Within this context attention will be given to the development of ideas in Jewish Christian and Muslim thinking but only insofar as they connect with or extend the trajectory of biblical precedents The volume reflects a wide range of analytical approaches to ancient texts inscriptions iconography and ritual artifacts It examines the social history and cultural knowledge encoded in rituals and explores the way rituals shape and are shaped by politics economics ethical imperatives and religion itself Toward this end the volume is organized into six major sections Historical Contexts Interpretive Approaches Ritual Elements participants places times objects practices Underlying Cultural and Theological Perspectives History of Interpretation Social Cultural Functions and Theology and Theological Heritage *The Construction of Time in Antiquity* Jonathan Ben-Dov,Lutz Doering,2017-10-12 Time has always held a fascination for human beings who have attempted to relate to it and to make sense of it constructing and deconstructing it through its various prisms since time cannot be experienced in an unmediated way This book answers the needs of a growing community of scholars and readers who are interested in this interaction It offers a series of innovative studies by both senior and younger experts on various aspects of the construction of time in antiquity Some articles in this book contain visual material published for the first time while other studies update the field

with new theories or apply new approaches to relevant sources Within the study of antiquity the book covers the disciplines of Classics and Ancient History Assyriology Egyptology Ancient Judaism and Early Christianity with thematic contributions on rituals festivals astronomy calendars medicine art and narrative

Fascism, Aviation and Mythical Modernity Fernando Esposito, 2015-09-29 Flying and the pilot were significant metaphors of fascism s mythical modernity Fernando Esposito traces the changing meanings of these highly charged symbols from the air show in Brescia to the sky above the trenches of the First World War to the violent ideological clashes of the interwar period

The Value of Time and Leisure in a World of Work Mitchell R. Haney, David A. Kline, 2010-03-16 It is a platitude that most people as they say work to live rather than live to work And in the late twentieth and early twenty first centuries work weeks have expanded and the divide between work time and personal time has significantly blurred due to innovations in such things as electronic communications Concerns over the value of work in our lives as well as with the balance or use of time between work and leisure confront most people in contemporary society Discussions over the values of time leisure and work are directly related to the time honored question of what makes a life good And this question is of particular interest to philosophers especially ethicists In this volume leading scholars address a range of value considerations related to peoples thoughts and practices around time utilization leisure and work with masterful insight In addressing various practical issues these scholars demonstrate the timeless relevance and practical import of Philosophy to human lived experience

Holocaust Memory Reframed Jennifer Hansen-Glucklich, 2014-03-31 Holocaust memorials and museums face a difficult task as their staffs strive to commemorate and document horror On the one hand the events museums represent are beyond most people s experiences At the same time they are often portrayed by theologians artists and philosophers in ways that are already known by the public Museum administrators and curators have the challenging role of finding a creative way to present Holocaust exhibits to avoid cliché or dehumanizing portrayals of victims and their suffering In *Holocaust Memory Reframed* Jennifer Hansen Glucklich examines representations in three museums Israel s Yad Vashem in Jerusalem Germany s Jewish Museum in Berlin and the United States Holocaust Memorial Museum in Washington D C She describes a variety of visually striking media including architecture photography exhibits artifact displays and video installations in order to explain the aesthetic techniques that the museums employ As she interprets the exhibits Hansen Glucklich clarifies how museums communicate Holocaust narratives within the historical and cultural contexts specific to Germany Israel and the United States In Yad Vashem architect Moshe Safdie developed a narrative suited for Israel rooted in a redemptive Zionist story of homecoming to a place of mythic geography and renewal in contrast to death and suffering in exile In the Jewish Museum in Berlin Daniel Libeskind s architecture broken lines and voids emphasize absence Here exhibits communicate a conflicted ideology torn between the loss of a Jewish past and the country s current multicultural ethos The United States Holocaust Memorial Museum presents yet another lens conveying through its exhibits a sense of sacrifice that is part of the civil values of American democracy and

trying to overcome geographic and temporal distance One well know example the pile of thousands of shoes plundered from concentration camp victims encourages the visitor to bridge the gap between viewer and victim Hansen Glucklich explores how each museum s concept of the sacred shapes the design and choreography of visitors experiences within museum spaces These spaces are sites of pilgrimage that can in turn lead to rites of passage
