Fallon, Virginia Brabender,2003-01-30 The passage into and through pregnancy and new parenthood is one that affects all aspects of a therapist s life including work with patients It presents special therapeutic challenges as well as special therapeutic opportunities Drawing on the scattered literature interviews with people who have been in the roles of therapists and expectant parents simultaneously and their own rich experiences the authors consider therapists psychological lives prior to birth or adoption and examine both therapist and patient reactions to the reality of a coming child Whatever the therapist s theoretical orientation the patient therapist relationship undergoes changes and therapists are faced with a

number of important decisions not typically addressed in the psychotherapy literature such as whether and when to inform the patient of what is anticipated. The authors offer practical advice that enables therapists to proceed through a sound clinical decision making process and discuss the ways in which the changes can be harnessed in the service of treatment goals. Multiple modalities are covered including individual, group, family and couples therapy which can be understood from a variety of theoretical perspectives. The needs of patients in different diagnostic categories at different developmental stages are addressed and the relationship between therapist and practice setting is examined. Throughout the authors illuminate their points with vivid real life case vignettes. The issue of impending parenthood arises for male and female practitioners, adopters and biological parents and their supervisors. All those facing it will find this book essential reading as they seek to identify and quell their anxieties and improve their clinical acumen and effectiveness.

Motherhood Realized Power of Moms, 2014-04-08 We believe that family life is beautiful and that motherhood is a privilege. But we also believe it is often really hard to see all that beauty when we're in the midst of mothering. So often we feel like we're spread too thin. We feel like we don't match up. Our hearts want to do more than our hands can manage. And every day as we cycle through household duties, discipline, errands, conversations, teaching, and hundreds of unexpecteds, we're often left tired, worried, and in need of some extra inspiration and encouragement. Power of Moms is an online community of deliberate mothers. Since 2007, millions of mothers from all backgrounds who are striving to be the best they can be have gathered to our website to learn and grow together. Time and again our posts receive comments that say something like "I am going to print this out and put it on my nightstand so I can read it again and again." We've been concerned about those nightstands getting all cluttered up with paper. So we've selected dozens of our most popular posts and compiled them neatly into this book just for you. This book isn't just a book. It's a tangible representation of a living, breathing community of mothers. Motherhood is the hardest job we'll ever love, and it's so much better when we're doing it together.

Mothering with Breastfeeding and Maternal Care Mizin Park Kawasaki, 2005 As women continue to bear children, all parents should ask the following question: How can a woman fulfill her unique responsibility as mother to her child when prevailing parenting practices deny the importance of breastfeeding and maternal care? Maternal care is now thought to be impractical and a luxury for those who can afford it. Thus many women need to defend their right and responsibility to care for even the youngest of babies. Dr. Kawasaki, a pediatrician and stay-at-home mother of two, asserts in *Mothering with Breastfeeding and Maternal Care* that current attitudes toward mothering have not evolved naturally. Over the course of a century, child-rearing experts, sociologists, and feminists have made systematic efforts to undermine the importance of a woman's role in the home. Dr. Kawasaki offers compelling reasons for parents to think seriously about the unique role women play in their children's lives, particularly in early childhood. She argues that the priceless benefits of breastfeeding and hands-on maternal care help to ensure the optimal growth and development of young babies and children.
