Pretexts for Writing Seán M. Williams, 2019-03-01 Around 1800 print culture became a particularly rich source for metaphors about thinking as well as writing nowhere more so than in the German tradition of Dichter und Denker Goethe Jean Paul and Hegel among many others used the preface in order to reflect on the problems of writing itself and its interpretation If Sterne teaches us that a material book enables mind games as much as it gives expression to them the Germans made these games more theoretical still Weaving in authors from Antiquity to Agamben Williams shows how European and above all German Romanticism was a watershed in the history of the preface The playful paradoxical strategies that Romantic writers invented are later played out in continental philosophy and in post Structuralist literature The preface is a prompt for playful thinking with texts as much as it is conventionally the prosaic product of such an exercise Published by Bucknell University Press Distributed worldwide by Rutgers University Press

Potency of the Common Gert Melville, Carlos Ruta, 2016-09-26 The central question of the book is as follows To what extent does the community present a challenge in the life of the individual Well known international Philosophers historians anthropologists political scientists theologians and sociologists attempted to find explications by intercultural comparison

Women Warriors in Romantic Drama Wendy C. Nielsen, 2013 Women Warriors in Romantic Drama advances scholarship on late eighteenth and early nineteenth century theater by bringing together for the first time female and male dramatists as well as British German Irish and French writers thinkers actors and philosophers This transnational perspective allows Women Warriors in Romantic Drama to make the provocative claim that in some instances the violence of the French Revolution and especially women s participation in it advances proto feminist concerns

Philosophy and German Literature, 1700-1990 Nicholas Saul, 2002-05-02 Although the importance of the interplay of literature and philosophy in Germany has often been examined

within individual works or groups of works by particular authors little research has been undertaken into the broader dialogue of German literature and philosophy as a whole Philosophy and German Literature 1700 1990 offers six chapters by leading specialists on the dialogue between the work of German literary writers and philosophers through their works The volume shows that German literature far from being the mouthpiece of a dour philosophical culture dominated by the great names of Leibniz Kant Hegel Marx Heidegger and Habermas has much more to offer while possessing a high affinity with philosophy it explores regions of human insight and experience beyond philosophy's ken

New Approaches to Theodor Fontane Marion Villmar-Doebeling, 2000 While Fontane scholarship has primarily focused on the objective portrayal of nineteenth century German Prussian culture and on the authenticity with which his work supposedly mirrors social reality this collection investigates rhetorical and communicative patterns in his works that call this mirroring effect into question emphasizing the difficulty and ultimate impossibility of realist representation

BOOK JACKET Kierkegaard's Journals and Notebooks, Volume 9 Søren Kierkegaard, 2017-05-09 For over a century the Danish thinker Søren Kierkegaard 1813-55 has been at the center of a number of important discussions concerning not only philosophy and theology but also more recently fields such as social thought psychology and contemporary aesthetics especially literary theory Despite his relatively short life Kierkegaard was an extraordinarily prolific writer as attested to by the 26 volume Princeton University Press edition of all of his published writings But Kierkegaard left behind nearly as much unpublished writing most of which consists of what are called his journals and notebooks Kierkegaard has long been recognized as one of history's great journal keepers but only rather small portions of his journals and notebooks are what we usually understand by the term diaries By far the greater part of Kierkegaard's journals and notebooks consists of reflections on a myriad of subjects philosophical religious political personal Studying his journals and notebooks takes us into his workshop where we can see his entire universe of thought We can witness the genesis of his published works to be sure but we can also see whole galaxies of concepts new insights and fragments large and small of partially or almost entirely completed but unpublished works Kierkegaard's Journals and Notebooks enables us to see the thinker in dialogue with his times and with himself Kierkegaard wrote his journals in a two column format one for his initial entries and the second for the extensive marginal comments that he added later This edition of the journals reproduces this format includes several photographs of original manuscript pages and contains extensive scholarly commentary on the various entries and on the history of the manuscripts being reproduced Volume 9 of this 11 volume series includes five of Kierkegaard's important NB journals Journals NB26 through NB30 which span from June 1852 to August 1854 This period was marked by Kierkegaard's increasing preoccupation with what he saw as an unbridgeable gulf in Christianity between the absolute ideal of the religion of the New Testament and the official state sanctioned culture of Christendom which embodied by the Danish People's Church Kierkegaard rejected with increasing vehemence Crucially Kierkegaard's nemesis Bishop Jakob Peter Mynster died during this period and in the months following Kierkegaard can be

seen moving inexorably toward the famous attack on Christendom with which he ended his life Conservatism Karl Mannheim, 2013-07-04 First published in 1986 This is Volume XI of Mannheim's collected works The present edition of *Conservatism* rests on a typescript of the text found among the papers after his death in 1980 of Paul Kecskemeti who played an important role in the posthumous publication of several works of Mannheim Lectures on the Philosophy of Art Georg Wilhelm Friedrich Hegel, 2014 Hegel gave lecture series on aesthetics or the philosophy of art in various university terms but never published a book of his own on this topic His student H G Hotho compiled auditors transcripts from these separate lecture series and produced from them the three volumes on aesthetics in the standard edition of Hegel's collected works Annemarie Gethmann Siefert has now published one of these transcripts the Hotho transcript of the 1823 lecture series and accompanied it with a very extensive introductory essay treating many issues pertinent to a proper understanding of Hegel's views on art She persuasively argues that the evidence shows Hegel never finalized his views on the philosophy of art but modified them in significant ways from one lecture series to the next In addition she makes the case that Hotho's compilation not only concealed this circumstance by the harmony he created out of diverse source materials but also imposed some of his own views on aesthetics views that differ from Hegel's and that the ongoing interpretation of the aesthetics part of Hegel's philosophy has unfortunately taken to be Hegel's own This translation of the German volume which contains the first publication of the Hotho transcript and Gethmann Siefert's essay makes these important materials accessible to the English reader materials that should put the English speaking world's future understanding and interpretation of Hegel's philosophy of art on a sounder footing **Nonconformist Writing in Nazi Germany** John Klapper, 2015 An innovative critical historically informed yet accessible reassessment of writers who remained in Nazi Germany and Austria yet expressed nonconformity even dissent through their fiction *Counter-Enlightenments* Graeme Garrard, 2004-08-02 This book discusses the Counter Enlightenment from its origins in Rousseau's *Discourse on the Arts and Sciences* through to contemporary debates about postmodernism and the relationship between liberalism and Enlightenment *Hegel and Greek Tragedy* Martin Thibodeau, 2013 This study is concerned with the different interpretations of Greek tragedy proposed by G W F Hegel While Hegel's philosophical interest in tragedy as an art form is well known the motivation for his preoccupation with this art form needs to be further explored Indeed why would Hegel a pivotal figure of German idealism be inclined to concern himself with a form of poetry that reached its peak in the 5th century B C Precisely this question forms the core of this book It articulates what the primary stakes are and thereby develop and defend the thesis that Hegel's examination of Greece and tragedy is one that has a direct bearing on the fate of politics in the modern world *The Gender of Death* Karl S. Guthke, 1999 Why is it that in some cultures and times literature folklore and art commonly represent death as a man in others as a woman Karl S Guthke shows that these choices which often contradict the grammatical gender of the word death in the language concerned are neither arbitrary nor accidental In earlier centuries the gender of the figure of

death contributed to the interpretation of biblical narrative in particular whether the original sin was that of Adam or Eve and also reflected the importance of the classical figure of Thanatos More recently the gender of death as angel lover or bride whether terrifying or welcome has carried powerful psychological and social connotations Tracing the gender of representations of death in art and literature from medieval times to the present day Guthke offers astonishing new insights into the nature and perception of the Western self in its cultural intellectual and literary context An Outline of German Romanticism Allen Wilson Porterfield,1914 *Five Portraits* Michael André Bernstein,2000 In the introduction Bernstein English U of California Berkeley describes what he calls the modernist masterpiece as a distinct and historically circumscribed form In the five essays that follow he analyzes the work of Rainer Maria Rilke Paul Celan Robert Musil Martin Heidegger and Walter Benjamin c Book News Inc Volume 12, Tome I: Kierkegaard's Influence on Literature, Criticism and Art Jon Stewart,2016-12-05 While Kierkegaard is primarily known as a philosopher or religious thinker his writings have also been used extensively by literary writers critics and artists worldwide who have been attracted to his creative mixing of genres his complex use of pseudonyms his rhetoric and literary style and his rich images parables and allegories The goal of the present volume is to document this influence in different language groups and traditions Tome I explores Kierkegaard's influence on literature and art in the Germanophone world He was an important source of inspiration for German writers such as Theodor Fontane Thomas Mann Rainer Maria Rilke Alfred Andersch and Martin Walser Kierkegaard's influence was particularly strong in Austria during the generation of modernist authors such as Rudolf Kassner Karl Kraus Robert Musil and Hermann Broch Due presumably in part to the German translations of Kierkegaard in the Austrian cultural journal *Der Brenner* Kierkegaard continued to be used by later figures such as the novelist and playwright Thomas Bernhard His thought was also appropriated in Switzerland through the works of Max Frisch and Friedrich Dürrenmatt The famous Czech author Franz Kafka identified personally with Kierkegaard's love story with Regine Olsen and made use of his reflections on this and other topics The Philosophical Foundations of Early German Romanticism Manfred Frank,2012-02-01 Often portrayed as a movement of poets lost in swells of passion early German Romanticism has been generally overlooked by scholars in favor of the great system builders of the post Kantian period Schelling and Hegel In the twelve lectures collected here Manfred Frank redresses this oversight offering an in depth exploration of the philosophical contributions and contemporary relevance of early German Romanticism Arguing that the early German Romantics initiated an original movement away from idealism Frank brings the leading figures of the movement Friedrich Schlegel and Friedrich von Hardenberg Novalis into concert with contemporary philosophical developments and explores the role that Friedrich Hölderlin and other members of the Homburg Circle had upon the development of early German Romantic philosophy Flight of Fantasy Neil H. Donahue,Doris Kirchner,2005-12-01 During the Nazi era many German writers chose or were forced into exile Many others stayed and after the end of this period claimed to have retreated into Inner Emigration The nature of this kind of emigration

and the underlying motives of these writers have been hotly debated to this day Though the reception of Inner Emigration has often been confounded by disputes over the term itself the issue is ultimately not a matter of nomenclature but of more far reaching issues of literary evaluation moral discernment and the writing of history This volume presents for the first time to an English speaking readership the complexity of Inner Emigration through the analysis of problematic individual cases of writers who under constant pressure from a watchful dictatorship to conform and to collaborate were caught between conscience and compromise

Objects and Pseudo-Objects Bruno Leclercq, Sebastien Richard, Denis Seron, 2015-04-24

The development of science logic mathematics and psychology in the 19th century made it necessary to introduce a growing number of new entities of which classical empiricism and strong extensionalism were unable to give a wholly satisfying account One of the major issues confronting the 20th century philosophers was to identify which of these entities should be rationally accepted as part of the furniture of the world and which should not and to provide a general account of how the latter are nevertheless subject to true predication The 13 original essays collected in this volume explore some of the main approaches to this issue in the 20th century including Brentano Meinong Husserl Carnap Frege Twardowski Kotarbinski Nicolai Hartmann and realist phenomenologists
