School As Community:

Community Schools JoAnne Ferrara, Reuben Jacobson, 2019-05-24 Ferrara and Jacobson go inside community schools across the country to explore the different roles that make this collaborative education reform work. This book provides practitioners, policymakers, family members, youth, and local leaders a greater understanding of the different roles that make up a community school and tools for action. Built on years of practice research and continuous improvement, community schools are an innovative, effective, and grassroots strategy for bringing schools and communities together in order to improve outcomes for students, families, and communities. This education reform is growing as school site, local, and state leaders seek collaborative solutions to our schools' most persistent challenges. The contributors, experts in the field, represent a diverse group of people with longstanding commitments to the community school strategy. From principals to family members, from community partners to teachers, this book illustrates how together we all have a part to play in the development of successful community schools.

Building Community in Schools Thomas J. Sergiovanni, 1994. Sergiovanni documents cases of schools that have successfully reinvented themselves in order to establish a sense of community as the foundation for all curriculum and instruction decisions. Teachers, administrators, teacher educators, and communities seeking advice and motivation for restructuring schools for the 21st century would be well advised to consult this work.

Choice Provides the practitioner with both a theoretical blueprint with which to build learning communities and a rich supply of benchmark illustrations to use as prototypes. Thought provoking and challenging.

NASSP Bulletin Both in and out of schools, people are experiencing a loss of community. In this book, Thomas J. Sergiovanni explains why a sense of community is so vital to the success of any school and shows teachers, parents, and administrators what they can do to rebuild it. Filled with case studies and other school examples, *Building Community in Schools* provides the necessary intellectual framework for understanding the need to create communities that are inclusive, meaningful, and democratic.
