The Reading of Silence Patricia Ondaatje, 1991 This is a study of Virginia Woolf's lifelong preoccupation with silence and the barrier between the sayable and the unsayable Using a wide range of thinkers from Kierkegaard to Kristeva and Derrida Laurence demonstrates convincingly that Woolf was the first modern woman novelist to practice silence in her writing and that in so doing she created a new language of the mind and changed the metaphor of silence from one of absence or oppression to one of presence and strength It suggests new directions for Woolf criticism

People In Trouble Wilhelm Reich, 1978-04 First published by Reich in 1953 *People in Trouble* is an autobiographical work in which Reich describes the development of his sociological thinking from 1927 to 1937 In simple narrative form he recounts his personal experiences with major social and political events and ideas and reveals how these experiences gradually led him to an awareness of the deep significance of the human character structure in shaping and responding to the social process The importance of Karl Marx's work and its distortion by communist politicians plays an important role in Reich's account as does the political activity in the

International Psychoanalytic Association which led to his expulsion from that organization in 1934 The Norwegian press campaign against his biological experiments is also discussed People in Trouble is the story of one man s courageous struggle to understand the political activity of his fellow men

Web of Spindled Time Tom Henderson,2011-05-11 WEB OF SPINDLED TIME A Poetic Point of View A spiritual journey unspooled in free verse short prose and original artwork the image of spindled time perfectly captures the experience of encountering Hendersons cosmic tome This rhythmic alternation of inward and outward focus is one of Hendersons persistent themes introduced in the prologue Looking outward at my world I observed the constant changes around me Peering inward I analyzed My own shifting feelings and revisited frequently most memorably in several examples of concrete poetry Elsewhere various narrators on numerous paths and journeys invariably learn how much they do not yet know In Blakean fashion Henderson strives to deconstruct the tension of man simultaneously seeing himself as the image of perfection and as a mere and mortal fool Wisdom he suggests lies in unifying both visions often via paradox In The Flight of the Spirit for instance the narrator laments I have searched for an escape But death comes to all Escape then is inevitable Life is short After further contemplation however he instead concludes that chains are loosened by death The soul drifts into the freedom Of eternity Forever has no end If death is short And life is everlasting For all its lofty philosophical inquiries Hendersons poetry is generally unadorned marked by plain speech and the occasional simple rhyme scheme Because the mystic nature of these revelations is likely to confound reason the mind can be slow to believe so reading in small doses may be the best approach Readers who see spiritual perfection as a journey rather than a destination will appreciate Henderson as a fellow traveler

The Silver Cup Joseph Munoz,2013-05-08 Book is written to interact in a personal way with your consciousness It takes you on a journey from the higher self to the mental plane of imagination The mental plane of imagination serves to expand our awareness and to program our consciousness with truer and higher thought forms that manifest as realities All readers are endowed with the power to define reality As a result no two readers will experience this book the same way It is the free will of each person that accepts or rejects thought forms as beliefs or intentions The universe clearly places the responsibility of developing consciousness squarely on our shoulders It is the expectation of those involved with this book that you the reader are no longer the same person but a transformed one A person that is more knowledgeable and awake to a life as a co creator living and creating reality in the image of God The book unfolds in mini chapters that will provide a varied dosage of topics on consciousness Do not be in a rush to finish book rather take the time necessary to reflect on its meaning for your life and development The book does not have to be read from beginning to end It really was not written in any particular order The book is intended to speak directly to your soul Topics were developed in the context of inspiration and with awareness information was captured May your journey begin today as you walk the path towards expanding your consciousness
