Silent Takeover:

The Silent Takeover Noreena Hertz, 2002-06-28 Named one of the best books of the year by The Sunday Times of London and already a bestseller in England Noreena Hertz's *The Silent Takeover* explains how corporations in the age of globalization are changing our lives our society and our future and are threatening the very basis of our democracy Of the world's 100 largest economies fifty one are now corporations only forty nine are nation states The sales of General Motors and Ford are greater than the GDP gross domestic product of the whole of sub Saharan Africa and Wal Mart now has a turnover higher than the revenues of most of the states of Eastern Europe Yet few of us are fully aware of the growing dominance of big business newspapers continue to place news of the actions of governments on the front page with business news relegated to the inside pages But do governments really have more influence over our lives than businesses Do the parties for which we vote have any real freedom of choice in their actions Already sparking intense debate in England and on the Continent *The Silent Takeover* provides a new and startling take on the way we live now and who really governs us The widely acclaimed young socio economist Noreena Hertz brilliantly and passionately reveals how corporations across the world manipulate and pressure governments by means both legal and illegal how protest be it in the form of the protesters of Seattle and Genoa or the boycotting of genetically altered foods is often becoming a more effective political weapon than the ballot box and how corporations in many parts of the world are taking over from the state responsibility for everything from providing technology for schools to healthcare for the community While the activities of business frequently under pressure from the media and the consuming public can range from the beneficial to the pernicious neither public protest nor corporate power is in any way democratic What is the fate of democracy in the world of the silent takeover *The Silent Takeover* asks us to recognize the growing contradictions of a world divided between haves and have nots of gated communities next to ghettos of extreme poverty and unbelievable riches In the face of these unacceptable extremes Noreena Hertz outlines a new agenda to revitalize politics and renew democracy

Passion for Peace Stuart Rees, 2003 *Passion for Peace* considers the use of non violence and attaining human rights for all It also raises questions about current issues including peace in the Middle East US unilateralism the war on terrorism powerlessness associated with poverty racism and justice for asylum seekers

BOOK JACKET

The Monfort Plan Jaime Pozuelo-Monfort, 2010-04-05 The Monfort Plan is a five year forward looking plan to eradicate extreme poverty from the developing world and details how microfinance has made a difference to developing countries This book proposes a new institution based in the developing world with the potential to provide a basic free and universal service in the areas of water sanitation healthcare and education to the extreme poor worldwide The provision will be subject to a certain degree of conditionality in areas ranging from corruption to legal environment The new institution will be established in a new international territory based within a specific country in Subsaharan Africa and will emerge in 2015 In *The Monfort Plan* author Jaime Pozuelo Monfort engineers and designs a solution to lessen the burden of

poverty In order to do so he relies on the social sciences to bring about innovation and forward looking economic policies and financial instruments in the context of a paradigm shift This book presents a multidisciplinary approach to policymaking that combines a range of fields in the social sciences looking at the history behind the Marshall Plan the formation of the European Union and the Bretton Woods Institutions in order to determine how a Marshall Plan for Africa and the creation of New Institutions in the developing world could work We live a moment of crisis in which creative policymaking might prove useful when proposing outcomes for a revitalized framework for capitalism to thrive and better serve the world Walks you through the technicalities of the new architecture of capitalism in a straightforward manner Provides a holistic view of how microfinance combined with the right economic policies and financial instruments could help change the world for the poor Contains sweeping and detailed recommendations on how to build a new capitalist paradigm that helps elevate the poor and improve the human condition Incorporating commentary from some of the top minds in the field of microfinance this book puts the method of microfinance in perspective **Direct Action and Democracy Today** April Carter, 2005-01-14 More and more people around the world are protesting to defend their rights resist injustice or oppose undemocratic rule In this book April Carter debates the nature and meaning of such protest and discusses the relationship between direct action and people's claims for greater democratic control not only against repressive regimes but also in liberal parliamentary states The book begins by looking at non violent direct action in historical context tracing its evolution from the end of the Second World War to the present day It examines the association between direct action and the social movements of recent decades and charts its role in the new global movement against neo liberal economic policies The second part of the book relates direct action to political theory to ascertain how it fits with theories of liberal republican and deliberative democracy It goes on to consider socialist and cosmopolitan approaches to democracy and popular resistance and concludes by looking at the implications of protest politics for current democratic thinking and contemporary world events This book will be a valuable resource for students and scholars of international politics and political theory *Democracy and Media Decadence* John Keane, 2013-10-31 We live in a revolutionary age of communicative abundance in which many media innovations from satellite broadcasting to smart glasses and electronic books spawn great fascination mixed with excitement In the field of politics hopeful talk of digital democracy cybercitizens and e government has been flourishing This book admits the many thrilling ways that communicative abundance is fundamentally altering the contours of our lives and of our politics often for the better But it asks whether too little attention has been paid to the troubling counter trends the decadent media developments that encourage public silence and concentrations of unlimited power so weakening the spirit and substance of democracy Exploring examples of clever government surveillance market censorship spin tactics and back channel public relations John Keane seeks to understand and explain these trends and how best to deal with them Tackling some tough but big and fateful questions Keane argues that media decadence is deeply harmful for public life **The Politics of**

Breastfeeding Gabrielle Palmer, 2009-04-29 Now fully updated this text explores the political economic and social implications of bottle feeding versus breastfeeding in today's society *Beyond Neoliberalism and Neo-illiberalism* Markus Gabriel, Anna Katsman, Thomas Liess, William Milberg, 2024-05-23 In many countries the political backlash against neoliberalism has mainly been a retreat from democracy with a decline in independence of the judiciary and the monetary authorities increased control of the media and manipulation of elections for purposes of authoritarian control The economic dynamics and the impact of neoliberalism i.e. deregulation and liberalized markets is just one cause of this authoritarian shift The contributors to this volume examine the impact of neoliberal economic policies in relation to cultural and political factors and how these have promoted the recent authoritarian turn as well as probing the economic policies and performance of the illiberal regimes Oh, Oh Canada! who Stands on Guard Ronald Coleman, 2003 The Author examines the current state of the Canadian Forces after what he describes as four decades of malignant neglect and concludes that it is not capable of executing the roles and tasks assigned under the government's policy as outlined in the Defence White Paper 1994 Furthermore he examines the Canadian foreign policy from which defence policy is derived and concludes that it does not address the current and future threats to Canada and Canadians The threats to Canada today and in the future are explored in detail and the means to counter them are examined The author also explores the relationship the Canadian military has to the UN NATO and our closest ally the US He finds that all of them need serious revision However to do so a complete and detailed analysis of our foreign policy is necessary in the new world of disorder following the tragic events of 9/11 Internal and external threats are revealed and discussed as well as how to deter them Coleman explains why the current series of town hall meetings across the country is wholly inadequate and calls for a major foreign policy review This is necessary in order to respond correctly and adequately to the US request for participation in the Missile Defense System Also in his view our traditional interface with the UN and NATO particularly where peacekeeping is involved needs revision He calls for necessary changes in the Department of National Defence Headquarters NDHQ structure and the military organization across the country He explains why NDHQ needs to be disintegrated and replaced with a dual reporting system to the minister Further he presents rational arguments for the real unification of the three military forces into a marine-like structure in order to respond appropriately and adequately to international terrorism and international violence that is on the rise He goes further and outlines a new organizational structure that reduces overhead executives commands and management levels in order to truly make the military and headquarters more efficient effective and economical He is clear that only by taking these measures will we regain the respect of our allies and our enemies as well as increase our influence in the international forums where it has been slowly eroding The transfer of search and rescue and VIP operations to private industry will free up military billets for military functions and generate jobs and profits for private industry in these roles These tasks in his view are essentially non-military tasks Military search and rescue and VIP flights can be handled by the

Marines Also he believes that peacekeeping should be transferred to DFAIT where the responsibility lies with more emphasis on early intervention so that technical experts humanitarian efforts medical assistance law order and justice can be maintained rather than re constructed after civil war or worse has destroyed the infrastructure and institutions Peacemaking however should remain the responsibility of DND where the new structure the new equipment and the new training will improve our current delinquent approach to the problem The Reserve will be tasked with the role of the defence of Canada which will give it purpose finances training equipment and a structure to effect it which currently does not exist Coleman makes a compelling case for the review of foreign defence policy and the restructuring of the Canadian military He exposes the problems and proposes solutions He takes no prisoners In his review it becomes clear that Canada and Canadians no longer stand on guard
